Message from President Ross

Dear Student:

Welcome to the 2015-2016 academic year at Lynn University. Our long-held mission is to provide the education, support and environment that enable individual students to realize their full potential and to prepare for success in the world.

Lynn University has emerged as a center for discourse, and we welcome renowned speakers and thought leaders to our campus each year to engage in important conversations. Our commitment to facilitating face-to-face, open exchanges of ideas is also prominent in our path breaking core curriculum, the Dialogues of Learning.

Now is a transformational time in education, and as technology continues to evolve, Lynn is very proud to be an early adopter. As part of the Dialogues, we launched the iPad mini initiative, one of the most extensive tablet-based learning efforts in the country. As a result, Lynn has been recognized as an Apple Distinguished School for our willingness to work with students on how they live and learn today. Each iPad is preloaded with core curriculum iBooks created by our faculty members, and we are proud to have supportive faculty and staff dedicated to the success of our diverse student body.

On February 1, 2006, we launched our 15-year strategic plan, Lynn 2020, in which we clarified our vision to be recognized as one of the most innovative, international and individualized small universities in the country. Our progress under the plan has been incredible, and our university continues to grow physically and in the services we offer our students.

A Lynn education stands apart from all others, and your time here will be filled with dynamic courses, unique learning experiences, and countless opportunities for intellectual and personal growth. By studying at our university, you are making one of the most important investments in your life, your education, and whether you are just beginning your undergraduate career or completing studies for an advanced degree, we are happy to have you as a member of the Lynn family.

I hope you have a wonderful and successful academic year, and please remember that we are all here to support you as you pursue your academic goals.

Sincerely,

Kevin M. Ross
President
Chapter I.

Overview and Introduction to Lynn University

General Information

Lynn University is an independent, innovative college based in Boca Raton, Florida. With more than 2,500 students from 90 countries and nearly all 50 U.S. states, the school is consistently ranked among the top five most international schools by \textit{U.S. News and World Report}"Best Colleges." Lynn's NCAA Division II Fighting Knights have won 23 national titles, and its Conservatory of Music features a world-renowned faculty of performers and scholars. The school's Dialogues of Learning curriculum, award-winning iPad program and international student base help Lynn graduates gain the intellectual flexibility and global experience to fulfill their potential in an ever-changing world. For more information, visit \url{www.lynn.edu}.

Academic Programs

Lynn University is focused on one thing: student success. Our merit-based structure ensures that our professors concentrate on the art of teaching—making good students great and great students remarkable. Lynn undergraduate, graduate and certificate programs emphasize career preparation and intellectual exploration through dialogue and experience. Our flexible degree programs are designed to fit how students learn and live ... whether they are embarking on a career path for the first time, continuing education to fulfill a lifelong dream, or brushing up on skills to become a more valuable employee.

The university is comprised of four colleges—College of Arts and Sciences, College of Business and Management, College of Education, and College of International Communication—plus the School of Aeronautics and the Conservatory of Music. Lynn's Institute for Achievement and Learning offers internationally recognized programs to help students with learning differences become independent learners.

Location

Lynn University is located in residential Boca Raton on South Florida's Gold Coast. Geographically, the city and its surroundings are a center of international trade, linking multi-national companies that serve the world marketplace. Lynn is surrounded by innumerable hotels, clubs, resorts and professional sports teams, offering incredible opportunities for students. The university's location in this hub provides a dynamic medium for educational exchange and learning, including excellent internship opportunities. Boca Raton is located halfway between Palm Beach and Fort Lauderdale and only three miles from the Atlantic Ocean. Accessible from major roadways, Boca Raton is within easy travel distance of three major airports. Nearly 50 percent of Lynn's undergraduate students, including all freshmen, live on campus.

Mission

The mission of Lynn University is to provide the education, support and environment that enable individual students to realize their full potential and to prepare for success in the world.

Vision

Lynn's vision is to be recognized as one of the most innovative, international and individualized small universities in America. Lynn University will capitalize on its youth, location and close student and faculty bonds to become a forerunner institution, a different kind of learning center, an independent, innovative 21st-century university that is unusually devoted to preparing young persons for America's and the world's future. To do so, Lynn will:

1. Remain relatively small, with approximately 2,400 undergraduate and 600 graduate students, and 500 or more adults enrolled annually in continuing education courses and institutes. Lynn will also remain a multifaceted, coeducational, primarily residential university with a small-college atmosphere.
2. Admit a wide array of diverse students, from those with learning differences to the gifted, and those from many countries of the world and states across the nation.
3. Be grounded in the liberal arts but contain a collection of colleges oriented toward emerging professional opportunities, each of which feature superior teaching, applied learning, international focus and experiences.
4. Contain a hallmark student development program that discerns each student's strengths, shortcomings, and special needs and works to develop his or her full capabilities.

(Approved by the Board of Trustees Oct. 12, 2005)

History

When the university was founded in the early 1960s, the campus was surrounded by bean farms, strawberry fields and orchards. Today, the institution has grown to 123 acres in a county of close to 1.37 million residents. The university's South Florida home has become one of the most strategic international gateways to America and an important center of finance, commerce, culture and international trade.

Originally named Marymount College, later the College of Boca Raton, and then renamed Lynn University in 1991, it began as a two-year college from 1962 to 1986. Lynn celebrated the 50th anniversary of its founding in 2012-2013.

Kevin M. Ross became Lynn University's president on July 1, 2006. He succeeded Donald E. Ross, who saved Marymount College from closing, and served as president from 1971 to 2006.

On March 16, 2012, Lynn dedicated the Remembrance Plaza, which was designed to honor the legacies of the four students and two faculty members who died in the 2010 Haiti earthquake while performing community service. Rich in symbolism, the plaza features six prisms shimmering with light and a cascading waterfall. The Keith C. and Elaine Johnson Wold Performing Arts Center opened in spring 2010 and was host to the Oct. 22, 2012 Presidential Debate between Barack Obama and Mitt Romney.
Chapter II.

Campus Life

Every phase of Lynn University life provides a learning situation wherein the student is guided toward wise decision making. While the university primarily emphasizes formal learning through instruction and study, it clearly recognizes a student's personal and social needs. To serve these needs, the university offers a Division of Student Affairs.

Student organizations covering a wide range of interests offer the opportunity to develop many talents and skills. By participating in these activities, the student is exposed to situations that challenge initiative and leadership. The Division Student Affairs includes the Vice President for Student Affairs, Dean of Students, Associate Dean of Students, Campus Recreation, Counseling Center, Women’s Center, Housing and Residence Life, Health Center, Spiritual and Religious Life, Campus Safety, and Center for Student Involvement. The Office of the Dean of Students provides assistance in securing advice on university-related concerns. The dean is also responsible for maintaining an open line of communication between staff, students and parents.

Student Involvement

The Center for Student Involvement is committed to providing a variety of activities that complement the university’s academic program. Students can choose activities that will contribute to their personal development and enjoyment: student government, service clubs, Greek life and participation in any number of special interest organizations. Social activities include game shows, dances, comedy acts, live music, cultural events, international festivals, films, pool parties, sports days, award dinners, and novelty entertainment.

Campus Recreation

Students are encouraged to participate in a wide range of intramural programs, including basketball, flag football, soccer, volleyball, kickball, softball, tennis, billiards, ping pong, and others.

Club Sports

The university currently offers two club sports; soccer and dance. Depending on student interest, other club sports such as lacrosse and baseball may be established. Uniforms, coaches and schedules are provided for the club sports teams. Soccer competes in a club sports league. There is a club sports fee for each student who chooses to participate in a club sport.

Residence Halls

Lynn University’s five residence halls (Lynn, Trinity, de Hoernle, Freiburger and E. M. Lynn) provide living accommodations for more than half of the university’s students. All room accessories (bedspreads, lamps, etc.) are provided by the student. Computer Internet access and cable television connections are provided. The Office of Housing and Residence Life assigns new students rooms and roommates. Returning students must choose their rooms and roommates before leaving campus for the summer. Through the cooperative efforts of all, a living environment rich with the joys of friendship and sharing adds a new dimension to the learning experience.

A resident assistant is a para-professional staff member and student whose primary responsibility is to build a community atmosphere among students in each hall. They also have the authority to refer to the Office of Student Conduct any student who is found in violation of campus policies.

Room and Board Schedules

Day Division full-time undergraduate resident students are required to be on a meal plan. The Elmore Dining Commons is open 24/7, and all residential students have unlimited meals as part of their assigned meal plan.

Students with less than 60 academic credits and students who are under 21 years of age are required to reside on campus. Exceptions include students who live with their parents within commuting distance and those who are married or have children.

Counseling Center

Counseling at Lynn University aims to further the total development of each student. This accent on the complete individual implies a very definite interest in all phases of the life of the student whose academic, personal and social welfare are of primary concern. Counseling is provided on an individual basis, and records are maintained in strict confidence by the director of counseling. In addition, alcohol and substance abuse literature and referral services are continually available through the Counseling Center.

Health Center

During scheduled hours, the Health Center staff provides limited medical services to members of the Lynn community. If a serious health problem arises, the staff may refer a student to the services of qualified off-campus medical personnel.

Every student living on campus is required to submit a complete immunization record before being allowed to enroll.

Residential students:
The following health documentation will be required for all students residing on campus: Health History and Authorization for Treatment forms, physical exam within past 12 months, and a record or waiver of immunizations for: MMR (2 doses), Meningococcal Meningitis, and Hepatitis B.

Non-residential students:
Health forms will not be required at the time of enrollment for students not residing on campus. However, those students will be required to sign a Health History, Authorization for Treatment and any immunization exemption forms if/when seen in the Health Center for medical treatment.
The university assumes no financial responsibility for medical services performed other than the university nurse’s official services, nor does it pay any hospitalization costs, including deductibles.

Students who refuse treatment or hospital admission do so at their own risk. If a student is ill, it is the student’s responsibility to report the illness to the Health Center, residence hall staff and/or Student Affairs.

If a student requires medication on a regular basis, he or she is advised to establish a relationship with a local pharmacy. Parents or guardians may be contacted by the university in cases involving students who are transported to the hospital.

Insurance

All students are required to carry medical insurance. Students are required to provide proof of insurance before enrolling at the university or sign up for the university plan. Information about student medical insurance is available from the Office of Student Financial Services.

Medical/Mental Health Emergency Policy

The purpose of this policy is to ensure that all Lynn University students with mental health or physical needs receive timely assessment and access to appropriate services. In the event that a student suffers a medical or mental health emergency, this policy defines the course of action for the student. A serious medical or mental health problem may include, but not be exclusive to, a suicidal threat with or without a plan, a homicidal threat with or without a plan, substance abuse, eating disorders, or any medical or mental health issue that poses a serious threat to the well-being of a student or to the campus community.

When a student experiences serious medical or mental health problems while enrolled at Lynn University, he or she may request to take a voluntary medical leave of absence. The medical/mental health leave of absence must be presented to, and approved by the Dean of Students or his or her designee. Appropriate written verification of the student’s medical/mental health issue must accompany the student’s request for a voluntary medical/mental health leave of absence. When approved, the student will leave campus and be granted a grade of W (withdraw) in all enrolled courses, even if the deadline for withdrawal without academic penalty has passed. If the student desires to return to campus after resolution, the student must adhere to the Medical/Mental Health Readmission Requirements outlined below.

Similarly, the university reserves the right to require a student to take a medical/mental health leave of absence if, in the judgment of the Dean of Students or his or her designee, the student: a) poses a threat to the lives or safety of himself or herself or other members of the Lynn University campus; b) has a medical or mental health problem which cannot be properly treated in the university setting; or c) has evidenced a medical condition or behavior that seriously interferes with the educational pursuits of other members of the Lynn University community. The student MUST gain prior permission from the Dean of Students or his or her designee in order for the student to return to campus as outlined under Medical/Mental Health Readmission Requirements below. In making a decision to require a student to take a medical/mental health leave of absence, the university acts out of concern for the student and his or her rights, a concern for the other students and a concern for the university as a whole.

Medical/Mental Health Readmission Requirements

Inherent in the policies outlined here regarding the care and concern of students with medical and/or mental health issues is the encouragement of receiving proper treatment and professional services. For students who are voluntarily or involuntarily required to withdraw from Lynn University for medical and/or mental health reasons, the university’s predominant concern is that the students receive the appropriate professional treatment. Lynn University wishes to provide sufficient time away from academic concerns to adequately address the issues that necessitated a leave. Failure to seek ongoing appropriate treatment will seriously infringe upon the readiness to resume student status, and the university will withhold readmission until appropriate treatment has been received and documented.

Prior to readmission, a student on medical/mental health leave must provide documentation from the attending medical/mental health professional to the Dean of Students or his or her designee one month prior to the anticipated return date. The documentation MUST include: reasons for treatment, frequency and duration of treatment, full assessment of medical and/or psychological status including history and diagnostic impression, and recommendations/treatment plan for continued recovery. The university also requires that the attending professional assesses whether the student is intellectually, physically and psychologically able to handle academic demands and a return to the university community. If the preceding information is not included, the university reserves the right to delay readmission until proper treatment/documentation has been received. All responsibility for providing the required documentation rests solely on the student who desires readmission.

Once all required documentation is provided, this information will then be reviewed by the appropriate Lynn University health care professionals and by the Dean of Students or his or her designee. During the period of readmission consideration, the student may be required to permit the Dean of Students or his or her designee to communicate with the student's health care provider. The purpose of this communication will be to gather additional information pertaining to the student’s readiness to return to the rigors of academic life. If the student is permitted to return, the university may at that time set forth special conditions or requirements, such as meetings with the Dean of Students or other university medical/professional personnel to monitor the student’s progress. In addition, the student may be required to establish an ongoing professional relationship with Counseling Center or Health Center staff. The decision to allow a student to return from a medical leave of absence may be reversed if the student fails to abide by the special conditions for return or if the student fails to be a responsible member of the Lynn University community.

Substance Abuse

Lynn University maintains a drug-free environment and a strict policy relating to the possession or use of any drug as defined by local, state and/or federal law, including marijuana. Any student found in possession of or involved with any type of drug will be sanctioned by the university’s conduct review board. A university representative will communicate with the parents if the student is found responsible for a violation of the university drug policy.

Students of legal age are permitted to have alcohol in the privacy of their rooms. Students who choose to drink alcoholic beverages must do so in a responsible manner. Students are not permitted to have alcoholic beverages in public areas (i.e., hallways, lounges, pool, etc.). Students who violate the alcohol...
policy will be sanctioned by the university’s conduct review system.

Substance Abuse Prevention Program

The university recognizes the problems that exist in today’s society with regard to alcohol and substance abuse. As such, alcohol and substance abuse literature, counseling and referral services are available through the Counseling Center. Lynn University is in compliance with the Drug-Free Workplace Act.

General Student Affairs Regulations and Policies

The university regards its students as responsible young adults and allows them considerable personal freedom. Specific rules, regulations and procedures are found in the Student Handbook, which is available on the university Web site (www.lynn.edu).

Policies are created to help promote a community atmosphere that is conducive to the pursuit of an academic program. Violation of the university code of conduct may lead to disciplinary action.

Upon dismissal or suspension from the university, the student’s tuition and fees will not be refunded. Further, in the event that there has been only a partial payment of fees and tuition, the university will consider the balance due. There will be no refund of tuition, fees, charges or any other payments made to the university in the event that the operation of the university is suspended at any time as a result of any act of God, strike, riot, disruption or for any other reason beyond the control of the university. Admission of a Lynn University student for any academic year does not imply that such student will be reenrolled in any succeeding academic year.

All students are subject to the regulations and guidelines in this catalog and in the Student Handbook.

Automobiles

Automobiles are allowed on campus, but must be registered with Campus Safety. Speeding and driving and/or parking on the grass and similar violations will result in fines, towing and/or loss of the privilege of having a car on campus.

Dismissal

The university reserves the right to dismiss any student who fails to meet the required standard of scholarship and to dismiss or suspend any student for violation of university rules or for any other reasonable cause. In view of the foregoing and since the university must make its financial commitments for the entire academic year, no reduction or refund of fees will be made in instances of student dismissal or suspension.

Property Damage Responsibility

Lynn University does not assume responsibility for loss or damage to students’ personal property and effects. Insurance protection for personal effects should be obtained from an independent source in conjunction with parents’ insurance or students’ insurance. Resident students are responsible for their residence hall rooms. Damage to residence halls rooms and public areas on campus are assessed based on individual, joint or group responsibility. The university attempts to identify individuals responsible for damage or vandalism. When such identification is impossible in a residence hall, all students who reside in the particular area must bear an equal portion of the cost and responsibility. Rental safes are available for each student within the residence hall rooms.

Public Access to the University Campus

Individuals wishing to enter the campus of this private institution for the purpose of meeting or visiting with students, faculty or staff must check in at a security gate and state their business on campus. This includes the news media and anyone who may have business with students, faculty or staff members.

Access to campus is restricted from 9 p.m. - 7 a.m. All persons, student or non-student entering campus after 9 p.m., must provide a valid form of photo identification (Lynn ID card or driver’s license). This requirement also pertains to all passengers and guests in a vehicle. This policy is intended to safeguard the privacy of the university community and to help ensure a safe and secure campus environment. Students must assume full responsibility for their guests.

Athletics

Lynn University holds membership in the National Collegiate Association (NCAA) Division II and the Sunshine State Athletic Conference.

Intercollegiate athletic programs are open to all students in accordance with NCAA, Sunshine State Conference and institutional eligibility standards. Currently active intercollegiate teams include men’s soccer, basketball, baseball, lacrosse, golf and tennis, and women’s golf, soccer, basketball, tennis, volleyball, swimming, cross country and softball.

The Higher Education Amendments of 1992 necessitated the development of the Equity in Athletics Disclosure Act of 1994. This disclosure of data on participation rates and financing of men’s and women’s sports in intercollegiate athletic programs at Lynn University is available in the Office of Student Financial Services.

The Student Right-to-Know Act of 1990 requires disclosure of graduation or completion rates and transfer-out rates for: (1) the general population of full-time degree program undergraduate students and (2) students who receive athletically-related student aid, broken down by race and gender within sports. This information is available in the Student Financial Services office.

Student-Athlete Substance Abuse Prevention Policy

Lynn University seeks to promote the development of each student-athlete’s intellectual, emotional and social capabilities. The university has established a drug education and testing program in compliance with National Collegiate Athletic Association (NCAA) recommendations. This program includes random drug testing by the university and the NCAA.

All student-athletes representing Lynn University are required to sign a form of consent regarding this policy. The university’s goal is to better educate its student-athletes on the hazards of substance abuse and the value of prevention programs.
Chapter III.

Lynn University Campus

Lynn University’s picturesque 115-acre campus is landscaped with a variety of tropical and semi-tropical plants and trees. Five lakes reflect the natural beauty of the setting and enhance the harmonious design of the architecture.

Campus Resources

The Ronald and Kathleen Assaf Academic Center provides classrooms, science labs and art studios. Rooms in this two-story structure open onto a scenic courtyard and the Sensormatic Wing. Faculty offices are located on both floors of the building.

The Central Energy Plant, adjacent to the de Hoernle Sports and Cultural Center, provides chilled water to the entire campus for the university’s air conditioning needs. The two-story building, dedicated in February 2014, utilizes reclaimed water (IRIS) in its cooling tower system, dramatically reducing potable water consumption and the Green Initiative’s carbon emissions. Color-coded piping in the plant aids in educating visitors on the different systems in the building, which include sewer, water, electric power, chemical supply and building controls.

The Count and Countess de Hoernle International Center is home to the Conservatory of Music. The 35,000-square-foot center comprises two wings, the Doyle Wing and the Gordon and Mary Henke Wing, as well as the Amarnick-Goldstein Concert Hall; the Benjamin Olewine III Culinary Institute and John and Barbara Fox Laboratory Kitchen.

The Louis and Anne Green Center for the Expressive Arts includes the Institute for Achievement and Learning, Student Financial Services, Office of the Registrar, General Counsel, Employee Services, Information Technology, Purchasing and Accounts Payable, and the Office of the Vice President for Finance.

The Hannifan Center for Career Connections, located in the Eugene M. and Christine E. Lynn Library, provides comprehensive career services to all enrolled students and alumni of Lynn University free of charge. Career Services aims to: 1) assist students and alumni in making sound career plans based on their beliefs and values, skills and aptitudes, interests, personality traits, and knowledge of the world of work, 2) facilitate career opportunities, 3) provide students and alumni access to state-of-the-art technologies, and 4) promote continuous professional and personal growth opportunities for students and alumni. The center partners with Lynn University faculty and staff to create career programs that meet the needs of our diverse student population. Students and alumni are encouraged to make a private consultation appointment to discuss their education and career planning by calling the center directly at 561-237-7286.

The International Business Center is the home of the College of Business and Management. This 32,000-square-foot facility includes 10 classrooms, 10 study rooms, an Idea Lab, Investment Center and 32 staff and faculty offices. The center features state-of-the-art technology for video-conferencing and collaborative spaces that complement the teaching pedagogies at Lynn. The flexible design allows for efficient and effective styles of teaching and learning. Focused study and group study as well as traditional classroom learning promote the values of entrepreneurship in global business. The building is the first Leadership in Energy and Environmental Design (LEED) Platinum certified building on campus. This is the highest level of certification awarded by the United States Green Building Council (USGBC).

The Eugene M. and Christine E. Lynn Library, completed in 1996, is the center of Lynn’s academic community with many resources and services that support learning.

Resources include a collection of about 80,000 physical items including books, journals, magazines, CDs and music scores. The library also has a collection of over 5,000 popular DVDs, known as The Lynn Parents and Families Collection of Great Movies. The library’s electronic resources are vast. A carefully selected collection of research databases containing 86,000 e-journal titles, biographies, reference books, statistics, images and more is accessible through the library website. The library also has more than 141,000 e-books that are accessible via the Web.

The library has 112 computer workstations for student use and features wireless access throughout the building. The music library has two computer workstations equipped with a MIDI ready keyboard for music composition. The Perper Coffee House, located just inside the main entrance to the right, is open seven days a week and offers a variety of refreshments and snacks.

In addition to the library’s services and learning resources, the building is home to the offices of the president emeritus, the vice president for academic affairs, the Eugene M. and Christine E. Lynn College of International Communication, The Center for Instructional Innovation, and the IT Help Desk.

Additional resources are available through Lynn Library’s membership in SEFLIN (Southeast Florida Library Information Network), providing students with direct access and borrowing privileges in 20 regional academic libraries. Students may request a SEFLIN card at the Lynn Library Information Desk.

The Lynn Student Center includes Christine’s, as well as the Elmore Dining Commons, Landgren Chapel, auditorium, the Office of Residence Housing and Residence Life, and the Center for Student Involvement, the Center for Learning Abroad and student meeting rooms.

The Landgren Chapel is dedicated to the memory of Harold and Agnes Landgren. Liturgy is celebrated at 12:05 p.m. Monday through Friday and at 7 p.m. on Sundays. The chapel is available for all faiths and denominations that find the space appropriate for their use.

The Perper Plaza, named for Mary and Harold Perper, is located in the front courtyard of the Lynn Student Center, and serves as a gathering place for students, staff and faculty.

The Lynn University Remembrance Plaza honors the legacies of the four students and two faculty members who died in the 2010 earthquake in Haiti while performing community service. Dedicated in March 2012, the memorial is a place of contemplation, hope and inspiration for the campus community. It features a continuous, cascading waterfall, a free-flowing water curtain, prisms shimmering with light, a wall of iridescent imported granite, a viewing platform overlooking the lake, an embedded fragment of the Hotel Montana where our students and faculty were at the time of
the earthquake, memorial plaques, and benches for reflection and meditation.

The Burton D. Morgan School of Aeronautics, a 2,700-square-foot facility located at the Boca Raton Airport, houses a state-of-the-art Frasca flight training device and is home to the university’s fleet of Cessna 172 and Cirrus SR-20 aircrafts.

The Benjamin Olewine III Preserve is a 11.59-acre pine scrub preserve. One of the oldest plant communities in Florida, it stretches along the western boundary of the campus. The preserve provides a habitat for many plants and animals, and enhances the local community’s biodiversity and animal habitat connectivity. It is home to several endangered species, which include the Florida gopher tortoise, the Florida mouse, the eastern indigo snake, scrub rosemary plant, blazing star plant and the nodding pinweed plant.

The Charles E. and Dorothy F. Schmidt College Center, at the university’s main entrance off Military Trail, includes the Office of the President, Office of Admission, Office of Development and Alumni Affairs, and Office of Marketing and Communication.

The Snyder Sanctuary is designed for meditation, music, celebration and dialogue. It is unaffiliated with any religion and is a place where students are encouraged to explore different beliefs and shared values. Its outdoor labyrinth provides ancient ritual patterns for meditation. A 2,142-square-foot wing includes a lobby, lounge, classroom and preparatory room. The sanctuary’s seating capacity is 140.

St. Joseph Hall includes the Perper Mailroom, a coin-operated laundry facility and the Campus Store, which sells textbooks, supplies, clothing, snacks and gifts. The store also provides check-cashing services.

The Keith C. and Elaine Johnson Wold Performing Arts Center at Lynn University, designed by noted architect Herbert S. Newman, is a state-of-the-art performance facility. Dedicated in March 2010, the 750-seat theatre features superb acoustics and a modern lighting system. Financial Information

UNDERGRADUATE INFORMATION

All student charges must be paid in full before the student is allowed to register or attend classes. ALL STATEMENTS OF ACCOUNT ARE DUE AND PAYABLE IN FULL ON OR BEFORE THE DATE SHOWN ON THE STATEMENT. Since the university incurs many expenses of a continuing nature, such as salaries and maintenance, it is essential that the annual income from tuition and fees be assured in order to plan and maintain these services over the entire academic year. For this reason, it is understood that students are enrolled for the entire academic year or such portion as remains after the date of entrance. Furthermore, the university will not issue a diploma or transcript until all financial obligations have been satisfied. The university reserves the right to change, with or without notice, any of the fees printed in this catalog, and increases should be expected in subsequent years.

**Tuition Refund Plan**

Lynn University has arranged with A.W.G. Dewar, Inc. to offer the Tuition Refund Plan to day students and parents to minimize the financial burden of losses incurred when a student suffers a serious illness or accident and has to leave Lynn before completing the semester. These circumstances usually mean the loss of time invested in studies and the loss of the semester’s costs. This insurance program provides full coverage for tuition and room and board charges.

The plan’s coverage is designed to extend the university’s published refund policy. If a student withdraws because of a medical/physical illness or accident, the plan returns 100 percent of the insured semester tuition as well as room and board. If a student withdraws because of a medical/psychological illness, the plan returns 75 percent of the insured semester tuition as well as room and board provided the student has completely withdrawn from all classes for any condition whose diagnosis is found in the DSM-IV Manual.

Note: This plan is only available for day students and must be purchased prior to Aug 28, 2015.
The cost for the year is a one-time payment of $313 for an on-campus student and $234 for an off-campus student. All students will be billed through the Lynn University Student Accounts office. Special fees, such as Institute Achievement Program fee or mandatory fees such as technology and student services fees are not covered under this plan.

Students who wish to waive out of this plan must complete a waiver form prior to Aug. 28, 2015.

Further information is available at www.collegerefund.com. If you have any questions, contact A.W.G. Dewar directly at 617-774-1555.

Students are responsible for checking with the Office of Student Financial Services on questions of indebtedness.

The university may utilize the services of a collection agency to collect any amount past due. It is understood that the student then agrees to reimburse Lynn University the fees of any collection agency, which may be based on a percentage at a maximum of 33% of the debt, and all cost and expenses, including reasonable attorney’s fees the University incurs in such collection efforts. It is also understood that the student authorizes the University and its respective agents and contractors to contact the student regarding repayment of their account at the current or any future number that the student provides for their cellular phone or other wireless device using automated telephone dialing equipment or artificial or pre-recorded voice or text messages.

If the indebtedness is paid by other methods besides cash, there is a two week waiting period before any official documents are released.

Academic Transcript Release

Official academic transcripts will be withheld for failure to pay tuition, for default on an education debt, failure to repay an education grant overpayment, or not completing the federal mandatory loan exit counseling session.

In case of a bankruptcy, a student under an automatic stay will be an exception until the case is closed, dismissed, or a discharge is granted or denied.

In the case of withholding status, the university will allow the student to receive a single unofficial copy of the academic transcript. The transcript will be marked “Unofficial” on it.

In cases of payments from collection agencies, there is a 5-10 business day processing time for financial clearance and release of the official transcript.

Books

Textbooks may be purchased at the Lynn University Online bookstore with a credit card or the Lynn ID card using the Online Bookstore line of credit. Students who have an existing credit on their student account or is estimated to have one, once financial aid is received will have a “line of credit” at the online bookstore two weeks prior to the beginning of the term through the drop/add period. Students should complete the Online Bookstore Line of Credit form. This will permit the student to go directly to the Online bookstore to purchase their books and supplies and it will be charged to their student account by the Office of Student Financial Services. A large selection of school and personal supplies are also available at the Campus Store.

Graphics, Films and Video Supplies

Students matriculating in the College of International Communication and majoring in programs in Graphics and Visual Communications as well as Film and Video, may incur additional incidental expenses for production supplies. Normally, those expenses will run approximately $200 per semester.

Flight Training Expenses

Students who elect the Flight Option will receive their ground school instruction on campus as part of the regular curriculum (i.e., Primary, Instrument and Commercial Flight Theory). Flight training is conducted at the nearby Boca Raton Airport under Part 141 of the CFRs. New students who elect the Flight Option in September will begin flight training approximately two to three weeks into the fall semester. Expenses are paid directly to Lynn University.

Flight training expenses can differ considerably from student to student because of varying proficiency levels. Therefore, estimated flight training costs are based upon what is considered a reasonable average of instructional hours for the majority of flight students. These costs reflect current flight instruction fees and aircraft rental rates, and are subject to change without notice.

Flying Rates are currently based on $164 per hour for the C-172, $340 per hour for the DA-42, $50 per hour for the instructor (C-172), $55 per hour for the instructor (DA-42), and $80 per hour in the flight training device. These rates are subject to change at any time.

Total for Private Certificate: $13,790
### Flight Training Deposit

Students electing to obtain their flight certificates through the Burton D. Morgan School of Aeronautics must place a $2,000 deposit on their flight training account specifically for flight training prior to beginning flight training in each certificate. Students may use this deposit to cover flight training costs. The student does not need to keep the full deposit amount on account. Any portion of the flight training deposit not used for flight training is fully refundable.

The curriculum lists the flight theory and related flight training course work in the first two years.

Students are not bound by this schedule and may complete their ratings at any time prior to graduation. However, students should schedule their flight training courses to coincide with the related ground school courses and should note that not all ground school and flight training courses are available every semester.

A new Flight Option student who already has a pilot’s certificate and rating(s) can apply for and receive credit for equivalent courses in the curriculum. However, prior to the award of any credit, the chief flight instructor will administer the standard Part 141 diagnostic evaluation to determine whether any review (ground school or flight) is necessary. The flight school director has final authority over all flight-related credit awards. Students enrolling in Lynn University and pursuing pilot certificates and ratings outside the university’s flight program will not receive credit for any equivalent flight courses in the curriculum.

Students are required to obtain personal liability coverage to protect them from liability costs that may occur as a result of operating an aircraft. No student will be allowed to fly until proof of liability coverage is placed in the student’s record at Lynn University.

### Computer Procedural Training Device (CPT Devices)

Students in the Flight Option who are enrolled in any of the three flight training courses may utilize the CPTs as required by the instructor. A lab fee will apply in accordance with the following scale:

Payment of the appropriate lab fee will entitle the flight student to use the CPTs during private pilot training at no additional charge. During instrument training, the student may use the CPTs as required by the syllabus at a discounted rate.

Payment of the appropriate lab fee will entitle the flight student to use the CPTs as required or recommended by the instructor, at no additional charge. If, however, the instructor determines the student needs instruction on the CPT to prepare for the next flight lesson, the appropriate instructor fee will apply. When using an instructor not employed by Lynn University, however, a $30 per hour fee will apply.

### Day Division Refund Policy

In cases of withdrawal from the university, a student must file a Request for Withdrawal form that establishes the date to which the university refund schedule applies. It is also the student’s responsibility to make a written refund request to the Office of Student Financial Services before refunds will be made.

REFUNDS ARE CALCULATED ON THE BASIS OF TOTAL SEMESTER CHARGES PAYABLE AFTER DEDUCTIONS FOR NONREFUNDABLE DEPOSITS AND OTHER NONREFUNDABLE FEES SUCH AS LAB FEES, SERVICE AND TECHNOLOGY FEES.

If a student withdraws prior to 60 percent of the term, all Lynn University grants and scholarship funds will be prorated to the university accounts. This policy may result in a financial obligation that is payable to the university at the time of a student’s withdrawal.

### Return of Title IV Funds Policy

Title IV funds awarded to a student under the assumption the student will attend school for the entire period for which the assistance is awarded. When a student withdraws or when stops attending all of his or her classes for a three-week period, the student may no longer be eligible for the full amount of Title IV funds that the student was originally scheduled to receive.

The university is required to calculate a “Return to Title IV Refund Calculation” if the student has stopped attending or withdrawn prior to completion of 60 percent of the term.

If Title IV financial aid has been used to pay for all or any portion of these charges, financial aid program funds will be reimbursed to the appropriate agency in accordance with a formula required by federal regulations. Unearned Title IV funds will be returned to the Title IV Programs based on the number of days not attended. The order of refunds will be: Federal Direct Unsubsidized Loan, Federal Direct Subsidized Loan, Federal Perkins Loan, Federal Direct PLUS Loan, TEACH Grant and Federal Perkins Loan. Title IV funds are awarded to a student under the assumption the student will attend school for the entire period for which the assistance is awarded. When a student withdraws or when stops attending all of his or her classes for a three-week period, the student may no longer be eligible for the full amount of Title IV funds that the student was originally scheduled to receive.

This policy may result in a financial obligation that is payable to the university at the time of a student’s withdrawal or when the school determines the student has stopped attending classes.

Example: Student receives a Federal Pell Grant for $2,000 and a Federal Direct Loan for $1,930 for the semester. Student attends three weeks into the term. This represents only 20 percent attendance of the term. Therefore, a Return to Title IV Calculation must be computed. Student would lose $1,930 for their Federal Direct Loan and $1,214 of their Federal Pell Grant. The student will owe this amount to the university as charges would not be adjusted after 25 days into the semester.

### Leave of Absence (LOA)

The student may request a medical Leave of Absence from study in an undergraduate degree program. The student must receive approval from the Dean of Students. Each student may request up to one year of leave. Students receiving federal financial aid will be treated as a “withdrawal” for funds recalculations and funds will be returned to the appropriate agencies, if applicable. For financial aid purposes, the Lynn LOA does not meet the federal definition of eligibility and therefore the institutional Leave of Absence will be
considered as a withdrawal from the University. This may cause a financial obligation to be due to Lynn upon exiting the University and for the student to go into repayment of their student loans.

**iLynn and Graduate Refund Policy**

Students receive 100 percent of the tuition paid if they drop courses prior to the date publicized as the first day of the term. For courses dropped during the first week of the term (add/drop) period, students receive 90 percent of the tuition. There is no refund after the first week of the term. This is applicable to undergraduate, graduate, graduate day and Ed.D programs.

**iLynn and Graduate Withdrawal**

Withdrawals from the iLynn and the graduate division programs or classes must be accomplished through the Office of the Registrar and are only permitted through the sixth week of the seven week term and through the seventh (7th) week of the eight week term. It is the student’s responsibility to submit a Course Withdrawal Form. THERE IS NO REFUND AFTER THE FIRST WEEK OF THE TERM

When a withdrawing student has been awarded financial aid and the student withdraws prior to completing 60 percent of the term, and if Title IV financial aid has been used to pay all or any portion of the charges, the financial aid program funds will be reimbursed to the appropriate agency in accordance with a formula required by federal regulations. Unearned Title IV funds will be returned to the Title IV programs based on the number of days not attended. The order of refunds will be: Federal Direct Unsubsidized Loan, Federal Direct Subsidized Loan, Federal Perkins Loan, Federal Direct PLUS Loan, Federal Pell Grant, Federal SEOG and other Title IV aid programs. Students enrolled in only three credits each in the iLynn or graduate terms will have a Title IV calculation computed on two terms.

If a student withdraws prior to 60 percent of the term, all Lynn University grants and scholarship funds will be prorated to the university accounts. This policy may result in a financial obligation that is payable to the university at the time of a student’s withdrawal.

**iLynn and Graduate Division Enrollment Requirements for Financial Aid**

For undergraduate and graduate degrees, a minimum of three credit hours is required in a given term; however, the student must register for two consecutive terms. A student must stay enrolled in at least three credits each consecutive term thereafter to maintain in-school status for the loan programs. Maintaining in-school status refers to not going into repayment. It does not indicate that a student can be enrolled in three-credit courses and be eligible for a loan. For the Florida Programs (Florida Resident Access Grant), credit hour requirements are as follows:

- **Spring I** (January - March) eight weeks 6 credits
- **Spring II** (March - April) seven weeks 6 credits
- **Fall I** (August - October) eight weeks 6 credits
- **Fall II** (October - December) seven weeks 6 credits

Scholarships also are available for iLynn students. Applications are available in the Office of Student Financial Services.

**Full-time Classification for Federal Aid Programs**

- **Day Undergraduate** 12 credits per term
- **iLynn** 6 credits per term
- **Day Graduate (Psychology & Music)** 9 credits per term
- **Evening Graduate** 3 credits per term
- **Ed.D.** 3 credits per term

**Attendance Policy**

Per federal regulations, the University is required to verify student’s attendance for federal grants and loans, including the Federal Pell Grant and Federal Direct Loans before they can be disbursed. Delays in receiving your federal funds are possible if the University is unable to confirm attendance information from the Office of the Registrar.

**Financial Aid**

Lynn University participates in most Title IV financial aid programs. The purpose of these programs is to supplement the resources of applicants and their families. Financial aid awards are made on the basis of need, and applicants must file a financial statement reflecting the family's resources. Since financial aid is limited, applicants are encouraged to apply as early as possible (preferably by March 1 for entrance the following academic year). Tentative awards are made.
when the student has filed all required forms and the analysis of need has been received from the Federal Processing Center. Aid is generally awarded in a combination of loans, employment and/or grants. Students are also encouraged to apply for state grants or loans open to them and to investigate educational loans from local banks.

**Standards of Satisfactory Academic Progress for Financial Aid – Day, iLynn and Graduate Divisions**

Financial aid is awarded contingent upon the recipient maintaining satisfactory academic standing and progress (SAP) toward a degree. Students on federal financial aid (Title IV) will be evaluated annually, both qualitatively and quantitatively, at the end of the spring semester for Day Division students and at the end of the Spring II term for iLynn and Graduate Division students. To assess the quality of a student’s work, Lynn University uses the Fixed Standard. That is at the end of Spring/Spring II, bachelor’s students must have a cumulative grade point average of 2.0, master’s degree students must have a cumulative grade point average of 3.0 and doctoral students must have a cumulative grade point average of 3.25. For the quantitative measure, a student must complete his/her degree within a specific time frame, as shown below:

Students receiving Title IV funding must complete their degrees within a specific time frame as follows:

**Bachelor Degree**
- Full-time: 12 semesters (6 years)
- Part-time: 24 semesters (12 years)

**Master’s Degree**
- Full-time: 18 terms (3 years)
- Part-time: 36 terms (6 years)

**Ed.D.**
- Full-time: 13.5 terms (4.5 years)
- Part-time: 27 terms (9 years)

**Ph.D.**
- Full-time: 30 terms (7.5 years)
- Part-time: 60 terms (15 years)

Each Title IV recipient must meet a specific measurement of academic progress within the specified time frame as follows:

**Bachelor Degree**
- Full-time: 20 credits (annually)
- Part-time: 10 credits (annually)

**Master’s Degree**
- Full-time: 24 credits (annually)
- Part-time: 12 credits (annually)

**Ed.D.**
- Full-time: 12 credits (annually)
- Part-time: 6 credits (annually)

**Ph.D.**
- Full-time: 8 credits (annually)
- Part-time: 4 credits (annually)

A course that receives a grade of “W” for a course withdrawal or a grade of an "I" for an incomplete or a falling grade of a “F” or an “NP” for Not Pass will be evaluated as a non-completed course. These non-completed courses will jeopardize the student to be able to meet the Standard of Satisfactory Academic Progress for Financial Aid.

In summary, all students must meet both criteria; the grade point average requirement and degree time frame completion, in order to continue to receive financial assistance. In essence, at least 67% of the courses attempted must be completed each year with a 2.0 or above grade point average for the bachelor’s program, 3.0 or above grade point average for the master’s program and 3.25 or above grade point average for the doctoral program.

If an undergraduate student falls below 2.0 grade point average or completes less than 67% of their attempted courses, he or she will be placed on financial aid probation for the following semester. This requires a student to complete an appeal process and be approved. This may allow the student to be eligible for federal financial aid reinstatement for the probationary semester. A student is removed from probationary status when his or her cumulative grade point average is 2.0 or better and he or she completes at least 67% of the courses they attempted.

If a student fails to complete their probationary semester successfully, their federal financial aid will be terminated. The student will be eligible for reinstatement of Title IV aid once all satisfactory academic progress standards (course completion and GPA requirement) are met; their eligibility will be reviewed during the next SAP review period which is at the end of spring/spring II.

Repeat courses may not always be evaluated as any other normal course. Lynn University does allow repetition of a course in a student’s enrollment status for a term as long as student has never passed the course. Students can retake a passed course once to improve the initial grade and receive Title IV funds.

Transfer hours accepted toward completion of the student’s program both hours attempted and hours completed may not always be evaluated as any other normal course.

A student may appeal these standards if there has been undue hardship (i.e., medical, death, divorce).

**Appeal and Reinstatement**

Students that do not meet the Standards of Satisfactory Academic Progress (SAP) by both qualitative and quantitative measures will have an opportunity to appeal their circumstances. An appeal form must be completed by the student, their parent if they are a dependent student, and their academic advisor. It must be submitted to the Financial Aid Committee. The appeal must be provided with supporting documentation within 30 days of receiving the federal financial aid termination letter. Students that do not file an appeal, or who have their appeal denied, will be eligible for reinstatement of Title IV aid once all satisfactory academic progress standards (course completion and GPA requirements) are met; their eligibility will be reviewed during the next SAP review period which is at the end of spring/spring II.

**The Standards of Academic progress apply to the following programs:**
- Federal Pell Grant
- Federal Supplemental Educational Opportunity Grant (SEOG)
- Federal Perkins Loan
- Federal Direct Loans (Subsidized and Unsubsidized)
- Federal Parent Loan for undergraduate Students (PLUS)
- Federal Graduate PLUS Loan
- Federal Work Study program
- Federal TEACH Grant

In addition, specific financial aid programs require the following academic achievements for renewals:

**Presidential Scholarship, National Merit Finalist Scholarship and Academic Achievement Scholarship** – 3.5 cumulative grade point average at the end of the spring semester.

**Dean’s Scholarship, Merit Scholarship of $12,000** – 3.0 cumulative grade point average at the end of the spring semester.
Applying for Financial Aid

Student's Satisfactory Academic Progress for Financial Aid Eligibility.

Always include all courses attempted and taken in evaluating the student's satisfactory academic progress for financial aid eligibility. The federal guidelines prohibit the financial aid eligibility. Therefore, the financial aid must always include all courses attempted and taken in evaluating the student's satisfactory academic progress for financial aid eligibility.

Academic Forgiveness

The forgiveness policy allows a student, who has changed his or her major, specialization or minor to discount up to two courses in the abandoned program. The transcript will reflect the student's complete record with an added notation of “Academic Forgiveness Declared” by the selected course(s); however, the grade(s) will not be calculated in the cumulative GPA. Neither the grades nor the credits will be counted toward graduation requirements. A forgiveness policy form is available in the registrar's office and will need the signature of the dean of the school of the newly chosen program, as well as registrar approval. The forgiveness policy may only be used once in a student's college career. However, student requesting an academic forgiveness at Lynn University are not eligible to change their federal status for meeting the Standards of Satisfactory Academic Progress for financial aid. Therefore, the financial aid must always include all courses attempted and taken in evaluating the student's satisfactory academic progress for financial aid eligibility.

Academic Bankruptcy

Students requesting an academic bankruptcy at Lynn University are not eligible to change their federal status for standards of satisfactory Academic Progress for Financial Aid. The federal guidelines prohibit the concept of academic bankruptcy. Therefore, the financial aid office must always include all courses attempted and taken in evaluating the student's satisfactory academic progress for financial aid eligibility.

Applying for Financial Aid

1. All applicants for admission are requested to complete a Free Application for Federal Student Aid (FAFSA). This can be done online at www.fafsa.ed.gov.
2. The FAFSA must be returned to the appropriate processing agency. The agency will process this form and send the university a report on what the family can be expected to contribute to the educational costs.
3. Students should make sure that their transcripts and recommendations are on file at the university, because financial aid decisions are not made until students have been accepted to the university.

Federal & State Eligibility and Drug Policy

A federal or state drug conviction can disqualify a student for Federal Student Financial Aid. The student self-certifies in applying for aid that he/she is eligible for federal funds. The student is not required to provide the documentation of the conviction unless the university has conflicting information in the school records.

Convictions only count if they were for an offense that occurred during a period of enrollment for which the student was receiving Federal Student Financial Aid; they do not count if the offense was not during such a period. Also, a conviction that was reversed, set aside or removed from the student's record does not count. A conviction only counts if the student wishes to have federal financial aid cover through the end of the degree program for both majors.

 Repeat Course

Federal financial aid funds can be paid for only one repetition of a previously passed course. Passing grades are "A", "B", "C", "D", and "P". A student may repeat a failed course until it is passed and use federal financial aid funds.

FAFSA Policy

Lynn University requires all domestic students who receive Federal, some state and institutional aid to complete the Free Application for Federal Student Aid (FAFSA). It is also required for the Federal Parent PLUS Loan.

Dual Major

Dual major students must take courses concurrently in order to be eligible for federal financial aid. Students cannot complete their first major and then decide to take the additional 30 credits for a second major and receive federal financial aid. Both majors need to be decided prior to the senior year and courses are to be taken concurrently if the student wishes to have federal financial aid cover through the end of the degree program for both majors.

Upon receipt of the information, it is reviewed and compared with the information noted on the need analysis. If this new information changes data previously submitted, a revised financial aid award may be sent. Timely response to requests will avoid delays in an accurate assessment of need.
The chart below illustrates the period of ineligibility for Federal Student Financial Aid, depending on whether the conviction was for sale or possession and whether the student had previous offenses. (A conviction for sale of drugs includes convictions for conspiring to sell drugs).

### Possession of illegal drugs:
- **First Offense** – one year from date of conviction
- **Second Offense** – two years from date of conviction
- **Third+ Offense** – Indefinite period

### Sale of illegal drugs:
- **First Offense** – two years from date of conviction
- **Second Offense** – Indefinite period

If the student was convicted of both possessing and selling illegal drugs, and the periods of ineligibility are different, the student will be ineligible for the longer period.

A student regains eligibility the day after the period of ineligibility ends or when he/she successfully completes a qualified drug rehabilitation program. Further drug convictions will make him/her ineligible again.

Students denied eligibility for an indefinite period can regain eligibility for federal assistance only after successfully completing a rehabilitation program as described below or if a conviction is reversed, set aside, or removed from the student’s record so that fewer than two conviction for sale or three convictions for possession remain on the record. In such cases, the nature and dates of the remaining convictions will determine when the student regains eligibility. It is the student’s responsibility to certify to the university that he/she has successfully completed the rehabilitation program; as with the conviction question on the FAFSA, the student is not required to confirm the reported information unless Lynn has conflicting information in the school records.

When a student regains eligibility during the award year, the university may award Pell, Teach, and Campus-based aid for the current payment period and Direct loans for the period of enrollment.

### Standards for a qualified drug rehabilitation program

A qualified drug rehabilitation program must include at least two unannounced drug tests and must satisfy at least one of the following requirements:

- The program must be qualified to receive funds directly or indirectly from a federal, state or local government program, or
- The program must be qualified to receive payment directly or indirectly from a federally or state-licensed insurance company, or
- The program must be administered or recognized by a federal, state, or local government agency or court, or
- The program must be administered or recognized by a federally or state-licensed hospital, health clinic or medical doctor.

A student that undergoes the drug rehabilitation program and is seeking federal aid eligibility must provide a copy of the completed drug rehabilitation program to the financial aid counselor.

### Types of Financial Aid

Applicants do not apply for the various types of awards individually. The university determines the types and amounts of awards based on the amount of aid available in the various programs and the family’s expected contribution.

### Federal Programs

#### Federal Pell Grant and Federal Supplemental Educational Opportunity Grant (SEOG)

The Pell Grant is a federal aid program for those with substantial need. The grant may be worth up to $5,775 per year depending on the family’s resources and the federal funds actually available. The Pell Grant has a life time eligibility of 600%. This means that a student cannot receive more than 6 years (12 semesters) of Pell Grant awards. The Supplemental Educational Opportunity Grant provides additional assistance to those with severe need who cannot meet college costs with other forms of aid. The average award is $2,000 per year. The Free Application for Federal Student Aid (FAFSA) is used to determine eligibility for these grants. This is not available to students pursuing a second bachelor’s degree.

#### Federal Perkins Loan

The Perkins Loan program provides low-interest loans to students with demonstrated need. Repayment of the loan begins nine months after the student ceases to be at least a half-time student. The university will allocate these loans to those who are most eligible. Average award is $2,000 per year. This is not available to students pursuing a second bachelor’s degree.

#### Federal Direct Subsidized Loan

A Direct Subsidized Loan is available to students who demonstrate financial need. The maximum amounts are: $3,500 for a first year undergraduate student; $4,500 for a second year student; $5,500 for a third-year or fourth-year student. For Direct Subsidized Loans first disbursed on or after July 1, 2015, the interest rate is 4.29 percent. The Direct Loan interest rates are subject to change in June, 2016. The Federal government pays the interest on the loan as long as the student is enrolled at least half-time. New borrower on or after July 1, 2013, may receive Federal Direct Subsidized loans for an aggregate of 150 percent of student’s educational program. Once the student has reached the 150% limit, the student may borrow additional funds through the federal direct unsubsidized loans. Interest will begin to accrue on the student’s outstanding Subsidized loan at that time.

Eligibility is based on other sources of financial aid received and a parental contribution factor. Students must complete the Federal Direct Loan form and the Master Promissory Note available online at www.lynn.edu/loans.

#### Federal Direct Unsubsidized Loan

This loan is not based on financial need. A student who wishes to apply for the Direct Loan program and is not eligible based on financial need, or is only partially eligible, may apply for the full or balance of his/her eligibility through the unsubsidized loan program. There will be a fixed rate of 4.29 percent. The Direct Loan interest rates are subject to change in June, 2016. There is also a Direct Loans origination fee of 1.068 percent for loans first disbursed from October 1, 2015 to October 1, 2016. Loans first disbursed prior to October 1, 2015 will have a 1.073 percent origination fee deducted from the loan proceeds. The student is responsible for all in school interest, which can be capitalized at the end or paid through the enrollment periods.

**Veterans’ Benefits (Available for All Credit Programs)**

**Veteran’s Benefits**

For benefit certification purposes, any student receiving VA benefits must submit to the Office of Student Financial Services a copy of their DD 214 and Certificate of Eligibility. Student must report enrollment status changes to the Office of Student Financial Services and to their case manager. Students must be aware they may be liable to repay the VA for course load reductions unless they can establish acceptable mitigating circumstances causing the reduction. SFS will evaluate each Veteran/Veteran dependents’ credits each semester and report them to the Veterans Administration. If a veteran/veteran dependent withdraws, it will count toward his/her benefits eligibility. If a veteran/veteran dependent drops a course, they will not receive payment. SFS will monitor all VA students’ academic records. Please see the VA Web site for further information on policies and procedures.

**Yellow Ribbon Program**

Lynn University is a participant of the Yellow Ribbon GI Education Enhancement Program (Yellow Ribbon Program), which is a provision of the Post – 9/11 Veterans Educational Assistance Act of 2008. The institution is in agreement with the U.S. Department of Veterans Affairs (VA) to fund tuition expenses that exceed the highest public in-state undergraduate tuition rate. The institution can contribute up to 50 percent of those expenses, and VA will match the same amount as the institution. For the 2015-2016 academic year, Lynn University’s commitment to the Yellow Ribbon program is capped at $13,000, which means the Veterans Administration (VA) will also commit to $13,000. The Ch. 33 benefits will already cover $20,235, so in total the VA benefits can pay up to $46,235. Any excess costs beyond $46,235 will be borne by the student.

Lynn University complies with the Executive Order 13607 – Establishing Principles of Excellence for Educational Institutions Serving Service Members, Veterans, Spouses, and other Family Members. All students that expect to receive veteran’s benefits must meet with the VA Certifying Officer to review the financial costs and academic plan prior to enrollment each year.

**Credit for Previous Training**

Students who are eligible to receive educational benefits from the U.S. Department of Veterans Affairs with previous post-secondary training/experience must request that official transcript(s) be sent to Lynn University. All transcripts must be received by the end of the first term or the student’s educational benefits will be terminated until all transcript(s) are received. Should credits be accepted, the student’s training time and total tuition costs will be reduced proportionately. The VA and the student will receive a written notice of allowed credits. This reduction refers to total costs involved in obtaining the degree. Costs are reduced when credits from another institution are applied toward a Lynn University degree. This does not imply a credit reduction allowance for veterans or eligible dependents.

**Summer School**

There are no institutional or state programs available for the summer terms. The three programs available for the summer terms are Federal Direct Stafford Loans, Federal Direct Parent Plus Loan, and private loan programs. Student must be in at least 6 credits for the summer and if the maximum loan limit has been used up for the year then the student must be intending to return for the fall semester for at least 6 credits to obtain a loan or the loan will be pro-rated.

**Lynn 3.0 Program**

Students invited into the Lynn 3.0 Program must enroll in at least 15 credits per semester (Fall and Spring) each of the three years. Lynn 3.0 participants are allowed to take an additional 24 credits any time during their three years at Lynn (including the first two years of summer sessions and all 3 J-Terms). There is no additional tuition cost for these 24 credit hours. Any overloads that exceed the 24 credit hour maximum will be billed at the overload rate of $970 per credit hour.

Students will be responsible for any lab fees that they may incur for any of their courses. The “Three Year Program” does not cover any lab fees or any room and board costs.

**Tax Law (U.S. Citizens and International Students)**

Under current Internal Revenue Service regulations, scholarships or grants for room and board must be reported on the student’s tax return as taxable income. For any F-1 visa student who resides in a country that does not have a tax treaty with the United States, the university will bill that student 14 percent of the award for room and board.

**U.S. Citizens**

Please contact your tax advisor on how to report your taxable scholarship income on your U.S. Income Tax Return.

**International Students**

All foreign nationals are required to complete a profile on the Foreign National Information System site at: https://fnis.thomsonreuters.com/Lynn. All international students will have an FNIS hyperlink sent to their Lynn University email address. Students will also have their initial user ID and password emailed to them. The registration onto this system is required to be updated each year by the student prior to pre-registration of the next year’s courses.

Any international student from a treaty country will need to provide a social security or ITIN (individual taxpayer identification number) and complete form W-8BEN to claim a tax treaty exemption for scholarships. Students who do not provide the required documents will have their student account charged the 14% tax rate of any room and board scholarship amount.

Any international student from a non-treaty country receiving a scholarship will have withholding tax assessed and will be responsible for complying with Internal Revenue Service regulations and deadlines.

The university remits this 14 percent to the IRS and report it as federal income tax withheld. It is the student’s responsibility to file his/her taxes by the required due date with the IRS.

**International Student Loans**

Private loan programs are available for international students. The amount that can be borrowed is up to the cost of attendance at our university. Students will need to obtain an American resident as a cosigner. Students may contact the Office of Student Financial Services for further information.

**International Students Scholarship Policy**

International students who receive scholarships for their education at a U.S. university may be liable for paying taxes to the U.S. government if they meet these criteria:

- If the student is from a treaty country, they will usually be exempt for a period not exceeding five years. Once they have
provided all required documents. The amount of the award that is not exempt has a withholding of 14 percent.

Currently, the countries that do have a reciprocal scholarship tax treaty with the United States are: Bangladesh, China, Commonwealth of Independent States, Cyprus, Czech Republic, Egypt, Estonia, France, Germany, Iceland, Indonesia, Israel, Kazakhstan, Latvia, Lithuania, Morocco, Netherlands, Norway, Pakistan, Philippines, Poland, Portugal, Romania, Russia, Slovak Republic, Slovenia, Spain, South Korea, Thailand, Trinidad and Tobago, Tunisia, Ukraine and Venezuela. Countries are subject to change. Students from any other country will have 14 percent taxes withheld and billed to their school account. If the student is from a non-treaty country, any room and board scholarships will be taxed at the 14 percent rate. Every international student can apply for an Individual Taxpayer Identification Number (ITIN). Applications are available at the Office of Student Financial Services. Students must pay the taxes to Lynn University within 30 days or they will be penalized by the IRS and have to pay additional interest charges. All international students will be required to file an IRS Form 8843 and a 1040NR with the IRS and submit a W-7 form to IRS by April 15, 2016. These tax forms are available in the International Student office. Any student who does not comply with the filing of the tax returns will not have his/her scholarships renewed. The student may contact an international student advisor for more information.

All international students receiving a scholarship must submit a copy of their Social Security number or Individual Taxpayer Identification Number to be eligible to receive the scholarship.

Academic Accommodations

As a learning-centered community, Lynn University recognizes that all students should be afforded the opportunity to achieve their academic and individual potential. The university recognizes and supports the standards set forth in Section 504 of the Rehabilitation Act and the American with Disabilities Act (ADA). In accordance with our mission and federal and applicable state laws, the university is committed to making reasonable accommodations for qualified applicants for admission and enrolled students with disabilities. It is the policy of the university not to discriminate on the basis of disability in any of its educational services, programs or activities. A disability is a physical or mental impairment that substantially limits one or more of the major life activities of an individual, a record of having such impairment or being regarded as having such impairment. The university has designated Stacey Hearn, as the ADA coordinator. Students seeking more information regarding reasonable accommodations or any other related issues should contact Stacey Hearn for further information regarding specific policies and procedures.

Note: Issues regarding employment are handled through the Office of Human Resources.

Academic Bankruptcy

Students entering college sometimes perform at an unacceptable academic level. They either drop out or are dismissed. Some individuals with this experience re-evaluate their educational goals and desire to return to college. Their academic record, however, may present an insurmountable obstacle. Undergraduate students in this category who want the opportunity for a fresh start at the University without this handicap may apply for readmission with the request for Academic Bankruptcy.

Application for Reenrollment to the University with Academic Bankruptcy

A Lynn University student who has dropped out or who has been dismissed may request Academic Bankruptcy on meeting these conditions:

1. The student must apply to the Office of the Registrar.
2. At least six months must have elapsed since the end of the semester or term in which the student was last in attendance at Lynn University.

Conditions of Approval

1. If Academic Bankruptcy is approved all previous courses will remain on the transcript. However, quality points will no longer be applied to the GPA.
2. Up to 30 selected credits may be forgiven; this would include any credits already forgiven by to the Change of Major Forgiveness Policy.
3. Students who have used this policy will not be eligible for: Honor Society, President's Honor Society, Commencement Honors or Commencement Awards. Students may still be eligible for Dean's List.

Academic Bankruptcy can be granted only once for any student.

Caution: Many colleges, universities, and other institutions, such as medical, law, or graduate schools, may not honor another institution's academic bankruptcy policy. At Lynn, the updated GPA may not be applicable for financial aid awards or athletic eligibility.

Academic Grievance Policy

The following Academic Grievance Policy was designed by Lynn University to afford students an opportunity to formally grieve academic related complaints. A student who wishes to file a grievance of a non-academic nature should follow the Grievance Policy outlined in Volume VI, Section 6.8. Lynn University Policy Manual Volume V – Page 58.

Grade Review Grievances

A student who has reason to believe that a grading error has occurred in any class shall promptly submit the grievance in accordance with the procedures outlined in the Grade Review Process.

The procedures outlined in the Grade Review Process should also be followed if the student believes that a grade was determined by standards improperly different from those applied to other students in the course. Student should be aware, however, that evaluation of student performance is the prerogative and responsibility of the course instructor. In questions relating to the quality of that performance, the professional judgment of the faculty member is commonly accepted as authoritative. An appeal is most likely to result in a change of grade for a course or assignment only if it includes documented evidence that there was an error in computing the grade, a posting/clerical error, or that the grade was determined by standards improperly different from those applied to other students in the course.
Definitions

Integrity and honesty are essential to Lynn University's mission and community standards. As an academic community, honor, integrity and truthfulness are essential to the pursuit of knowledge and to establishment of mutual respect and trust among faculty, staff and students. Personal and professional integrity are also essential to our mission to educate students to become responsible and ethical citizens within a global community. Violations of the academic honesty policy undermine the fundamental values and standards of our community, and therefore, faculty, staff and students must accept their responsibility to uphold and abide by the highest standards of integrity and honesty.

Violations of the Academic Honesty Policy include, but are not limited to, the following:

1. Cheating: Intentionally using or attempting to use unauthorized materials, information or study aids in any academic exercise. Inflicting on the academic rights of others, such as defacement or theft of library material.
2. Fabrication: The intentional and unauthorized invention or falsification of any information or citation in an academic exercise.
3. Plagiarism: Intentionally or unintentionally representing the words or ideas of another as one's own in any academic exercise.
4. Facilitation: Intentionally or knowingly helping or attempting to help another to commit an act of academic dishonesty, including unauthorized collaboration on academic assignments.
5. Falsification of Injury: The intentional fabrication or distortion of an injury used as an excuse to miss conservatory rehearsals or concerts.
6. Misrepresentation of External Performances/Commitments: The intentional embellishment of outside commitments used as an excuse to miss conservatory rehearsals, concerts or classes.

Procedures

Faculty members who have evidence of a possible violation of the academic honesty policy must formally report the incident to the Office of Academic Affairs. Under no circumstances is the faculty member permitted to resolve the alleged incident on a unilateral basis. The Office of Academic Affairs will review the faculty member's report, and if sufficient evidence exists, notify the student(s) of the alleged infraction(s). The allegation can be adjudicated by either the informal or formal process. The formal process must be used if a finding of guilt might result in the suspension of the student, including all cases of second violations.

Informal Resolutions

The Office of Academic Affairs will send the student a formal written notification of the allegations and the possible sanctions. The student will then have ten (10) days to respond in one of the following ways:

- Sign the form and request a meeting with the Office of Academic Affairs to discuss the allegations and or proposed sanctions.
- Sign and return the form to the Office of Academic Affairs accepting responsibility for the violation and agreeing to the recommended sanction(s).

If the student fails to respond within thirty (30) days, a hold will be placed on the student's account and the right to participate in the resolution of the allegation will be forfeited.

Formal Resolutions

If the alleged violation could result in the suspension or dismissal from the university, or if the student or faculty member requests a formal resolution, the Office of Academic Affairs will notify the faculty member and the student(s) that a formal hearing of the Academic Dishonesty Committee will be convened. The committee will be comprised of seven (7) full time faculty members to be appointed by the vice-president for Academic Affairs on an annual basis. The Office of Academic Affairs will serve as chair and will not have voting privileges. The vice-president for student development will serve as an ex officio member of the committee.

The Office of Academic Affairs will schedule a hearing in a timely manner and all parties will be notified of time and location. If the accused student(s) requests, the Office of Academic Affairs will assist the student in selecting a member of the university community to advise and assist the student in preparing for the hearing.
All parties will have the opportunity to present his/her evidence to the committee. The documents, testimony and record of the hearings will be confidential. Upon completion of the testimony, the committee will meet in closed chambers and vote on the disposition of the student's status at the university.

Penalties

Depending upon the intent and severity of the violation, a student found responsible for any act of academic dishonesty will be subject to one or more of the following penalties:

- The student is placed on academic honor probation until graduation. For any student on academic honor probation, a second violation will result in a minimum sanction of one semester of suspension from the university.

- In addition to academic honor probation, a student might also receive a grade of "F" on the assignment or test; an "F" in the course; or be suspended or dismissed from the university. No provision will be made for the student to receive a "W" regardless of whether the professor or student initiate said request.

- If the student receives a grade of "F" for the course or is suspended or dismissed from the university, the student will receive the grade with "HF" and/or the notation "Academic Honor Suspension (Dismissal)."

All students found guilty of academic honor violations shall have a written letter detailing the violation and sanction placed in their permanent record. Copies of this letter will also be sent to the faculty member of the course, appropriate college dean, and to the vice president for student development.

Appeals

A student may submit a written appeal of a guilty finding to the vice-president for Academic Affairs within ten days of receipt of the original decision. Appeals must be based on new evidence, additional information or procedural errors or misconduct. The vice president's decision is final.

A student can petition to have the grade of "HF" removed during their last semester as long as there are no further incidents of dishonesty.

Academic Integrity

All members of the university community—faculty, administrators, staff and students—are obliged to adhere strictly to the highest standards of academic integrity in study, research, instruction and evaluation. To protect the integrity of the grading system and to affirm the importance of honesty and accountability in the academic community, the university imposes strict penalties for academic dishonesty.

Note: Please see the Policies section for Academic Honesty Policy.

Add/Drop Period

Course additions or section changes must be made during the official add/drop period as noted on the academic calendar. A student who drops a course during this period will not receive a grade, and the course will not appear on the permanent university record.

Evening students will not receive a full refund if dropping a course after the first day of the term, but an additional course may be added in its place at no charge.

Admission to Classes

Registered students are permitted to enter class only after obtaining financial clearance from Student Financial Services and completing the formal registration process. If a student is withdrawn, this may result in an additional financial obligation to the university.

Advising

The role of a faculty advisor is crucial to the university's educational mission.

As an educational community, the primary relationship for students should and must be with faculty in their roles as teachers and advisors. Faculty design curriculum and therefore are the best sources for guidance and counsel in academic matters. In this context, academic advising is teaching; an ongoing exchange between faculty and students in which faculty explain how and why courses, programs and other educational experiences are related to the needs and aspirations of students. Effective advising involves probing and exploring with students their understanding of themselves as learners and individuals and helping to foster their involvement within our community. Within the academic advising process, faculty educate students on an individual basis about academic programs, policies and strategies for success while also encouraging students to be active, responsible and informed participants in the advising process. Incoming students are assigned a faculty member based upon their academic and/or career interests. The faculty advising program requires that every student meet with his or her advisor on a regular and ongoing basis. The director of academic advising, who is also a member of the faculty, oversees the advising program and provides assistance to faculty and students and serves as a liaison between faculty, students and staff.

Academic advising goes well beyond assisting students with their semester schedule of classes. The role of the academic advisor includes, but is not limited to:

1. helping the student define his or her academic, intellectual, personal and career goals.
2. identifying courses and experiential learning opportunities that will help the student to achieve personal and professional goals.
3. being available and accessible to advisees and working with faculty to monitor students’ academic status.
4. referring students to appropriate campus resources, including personal counseling when appropriate.
5. encouraging awareness of and involvement in cultural and social opportunities on campus for students.
6. learning the policies and requirements for graduation and clearly communicating them to advisees so that they will not be deficient in any university, college or departmental requirements.

Advising Process:

Undergraduate Day freshman and sophomore students must meet with and be registered by a designated faculty advisor. Juniors and seniors will register online via MyLynn, pending approval by their advisor.

Undergraduate Evening students are advised by a designated faculty advisor in the college of their major. After an initial interview and registration, students then may register online for the following terms.

Graduate Day students must meet with and be registered by a designated faculty advisor in the college of their major.

Graduate Evening students must meet with and be registered by a designated faculty advisor in the college of their major.
Audit

Students who wish to audit a class must receive permission from their faculty advisor and the course instructor. A student who officially audits a course, although not required to take examinations, is expected to attend class regularly and to participate in a manner that is agreeable to the instructor. A grade of AU will be recorded on the official university transcript. Full-time undergraduate day student will not be charged for auditing a course. All other students (part-time undergraduate day, undergraduate evening, graduate day and graduate evening students) will be charged an audit fee (see the Tuition and Fees section for current fee).

Cancellation of Courses

The university reserves the right to cancel any course for which an insufficient number of students has enrolled or for other reasons deemed necessary. No charge is made to a student for a registration change necessitated by such course cancellation. Notification of a cancelled class will be sent to students at their Lynn e-mail address.

Change of Degree Information

To change degree information such as major, minor, advisor or catalog year students must complete a Change of Degree Information Form. The form must be signed by the advisor. If an undergraduate day student is changing advisors, the form must also be signed by the director of academic advising. The form must be brought to the Office of the Registrar to be processed.

Change of Personal Information

To change personal information such as address or phone number, a student must complete a Change of Personal Information Form which can be found in the Office of the Registrar.

Citizenship Project

During the January Term or J-Term, all first year students will take a course in our inaugural program, The Citizenship Project. Courses in the Citizenship Project focus on a civic issue, problem or topic and will engage in experiential learning opportunities and community service work with local community -based partners. Thematic areas for the course include homelessness, environmental sustainability and urban renewal. Transfer students who begin in the fall, with up to 15.00 transfer credits, are also required to complete The Citizenship Project. Failure to complete this requirement by the end of the student’s first year will result in dismissal from the university.

Classification of Students

Matriculated students are those who have met all admission requirements and have declared their intention to obtain a degree.

Non-matriculated students are those who have not been admitted to a degree program but are eligible to enroll as full- or part-time students. Non-matriculated students include those who enroll in courses for self-enrichment and are not following any specific degree program requirements.

Non-matriculated students seeking to matriculate into a degree program must declare their intent with the Office of Admissions.

Classification of Undergraduate Students

Matriculated students are classified according to the following number of semester hours of credit completed toward their degree:

<table>

Closed Class Permission

To register for a closed course that is at its student capacity, a student must submit a Closed Class Permission Form signed by the course instructor, advisor and college dean to the Office of the Registrar. Requests will not be approved if the classroom cannot physically accommodate additional students.

Code of Computing Practice

All Lynn University students and staff are expected to practice responsible and ethical behavior in their computing activities. While most computer users act responsibly, those who do not, either through ignorance or intent, can potentially disrupt others or even steal or damage their work.

To a reasonable and economically feasible degree, the university is responsible for securing its computing systems against unauthorized access and/or abuse while making them accessible for authorized and legitimate uses. This responsibility includes informing users of the expected standards of conduct and the punitive measures for not adhering to them. For specific information on information technology policies, see www.lynn.edu/student.

Combined Bachelor's/Master's Program

Qualified undergraduate students who wish to pursue a master’s degree will be allowed to take courses in the Master’s program while finishing their undergraduate degree, provided they have completed 90 undergraduate credits, maintain a minimum 3.25 GPA in the last 15 undergraduate credits at Lynn and maintain a 3.0 or higher GPA in their graduate courses.

*The conferral of a master’s degree will require the completion of 30 unique graduate credits (credits not used towards the undergraduate degree).

Course Withdrawals

After the add/drop period, students may withdraw from a course by completing the withdrawal form from the Office of the Registrar. The completed form should be submitted to the Office of the Registrar within the designated time frame. Refer to the academic calendar for deadlines.

Students who withdraw from a course will receive a W on their permanent university record. A student can have no more than eight course withdrawals during his or her undergraduate enrollment in the university or three course withdrawals during each graduate enrollment in the university without the approval of the Office of Academic Affairs.

Credit Hour Definition

Undergraduate Day Semester & Graduate Day Semester
1 credit hour is equal to one hour of classroom or direct faculty instruction and a minimum of two hours of out of class student work each week for approximately 14 weeks for one semester.

iLynn Term & Graduate Evening Term
Courses offered in our accelerated and online programs “mirror” the requirements of traditional courses in outcomes and assessment of learning.

Note: For the purpose of defining credit hours, one hour of classroom or direct faculty instruction is defined as a 50 minute class period.

Dean’s List

In order to qualify for Dean’s List, a student must have attempted and completed a minimum of 12 credits in the semester with a GPA of 3.5 or higher. The eligible student must have no grades below C.

For iLynn students a semester will include Fall I and II, Spring I and II or Summer I and II.

The Dean’s List acknowledgement will be posted on the student’s transcript.

Honor’s Convocation
Each semester all students who have achieved Dean’s List the previous semester will be invited to the Honor’s Convocation.

Directed Study and Independent Study

Directed Study (regular courses taken by special arrangement in various formats) involves a one-on-one relationship between the student and the instructor (i.e., frequent conferences regarding the study are needed in order to complete a regularly offered course). Appropriate request forms for Directed Study are available in the Office of the Registrar.

Independent Study involves scholastic or research endeavors apart from regular courses offered at Lynn University. Students should pursue Independent Study with direction from their supervising professor with the approval of the appropriate college dean and the Office of Academic Affairs.

Signatures denoting approval by the instructor, appropriate college dean and the Office of Academic Affairs must be obtained before a student can register for either course of study.

Dual Major

Students must meet the following criteria in order to receive a dual major:

• both majors must be completed simultaneously (a degree will be conferred upon the completion of both major requirements).
• earn a minimum of 30 credit hours beyond those required for the first baccalaureate degree, or a minimum of at least 150 credits.
• notify the Office of the Registrar.

Students will earn only one degree (i.e: if one major is part of a BS degree, and the other major is part of a BA degree, the student will only receive either a BS or a BA). A diploma lists only the one degree earned, and the official transcript will list both majors.

Enrollment Verification Letters

Enrollment verification letters may only be requested by the student, unless their parents are listed on the Buckley Form. Enrollment Verification Forms are available in the Office of the Registrar and take approximately three working days to process.

Falsification of Academic Records

A student who has falsified academic records will be subject to dismissal from the university.

Federal Educational Rights and Privacy Act (FERPA)-Combined With Directory Info

The Family Rights and Privacy Act of 1974 (commonly called the Buckley Amendment) is designed to, with certain exceptions, protect the privacy of education records, establish the rights of students to inspect and review their records, and provide a means of correcting inaccurate and misleading data. Lynn University makes every effort to comply with this legislation.

Certain information is considered public and is released at the University’s discretion. Unless a student files written notification to withhold disclosure, the University will release directory information (see list below). This includes announcements of graduation, honors and awards, and verification of the dates of attendance and conferring of degrees. Names, addresses, phone numbers, and other directory information will be released for use within the University community. Only transcripts of academic records and statement of academic status pertaining to Lynn
University course work are released to third parties and then only with the written authorization of the student.

Parents of a dependent student have the right of access to educational records.

A student or eligible parent has the right to challenge any content of the student’s education record which is considered to be inaccurate, misleading, or in violation of the student’s privacy or other rights. Such challenge may be directed to the University Registrar in writing and clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. Please note, however, that Lynn University is not required to consider requests for amendment under FERPA that seek to change a grade, disciplinary decision, or the opinions or reflections of a school official or other person reflected in an education record.

1. If the University decides not to amend the record as requested by the student or eligible parent, the Registrar will notify the student or eligible parent of the decision and advise the student or parent of the right to a hearing regarding the request for amendment.

2. The request shall be in writing and presented to the Vice President for Academic Affairs. A hearing officer appointed by the Vice President for Academic Affairs will conduct the hearing. The hearing will be conducted within a reasonable time frame after the request for the hearing has been received. The hearing officer will notify the student or eligible parent, reasonably in advance, of the date, place, and time of the hearing.

3. The student or eligible parent will be afforded a full and fair opportunity to present evidence relevant to the issue raised. One or more other persons may accompany the student or parent. Such individuals, however, are not permitted to address the hearing officer. The hearing officer will make a decision in writing based upon the evidence presented at the hearing within a reasonable time. The decision will include a summary of the evidence presented and the reasons for the decision.

4. If the hearing officer supports the challenge request, the education record will be amended accordingly and the student or eligible parent will be so informed. If the hearing officer decides not to amend the education record, the student has the right to place in the education record a statement commenting on the challenged information and/or stating the reasons for disagreement with the decision. This statement will be maintained as part of the education record as long as the contested portion of the record is maintained, and whenever a copy of the education record is sent to any party, the student’s statement will be included.

A student’s permanent record consists of the transcript, application for admittance, and semester grade reports. These are maintained in the Office of the Registrar. All documentation used in the admission and placement processes, while considered nonpermanent, also is maintained in the Office of the Registrar during the period of the student’s enrollment.

**Students’ Access to Educational Records**

All students and former students have access to their educational records upon written request to the Office of the Registrar. Educational records include academic records, applications, high school transcript, letters of recommendation, and judicial files. With respect to former students, the term education records excludes records that are created or received after an individual is no longer a student in attendance at Lynn University and are not directly related to the individual's attendance as a student. An example of a record excluded from the definition would be alumni services. Any student who requests access to any educational record is expected to present valid identification.

There are some records to which the student has no right of access. These are:

1. Professional mental health treatment records to the extent necessary, in the judgment of the attending physician or professional counselor, to avoid detrimental effects to the mental health of the student or of others. These records may, however, be reviewed by a physician or other appropriate professional of the student’s choice.
2. Financial information furnished by the student’s parents in support of an application for financial aid.
3. Confidential letters of recommendation that were placed in the student’s file prior to January 1, 1975.
4. Confidential letters of recommendation concerning admission, employment, or honorary recognition, for which the student has waived access. (Lynn University may not require a student to sign a waiver in order to obtain services, but a person writing a recommendation may insist on a waiver as a condition for writing it).
5. Personal notes made by a faculty member or counselor that are accessible only to that person and are not shared with others.
6. Materials in any admissions files, until the student has been admitted to, and has attended Lynn University.

Release of Confidential Records

The University will not release any confidential records concerning any student or former student unless a written statement authorizing such a release is supplied by the student or former student. Exceptions to this policy are:

1. Faculty and staff members with legitimate educational interests in the record: One exception that permits disclosure without consent is disclosure to school officials with legitimate educational interests.
   a. A school official is a person employed by Lynn University in an administrative, supervisory, academic or research, or staff position (including Campus Safety and Security personnel and health staff); a person or company with whom the University has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as disciplinary or grievance committee, or assisting another school official in performing official tasks.
   b. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill the official’s professional responsibility.
   c. Additionally, education records may be released to contractors, consultants, volunteers, and other outside service providers used by the University to perform institutional services and functions, that it would otherwise use employees of the University to perform. The University must use “reasonable methods” to ensure that the school official obtain access to only those education records-paper or electronic-in which they have legitimate educational interests and the burden falls to the institution to justify access if questioned.

2. Authorized federal and state officials in the process of administering educational programs: The regulations clarify that educational agencies and institutions may provide personally identifiable information within education records to federal or state auditors without prior consent without violating FERPA.

3. Administration requirements of the financial aid program.

4. Accrediting organizations carrying out their accrediting functions;

5. Parents of a dependent student: The regulations clarify that the University may disclose educational records to the student’s parents without student consent if the student is a dependent for Federal Income Tax purposes.

6. Organizations conducting studies on educational programs, providing that the identity of the student is not revealed;

7. Emergency situations involving the health or safety of students or other persons: In making a determination under the health and safety exception, which allows educational institutions to disclose education records in the case of a health or safety emergency, institutions are now allowed to exercise judgment as follows:
   a. The University may take into account the “totality of the circumstances” pertaining to a threat to the safety or health of a student or other individuals.
   b. If the University determines there is an “articulable and significant threat” to the health or safety of a student or others, it may disclose information from education records to third parties, whose knowledge of the information is necessary to protect them, including the health and safety of the student or others.
   c. If, based on the information available at the time, there is a rational basis for that determination at the time the decision is made.
   d. In addition, the University is permitted to allow disclosure of personally identifiable information from an education record to “appropriate parties,” including parents of a student, if knowledge of the information is necessary to protect the health and safety of the student or others.
   e. The Department of Education will require that the University involved in a disclosure under these circumstances to record the nature of the threat and the parties to whom it disclosed information under the “health and safety” emergency section.
   f. FERPA also allows disclosure to parents if the student has violated any Federal, State, or local law, or any rule or policy of the institution, governing the use or possession of alcohol or a controlled substance, if the institution determines that the student has committed a disciplinary violation regarding the use or possession and the student is under twenty-one at the time of the disclosure.

8. Disclosure made in compliance with judicial order or lawfully issued subpoena;

9. Disclosure made pursuant to federal and state law, including complying with the Campus Sex Crimes Prevention Act. To conform to the requirements of the Campus Sex Crimes Prevention Act, University officials are permitted to release information they received from a state community notification program about a student registered as a sex offender in the State.

10. Information designated by the University as directory information.

11. Disclosure to Other Colleges, Universities and/or schools to which a student is transferring: The authority to disclose or transfer education records to a student’s new school does not cease automatically the moment a student has enrolled in the new school and continues to be enrolled at any future point in time so long as the disclosure is for purposes related to the student’s enrollment or transfer.
This means that the University may disclose any records or information, including health and disciplinary records, that the University could have disclosed when the student was seeking or intending to enroll in the new school.

Academic Files

Students’ permanent academic files, including all official transcripts, are maintained in the Office of the Registrar. Students needing access to their files must contact the Office of the Registrar.

Right to File a Complaint

In addition to the above rights, the act also affords students the right to file a complaint with the U.S. Department of Education concerning alleged failures by Lynn University to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW., Washington, D.C., 20202-5920.

For a complete description of FERPA regulations, please visit: http://www.ed.gov/policy/gen/guid/fpco/index.html, which is a link to Family Policy Compliance Office in the Department of Education.

Forgiveness Policy

The forgiveness policy allows a student to discount courses in the abandoned major, minor or specialization. It also allows for forgiveness of an elective that does not need to be successfully completed for graduation purposes. The transcript will reflect the student’s complete record with an added notation of “Academic Forgiveness Declared” by graduation purposes. The transcript will reflect the student's complete academic file in the college of his/her major.

2. The student will obtain and complete the incomplete application form and bring it to the dean of students with appropriate documentation. The dean of students will verify that the student’s application satisfies the eligibility criteria. If the application satisfies the eligibility criteria then the dean of students will return the approved form to the student who will then take the form to the professor of the course. The professor and student will draw out a contract, which includes but is not limited to: all course work to be completed and the deadline for this material to be submitted. After the student agrees to the terms of the contract and signs the form, the professor will take the contract to the dean of his/her college. The dean will then review the contract and sign the form upon approval. The “I” is now official and the contract is binding. The dean of the college will distribute copies of the contract to the professor, the student, the dean of students and the Registrar. Each recipient will place the copied contract in the appropriate file. The professor will keep one copy and the original will be placed in the student's file in the college of his/her major.

C. The form:

1. Will be available online.

2. Will contain current grade, what specific assignments are to be completed due date for all material (not to exceed one year beyond the original term final grade due date), and state that the final course grade will be a “W” if the student does not complete the requirements.

Note: As of fall 2006 students are limited to eight undergraduate and three graduate course withdrawals.

Grade Point Average

At the end of each semester, a scholarship index (GPA—Grade Point Average) is computed for each student.

The Institutional Review Board

All human subject research and research-related activities involving human subjects conducted within or under the auspices of Lynn University by any faculty, employees or students, is subject to the Institutional Review Board for the Protection of Human Subjects in Research (IRB) review, recommendations if warranted, and final approval.

The purpose of the IRB is to safeguard the safety, privacy, health and welfare of the human subjects involved in research and research-related activities. The IRB reviews three categories of research: new projects periodic review on a continuing project and procedural revision to a previously approved project. IRB members are selected for their experience, expertise, diversity and breadth in backgrounds and represent individuals with primary concerns in both scientific and non-scientific areas. Under no conditions can proposed research begin prior to IRB review and written approval.
Investigators have many obligations, including designing the study so that the incidence of risk and stress are minimized to the greatest degree possible and that these risks are accurately described in the protocol. Moreover, the investigator bears responsibility for terminating the study when hazards or risks to the subjects become apparent or may be incompatible with the study’s benefits; further, investigators must report any adverse reactions associated with the study to the IRB.

Information regarding the IRB Policies is available in the appropriate college and the IRB Web site (contact the IRB for the URL to this site). These procedures are briefly summarized as follows:

- The investigator and the advisor of the project must take and complete the National Institutes of Health “Human Participants [Subjects] Protection Education for Research Teams” On-Line Course. The course can be found at http://phrp.nihtraining.com/users/login.php. Certificates of completion must be provided to the IRB prior to in the initiation of data collection.
- Prior to submission to the IRB, a research proposal must be approved by an advisor in the case of student research or by the supervisory vice president in the case of a university employee.
- Completed IRB application including the research protocol, certifications and signatures, and curriculum vitae of principal investigator is submitted to the IRB. Reviews may be by convened full board review, expedited review, or request for exempt status.
- Submission of material is done electronically and is rolling. Information regarding submission can be found at the IRB blackboard site. If the IRB has any special concerns or questions, the researcher may be asked to attend the meeting.
- The IRB notifies the investigator and the institution in writing of its decision to approve or disapprove the proposed research activity, or of modifications required to secure IRB approval of the research activity. If the IRB decides to disapprove a research activity, it shall include in its written notification a statement of the reasons for its decision and provide the investigator an opportunity to respond in person or in writing. Institutional notification for employees is sent to the investigator’s supervisory vice president and to the research advisor in the case of students. For students, once approved, a copy of the approval letter is sent to the Office of the Registrar for the student’s permanent file.
- Currently approved protocols must be reviewed annually.

Leave of Absence

If a student wants to request a Leave of Absence (LOA) they must see the dean of students to fill out the LOA form.

A LOA form is not required in order for a student to withdraw from all of their classes; however, a student must indicate on the LOA form if they want to withdraw from all of their current courses and be dropped from all of their future courses, or just be dropped from all of their future courses.

The dean of students will place any conditions of return on the LOA form and forward the form to the Office of the Registrar, the Office of Academic Affairs, the Office of Student Financial Services and the dean of students, and then place the form in the student’s file.

Once the form is received in the Office of the Registrar, the following will be done:

- Student will be issued grades of W for each course in the current semester (if applicable).
- Student will be dropped from all future courses.

Once the student is ready to return they must meet with the dean of students. Once they have determined that the student has met all of their conditions of return the Office of the Registrar and Student Financial Services will be notified.

Observance of Religious Holidays

Lynn University respects the rights of all individuals to observe customarily recognized religious holidays throughout the academic year. If a student intends to be absent from classes as a result of any such observance, the student should notify his/her professors in writing prior to the specific holiday.

Pre-requisite Overrides

To register for a course which has a prerequisite that has not yet been taken, a student must submit a prerequisites override form to the Office of the Registrar signed by the instructor, advisor and dean with a note allowing the course to be taken without the required prerequisite.

Probation

Undergraduate Day Probation

After the first semester with a career GPA below 2.0, students will be sent notification of their probation status.

After the second semester with a career GPA below 2.0, the Office of Academic Affairs will review each student’s transcript and determine if the student will be dismissed or be granted one final probationary semester.

- If given one probationary semester, the director of academic advising will provide a list of specific conditions to be met. Failure to meet these conditions will result in automatic dismissal at the conclusion of the following semester.

Students who have already been placed on probation should check their grades on MyLynn before returning to campus. Students are not guaranteed a probationary semester, so this should be taken into consideration before travel arrangements are made.

Note: All correspondence for probation will be emailed to the student’s Lynn email address and mailed to the local address and legal home/permanent address on file. Dismissal letters will be emailed to the student’s Lynn email address and be sent via FedEx to both the local and legal home/permanent addresses on file.

Appeal Process

A student has a right to appeal a decision of academic dismissal and must do so in writing. Extraordinary circumstances beyond the control of the student or significant academic progress are the only reasons for considering an appeal.

Undergraduate Day Students should direct their appeal to the director of academic advising (ddicerbo@lynn.edu) by July 15th for the fall semester or by December 31st for the spring semester.
Undergraduate Evening Probation

Students with a career GPA below 2.0 for four consecutive terms may be academically dismissed from the university. Notification of probation status will be sent to the student's local address on file. Should you fail, or receive a grade of D, in a course that is not able to be repeated before the completion of the four consecutive terms, a term GPA of 2.0 must be achieved for each of the consecutive terms.

Please note the following: probation status is calculated on career GPA, not term GPA, and repeating courses you have previously failed is the quickest way to improve your GPA.

Lynn Students should direct their appeal to the Director of evening, online and graduate advising (arogers@lynn.edu) by the end of add/drop period for the following term.

Graduate Day Probation

After the first semester with a career GPA below 3.0, students will be sent notification of their probation status.

The Office of Academic Affairs will review each student's transcript and determine if the student will be dismissed or be granted probationary semesters until the course(s) can be repeated and successfully completed (most courses are offered only once a year).

Appeal Process

A student has a right to appeal a decision of academic dismissal and must do so in writing. Extraordinary circumstances beyond the control of the student or significant academic progress are the only reasons for considering an appeal.

Graduate Day students should direct their appeal to the Director of evening, online and graduate advising (arogers@lynn.edu) prior to the add/drop deadline of the following semester/term.

Graduate Evening Probation

A student who falls below the minimum career GPA requirement of 3.0 will be placed on academic probation. Students on academic probation after the completion of 6 courses may be academically dismissed from the university. Notification of probation status will be sent to the student's local address on file.

Please note the following: probation status is calculated on career GPA, not term GPA, and repeating courses you have previously failed is the quickest way to improve your GPA.

Appeal Process

A student has a right to appeal a decision of academic dismissal and must do so in writing. Extraordinary circumstances beyond the control of the student or significant academic progress are the only reasons for considering an appeal.

Graduate evening students should direct their appeal to the director of evening, online and graduate advising (arogers@lynn.edu) prior to the add/drop deadline of the following semester/term.

Ed.D. Probation

Students in the EdD program are expected to maintain a career GPA of at least 3.25, as well as a minimum grade requirement of B- for each course. Students in the doctoral program will have their mid-program review during their fifth semester. Students may be strongly encouraged to continue in the program, recommended to remain in the program, placed on probation, or asked to leave the program as a consequence of this review. This review considers the whole of the student’s work to date, including attendance, participation, comprehension, and writing as well as any other factors deemed important by the faculty. The review assesses the student’s potential for success at the dissertation in practice stage.

Students who are placed on probation will engage in a formal improvement process. The improvement process includes the following steps:

1. The student should develop a performance improvement plan with their identified mentor. This plan must include steps and a timeline for achieving satisfactory progress over the remaining four semesters.
2. The performance improvement plan should be submitted to the Director of the EdD. Program in Educational Leadership.
3. After the performance improvement plan is approved by the Director of the EdD. Program in Educational Leadership, the student and mentor will meet with the Director of the EdD. Program in Educational Leadership and the Dean of the College of Education to discuss the student’s performance and the plans for improving it.
4. The Dean of the College of Education will decide whether and when all tasks in the improvement plan have been successfully completed. The recommendation by the mentor will be taken into account for this decision.

If the student left because of academic suspension, he or she must contact the director of academic advising to receive permission to return.

If the student left because of behavioral or social suspension, he or she must contact the dean of students to receive permission to return.

Once a student is approved or denied, the director of academic advising or the dean of students will notify the Office of the Registrar and the Office of the Registrar will send written notification to the student.
If a student wants to return to Lynn to complete a second degree, they must apply through the Office of Admission.

Registration

Course registrations for undergraduate day, graduate day and graduate evening students are processed by their academic advisor while course registrations for undergraduate evening students can be processed online or in the Office of the Registrar with a registration form signed by their advisor.

Repeat Courses

In order to improve their knowledge of a subject and cumulative grade point average, students may elect to repeat a course in which they have earned a less than satisfactory grade, especially a “D” or an “F.” The higher grade will be the grade that contributes toward the cumulative grade point average. In situations where the course needed to be repeated is no longer available or offered, a similar course may be substituted with the approval of the dean of the college. A course in which a grade of “F” was earned at Lynn University can be repeated only at Lynn University.

Special Students must complete a Special Student form available in the Office of Admissions and may be limited to six credit hours, except under the following circumstances:

All such proposed courses must have a grade of B or better and meet specific course requirements for the degree. This determination is made after the applicant has been accepted to the university or by the end of his or her first term as a matriculating student.

Student Responsibility

Lynn University encourages its students to take the primary responsibility for their own academic activities and to accept the resulting consequences. No student should behave in a manner that can harm the educational environment or diminish the learning experience of any other member of the academic community. Each student is responsible for a knowledge of and adherence to regulations regarding registration, withdrawal, degree plan, deadlines, curriculum, graduation requirements and payments of tuition and fees.

Lynn University does not grant certification or licensure for the practice of any profession. Regulations governing certification and/or licensure are under the sole control of the appropriate boards in each state authorized to oversee these processes.

It is the student’s responsibility to:

- contact the appropriate professional boards in the state(s) in which they intend to practice.
- determine all requirements related to certification and/or licensure.
- determine whether or not the degree program in which they are enrolled at Lynn University meets all program requirements for certification and/or licensure for the state(s) in which they intend to practice.

Official Transcripts, which bear the signature of the registrar and the Official University Seal are typically processed within one (electronic version) to three (paper version) working days after receipt of the request. During busy times in the office, requests may take up to two weeks to be processed. Lengthier processing periods typically occur at the
beginning and end of a semester. Please note: Transcripts cannot be faxed.

TRANSFER CREDITS

Transfer Credit Evaluations

Transfer credit is awarded for courses successfully completed at a regionally accredited institution or an institution whose accrediting organization is recognized by the Council for Higher Education Accreditation (CHEA).

Official transcripts from each institution attended must be submitted in order for the Office of the Registrar to complete a formal transfer evaluation. Courses completed outside of the United States require students to submit an official foreign credential evaluation and translation along with their official transcripts. Each transfer evaluation is reviewed by the Office for Academic Affairs and/or appropriate college faculty.

A course evaluated as equivalent to a Lynn course is accepted as that course. A course evaluated as not equivalent is accepted as an elective. If a preliminary evaluation is completed for a student based on an unofficial transcript, that evaluation will not be considered final until official documentation is received and reviewed for accuracy.

Although credits transfer in from other institutions, grades do not. Transfer courses are listed on the transcript with a grade of “T.” A student’s Lynn grade point average is based solely on courses completed at Lynn University.

Undergraduate Student Transfer Policy

Any course that was successfully completed at another institution may be accepted. All undergraduate students must complete a minimum of 30 credits at Lynn in order to receive their degree.

Lynn University also accepts credit for AP, CLEP, International Baccalaureate and University of Cambridge Exam credits. Please submit official transcripts for review.

All students have access to the Institute, which includes the following resources and programs:

The program is designed to provide structure, support, and accountability for LU students. The services include coaching, tutoring, registration into Institute Fellows courses, and enrollment in the Dialogue of Self and Society course in their Freshman year. These services are staffed by experts in the field of working with students with learning challenges.

Students enrolled in the Comprehensive Support Program component of the Institute are provided with academic coaching, a separate testing area, specialized Dialogue courses with a low pupil-to-teacher ratio taught by Faculty Institute Fellows and tutorials in most subject areas.

Institute Fellow courses are taught by professors who have been trained in learning style differences, classroom management techniques and assessment strategies, in addition to having expertise in their academic field. Institute Fellows certification demonstrates that the faculty member has achieved competency in understanding Institute for Achievement and Learning pedagogy, utilization of motivational strategies in the classroom, implementation of metacognitive strategies, use of multiple approaches for assessing student learning, and the utilization of classroom technology.

The Wayser Family Tutoring Center is located in the Institute for Achievement and Learning. Tutoring sessions are scheduled through the Tutoring Center coordinator. The center offers individual and group tutoring. Tutoring sessions are available by appointment or on a walk-in basis. In the event that a student cannot attend a scheduled appointment, he or she must notify the Lynn tutoring staff within 24 hours or be charged the normal fee. The meetings between the center staff and students are face-to-face, and tutoring is provided for most Lynn University courses. The Institute supports writing across the curriculum, serving both day and evening students. The Tutoring Center is open five days a week as is the accompanying Writing Center (during final exams the tutoring and writing centers are open seven days a week). All tutors hold advanced degrees, including many who have terminal degrees in their respective fields.

The Testing Center is located in the Institute for Achievement and Learning. Testing Center hours are Monday through Thursday, 8 a.m. to 6 p.m. and Friday 8 a.m. to 4 p.m.

The Institute uses a diagnostic coaching model to address behavioral issues specific to college students with ADHD or executive functioning deficits. Organizational skills, prioritizing of assignments and daily activities, strategies for procrastination issues, time management skills, coping with impulsivity, strategies to aid with focus and attention in and out of the classroom, and study skills are some of the topics covered during coaching.

The Diagnostic Center for Educational Assessment offers intelligence and achievement assessments for enrolled students who may be struggling academically. Students receive psychoeducational testing, face-to-face meetings to discuss academic strengths and areas for improvement, recommendations for increasing academic skills, and follow up meetings to ensure an understanding of the assessments and recommendations. A licensed psychologist administers these assessments. Hours are Monday through Friday, 8:30 a.m. to 4:30 p.m.

Information Technology

The Information Technology (IT) Department aims to fulfill the department’s mission “to provide Lynn University and its community with leadership and excellence in the design, implementation, support and facilitation of learning through the creative and effective use of technology”. This team’s approach to technological excellence equips students and faculty for the emerging application of technology in the classroom and affords an opportunity to develop distance learning modalities parallel to traditional instruction. IT provides resources for satisfying the computing needs of students and faculty. In so doing, IT professionals assist with the use of hardware and software available to faculty, students and staff, while improving administrative effectiveness and efficiency through the innovative use of sophisticated approaches to institutional management.

The Information Technology Department is comprised of several divisions, which include: Network and Support Services, Information Services, Campus Card Office, Institutional Research, Planning and Assessment, and Library.

Computer Laboratories

Computer laboratories are available in the library, the International Business Center and the Assaf Academic Center. Computer stations are available with Windows and the latest versions of Microsoft Office Suite. The library is also equipped with Apple computers. Apple computers are also available in ASSAF Academic Center and the third floor of the library. Internet is available throughout campus. The campus also has a significant wireless network, which is available in 90 percent of the buildings. The wired and wireless networks have been recently enhanced due to hosting of the Presidential Debate which took place on October 2012. If not scheduled for a class, computer laboratories are available in the Coleman Electronic Classroom (library). An additional 100-plus computers are available within the Lynn Library during regular library hours for access to research databases, the Internet and selected Windows applications.

Internship Program

An internship is an opportunity to integrate career related experience into an undergraduate and/or graduate education by participating in planned, supervised work. Internships are an initiative at Lynn University to support and prepare students for their prospective careers and life after Lynn. The program is designed to help students realize their full potential by identifying their areas of strength and development needs. The program builds on those strengths and addresses development needs by providing the necessary tools and resources to turn development areas into opportunities for growth, and areas of strength into competitive advantages which ultimately serve them in the job market post-graduation.

Internship requirements vary by college or major within the university. In general, however, students who wish to register for an internship must:

- meet with the Internship Coordinator in the Hannifan Center for Career Connections.
- if an F-1 international student, see the Designated School Official (DSO) at the International Student Services Office for authorization of Curricular Practical Training (CPT). The F-1 student may not begin the internship until the student sees the DSO and receives the DSO’s CPT approval.

Eugene M. and Christine E. Lynn Library

The mission of the Lynn University Library is to partner with the Lynn community to pursue lifelong learning and discovery. Within a dynamic, student-centered and collaborative environment, our information experts provide both innovative and traditional resources, technologies, and educational services.

The library’s vision is to be a leader in the realization of the 21st century academic library. As the intellectual and physical nucleus of our University, we will proactively meet the information needs of our diverse communities, at any time and in any place. We will prepare students for success in life as information-savvy, global citizens.

The library’s learning resources include a collection of approximately 100,000 physical items, including books, journals, magazines, CDs, music scores and DVDs. The library’s large collection of popular DVDs, known as The Lynn Parents and Families Collection of Great Movies can be checked out for personal viewing. The library’s electronic resources are vast. A carefully selected collection of research databases contains more than 100,000 e-journal titles, biographical information, market and company research, reference e-books, statistics, images, and more, and is accessible through the library Web site. The library also has more than 170,000 e-books that are accessible via the Web. All e-resources are available on- or off-campus, 24 hours a day.

The library has about 70 PC and Mac workstations, several high-speed scanner/printers, and wireless access is available throughout the building. The music library has 2 computer workstations equipped with a MIDI ready keyboard to accommodate musical composition activities. In 2013, the Perpor Lounge, located adjacent to the Coleman, was transformed into a coffee shop where students can grab a snack, chat with friends and study.

In addition to the library’s services and learning resources, the building is home to the offices of the President Emeritus, the Vice President for Academic Affairs, the Chief Information Officer, Information Technology Support Services Desk, Eugene and Christine E. Lynn College of International Communication and the Center for Instructional Innovation.

Additional resources are available through Lynn Library’s membership in SEFLIN (Southeast Florida Library Information Network), providing students with direct access and borrowing privileges in 20 regional academic libraries. Request a SEFLIN card at the Lynn Library Information Desk.

Educational Programs

Definitions of Majors, Minors and Specializations

Definition of a Major

A major consists of a minimum of 30 credits within a well-defined discipline or group of disciplines. The major allows students to develop a significant degree of expertise in an area of study. The exact courses, credit requirements, prerequisites and electives for each major will vary. An outline of these requirements is included in the departmental program areas in the university catalog. In some majors, the opportunity for a concentration in the discipline is accommodated via a specialization (see below).

Definition of a Dual Major

Students must meet the following criteria in order to receive a dual major:

- both majors must be completed simultaneously (a degree will be conferred upon the completion of both major requirements).
- earn a minimum of 30 credit hours beyond those required for the first baccalaureate degree, or a minimum of at least 150 credits.
- notify the Office of the Registrar.

Students will earn only one degree (i.e., if one major is part of a BS degree, and the other major is part of a BA degree, the student will only receive either a BS or a BA). A diploma lists only the one degree earned, and the official transcript will list both majors.

Definition of a Minor

A minor consists of a minimum of 15 credit hours outside of the major. The minor enables a student to develop a secondary degree of expertise in an area of study in addition to his or her major academic program of study. While a minor program is intended to enable students to develop some degree of expertise in one area of study, it may be interdisciplinary. The completion of a minor is optional. The minor may be chosen to support the major, to offer greater job opportunities to the student on graduation or to provide recognition of study in a second academic area.

To receive a minor, a student must also complete the requirements of a major of a baccalaureate degree concurrently from the university. Course work must include a minimum of nine upper divisional level (300+) credits and students must complete courses as indicated in the catalog. The student's transcript shall indicate the minor.

Definition of a Specialization

Some majors may include an area of specialization. A specialization consists of a sequence of a minimum of 15 credit hours of course work within the major. Course work must include a minimum of nine upper divisional level (300+) credits and students must complete courses as indicated in the catalog. Where appropriate, the transcript shall indicate the major and the specialization.

Degrees

The following degrees are offered by Lynn University upon completion of degree requirements:

Bachelor’s Degrees

- Breadth of learning in a variety of disciplines that informs judgments and encourages inquiry.
- Depth and application of learning in a discipline or group of disciplines (mastery of specialized knowledge) to effectively serve and lead in a chosen profession.
- Preparation for positions of responsibility and leadership as productive global citizens who value lifelong learning.

Academic Skills

- Communication: Reading, writing, speaking and interpersonal/relationship skills.
- Mathematical Computation: Computing, interpreting and drawing conclusions from quantitative data.
- Computer Technology: Using computing hardware and software applications as tools in personal and professional environments.
- Information Literacy: Identifying, locating, evaluating and using relevant information.
- Intellectual Strategies: Problem-solving, critical and creative thinking, and inquiry.

THE DIALOGUES OF LEARNING

Core Curriculum for Full Time Undergraduate Program

As an institution that excels in interactive learning and innovative pedagogies, Lynn University’s core curriculum, the Dialogues of Learning, offers students the opportunity to develop the skills, knowledge and perspective essential to their intellectual, personal and professional education. The Dialogues offers an innovative approach to general education that integrates liberal and professional study, knowledge and skills acquisition, and multidisciplinary perspectives and methods within a four-year developmental and outcomes-based curriculum.

The origin of all learning is questioning; thinking, asking, wondering why. Whether talking to ourselves or to others, dialogue is the medium through which we all learn, create, acquire and understand. At a time when the sheer volume of information is ever increasing, the essential skills of reasoning, analysis, reflection and the art of discourse remain essential. In the aesthetic dimensions of human imagination and creation, curiosity, wonderment and inspiration arise from sensory interactions and dialogues of self-expression. In addition, for every known fact or accepted truth, there is always a need to question, to constantly ask why, or else we surrender not only our capacity to think, but also our ability to learn, change and grow.

In that spirit, Lynn University's core curriculum views dialogue, philosophically and pedagogically, as the basis for all learning. Using a thematic approach to the perennial questions and goals of liberal education, the core centers on three comprehensive domains of human thought, expression and action:

Dialogues of Self and Society
Dialogues of Belief and Reason
Dialogues of Justice and Civic Life

Additionally, students are also required to take courses in the Dialogues of Quantitative Reasoning and Dialogues of Scientific Literacy. These two core knowledge areas are essential to engaged and informed citizenship in the 21st century. These courses are designed to give students the ability to understand and analyze quantitative information and scientific knowledge. In their content and pedagogy, the seminars within the Dialogues of Learning:
• Engage students in conversations exploring the richness of human thought historically, cross-culturally and across disciplinary boundaries.
• Create a culture of inquiry, reflection, commitment and action by requiring that every course be taught in a seminar format utilizing collaborative and interactive pedagogies.
• Foster an understanding of both the United States and global community from a historical and contemporary perspective.
• Integrate critical thinking and communication skills, information literacy, and technological literacy into every course.
• Structure the acquisition of both skills and knowledge in a four year progressively challenging and sequential schema that includes course work in the major and general education.

Courses in the three main Dialogue areas (Belief and Reason; Justice and Civic Life; and Self and Society), are offered from both the American perspective and Global perspective.

American Perspective

Courses within the American perspective place value on the history and development of American society. This knowledge is inherent for informed and engaged citizenship. Courses within this perspective provide students with the opportunity to gather knowledge about American culture, history, politics, society and economics, relevant to our globalizing society. These courses also demonstrate an appreciation of and respect for American institutions and values through course content and assignments. Coursework reflects the processes, conditions and implications of American citizenship, providing an understanding of the role of the nation in global affairs. In order to achieve this goal the Dialogues of Belief and Reason, Justice and Civic Life, and Self and Society at the 100 level are taught from the American perspective.

Global Perspective

Courses within the Global perspective place value on the interconnectedness and inherent value of any culture, country or locale. These seminars furnish the opportunity for students to gather knowledge about cultures, histories, languages, politics, societies and economies, relevant to our globalizing society. Courses within the Global perspective demonstrate an appreciation of and respect for diverse global cultures through course content and assignments. Coursework reflects the processes, conditions and implications of cross- and inter-cultural interactions, providing an understanding of global citizenship. In order to achieve this goal the Dialogues of Belief and Reason, Justice and Civic Life, and Self and Society at the 200 level are taught from the Global perspective.

Writing

Courses in the three main Dialogue areas (Belief and Reason; Justice and Civic Life; and Self and Society) place strong emphasis on the enhancement of students writing skills. Through writing exercises, editing, and revisions students will learn the writing process and amplify their skills. An importance on proper format, grammar, style and form will be placed. All dialogues courses at the 100 level in Justice and Civic Life, and at the 200 level in Belief and Reason focus on the conventions of writing.

Structure and Requirements

The Dialogues of Learning include student learning outcomes in critical thinking, communications skills, information literacy and technological literacy. These outcomes are defined and measured based upon institutional-wide rubrics for each skill area that are developmental, requiring increasing levels of competency and ability.

During the first two years, the Dialogues engage students in common and core principles, ideas, people, concepts, great works, etc. that we believe are essential to a liberal education. Seminars are structured for coherency and interdisciplinary perspectives through a combination of a common curricula and special topics; at least 50 percent of the course will contain common material and the remaining 50 percent will examine how these core principles and knowledge are applied in a diversity of disciplines.

In the third and fourth years, the Dialogue courses become increasingly integrated with the major fields of study with higher levels of skills acquisition and application with more in-depth content and focus. Students must complete two courses, one at the 300-level, and one at the 400-level, in all five Dialogue areas (Belief and Reason; Justice and Civic Life; Self and Society; Quantitative Reasoning; and Scientific Literacy).

The January Term

To accentuate and foster the spirit of innovation that distinguishes the Lynn experience, the core curriculum includes one additional requirement: a specially-designed educational component, the January Term. The dates for January term 2015 are January 5 through January 23. Students are responsible for taking one Citizenship Project, one Career Preparation, and one Language and Culture course throughout their time at Lynn University.

The Citizenship Project

During the January Term or J-Term, all first year students will take a course in our inaugural program, The Citizenship Project. Courses in The Citizenship Project focus on a civic issue, problem or topic and will engage in experiential learning opportunities and community service work with local, community-based partners. Thematic areas for the courses include homelessness, environmental sustainability and urban renewal. Failure to complete this requirement by the end of the student's first year will result in dismissal from the university.

Language and Culture

Language and Culture courses will emphasize either: language acquisition with some reference to cultural matters; or a broader cultural survey of the target society with some "survival language" training included. Students will use an online language program. This platform is designed to
reinforce conversation practice provided by native speakers. These courses provide some basic conversational language capabilities, nested in a study of, and experience of, the music, art, food, social relationships, politics, etc. of the target culture.

**Career Preparation**

Within the Career Preparation theme, there are two tracks. The first involves directly preparing students for post-graduation employment; and the second prepares students to apply for, and enter, more advanced studies. Courses in Career Preparation for the workplace will include, but not be limited to, resume and cover letter preparation; interviewing skills; a Myers-Briggs Type Indicator personality profile; work/business etiquette; and “dress for success” training. Additionally, they may include site visits; and guest speakers, from the chosen career field. Courses in Career Preparation for post-baccalaureate education will include, but not be limited to, preparation for the GRE, MCAT or LSAT exams; matching career goals and expectations to graduate programs; the importance of the application timeline; and CV, letter of introduction and interviewing protocol.

Listed below are examples of the types of courses offered within the Dialogues of Learning:

COLLEGE OF ARTS AND SCIENCES

MISSION STATEMENT

The mission of the College of Arts and Sciences embraces the time-honored traditions of a liberal arts education by providing both depth and breadth of academic study. The University’s innovative core curriculum, The Dialogues of Learning, exemplifies this goal in its ability to acquaint students with the great works of fiction and non-fiction from the ancient times to the contemporary world. Equally essential to the Dialogues of Learning and to the mission of the College is to provide students with the skills in critical thinking, writing, oral expression and research methodology that will prepare them to become lifelong learners in both their academic careers and beyond. The diversity of the majors of the College also reflects its vision. From Environmental Studies and Political Science to Biology, Criminal Justice, Forensic Science, and Psychology, the College offers students opportunities to explore these majors and their prospective careers through traditional classroom settings, as well as experientially through field trips, guest speakers, internships, and study tours. In all its programs and curricula, the College seeks to support the University’s international and multicultural perspectives, thereby preparing students for responsible living in the twenty-first century.

UNDERGRADUATE PROGRAM

The following undergraduate degree programs are offered: Bachelor of Arts with a major in Criminal Justice; Bachelor of Arts with a major in Political Science, Bachelor of Science with a major in Biology, Bachelor of Science with a major in Environmental Studies, Bachelor of Science with a major in Forensic Science and Bachelor of Science with a major in Psychology.
BACHELOR OF ARTS (B.A.)

MAJOR: CRIMINAL JUSTICE

The Criminal Justice degree is an interdisciplinary degree that introduces students to the study of agencies, personnel, philosophies, procedures and methods that comprise the criminal justice system in the United States. The Criminal Justice program is designed to expose students to various aspects of existing law enforcement systems, judicial systems and correctional systems within an ethical and constitutional context. It provides a curriculum that focuses on interpreting norms, mores, laws and rules that govern behavior in a civil society and helps students develop a general understanding of a system's process within criminal justice. The program introduces students to diverse crime and causation theories, emphasizes the critical examination and evaluation of the ethical implications of various societal issues.

Through the Criminal Justice program, students examine the agencies and processes involved in criminal justice administration; explain the Bill of Rights and the impact on criminal justice system defendants; describe the nature, extent, etiology and control of law-breaking behavior; and compare and contrast the law enforcement systems of countries throughout the world. Students learn to describe the structure and process of the American judicial system from a local, state and federal perspective; explain how gender affects women as offenders, victims and professionals in the criminal justice system; and analyze diverse ethical issues encountered in the criminal justice profession. Graduates of the Criminal Justice program are able to apply ethical values in a diverse, complex and interconnected society and leave Lynn University with the knowledge, confidence, competencies and ethical consciousness to assume positions of responsibility and leadership.

BACHELOR OF ARTS (B.A.)

MAJOR: POLITICAL SCIENCE

The Political Science program at Lynn University is rooted in the liberal arts and offers students a course of study that has both depth and breadth. Coursework in the major encompasses the traditional areas of Political Science but, unlike some Political Science programs the major entails an integrated approach that does not isolate the subfields from each other or from those of other disciplines. The mission of the program is also to offer substantive areas of study that are complimented by a strong emphasis on critical and independent thinking about politics, history, international affairs, and public life among our majors and the student body in general.

The Political Science program also serves a central role in the larger mission of the university to prepare all students to contribute to the local, national, and global communities in positive ways. The Political Science faculty members are not only committed to this mission but to offering a student-oriented, personalized, innovative, and challenging program. Political Science majors at Lynn University will gain knowledge and exposure to politics through courses that integrate lectures, classic and contemporary readings, dialogues, technology, and experiential learning in the form of field research, study tours, the Model UN, guest lecturers, role-playing simulations, and internships.

MAJOR: ENVIRONMENTAL STUDIES

Human modification of the environment has been evident since the beginning of Civilization and has proceeded at an accelerating rate from the Industrial Revolution to the present day. Human activities (i.e. anthropogenic activities) worsened by over population of the planet have affected the soil, water, vegetation, climate, animal life, as well as the surface of the earth itself. An awareness of environmental deterioration has forced us to seek remedies in an effort to make an environmentally sustainable future. Thus, there is a need for women and men trained to recognize, quantify, and seek solutions to environmental problems. Currently, the study of local and global environmental problems is one that is interdisciplinary with scholars and practitioners representing all Natural and Social Sciences and most of the Humanities.

The proposed major in Environmental Studies is designed to provide students with a broad interdisciplinary foundation in the fundamentals of both the science and policy of the environment and its bi-directional impacts on humanity. With this background in hand, the student can tailor the major to her/his interests and career goals through the formal academic advising process. After graduation, majors will be trained to pursue graduate study in an environment-related field or seek employment in government agencies or industry. The major is also excellent preparation for a career in education, law, or the health sciences.

BACHELOR OF SCIENCE (B.S.)

MAJOR: FORENSIC SCIENCE

The Bachelor of Science in Forensic Science is an interdisciplinary major in the College of Arts and Sciences. It draws on the strengths of not only the varied physical sciences available at Lynn University, but also on the resources of the social and behavioral sciences, such as Criminal Justice, Anthropology and Psychology. Crime is a form of human behavior, and as such, it leaves behind physical evidence of particular types, and in particular spatial arrays. Students in this major will learn the principles of evidence recognition, collection, and preservation, forensic chemistry, forensic pathology, forensic anthropology, microscopy, ethics, and courtroom presentations. The physical evidence and its pattern of dispersal in three-dimensional space, unlike victims, perpetrators and witnesses, will never lose its memory, and will never change its mind. The major provides students with a broad, well-rounded education, in the best tradition of the liberal arts and sciences, preparing them for careers in local, county, state, or federal crime laboratories or CSI units, or in a growing number of private forensic laboratories, and investigative units with law firms or private investigative agencies. Alternatively, the forensic science major will equip students with critical thinking skills to make them attractive candidates for graduate or professional school programs, such as law and allied health.

- Aviation Management
- Entrepreneurship
- Event Management
- Fashion and Retail
- Hospitality Management
- International Business Management
- Investment Management
- Marketing
- Sports Management

The requirements for majors in business aim to provide breadth of knowledge in the discipline of business and its context, as well as learning activities that promote the integration of business knowledge. The majors provide in-depth study in an area of business. A minor in another academic discipline and the course work customized to personal preference provide students with the opportunity to explore areas of learning outside of the business discipline for the purpose of complementing the knowledge acquired in the major requirements. All candidates for the B.S. should work closely with their academic advisors to ensure that their programs of study have met the established guidelines for the degrees.
Note: In addition to the Aviation Management courses, students may take the following flight training elective courses to attain the licenses and ratings required to enter the aerospace industry as a professional pilot.

** If a student elects to obtain the Flight Instructor rating, AVM 310 substitutes for 482, provided the student passes the FAA written and practical exams.

*** Simulator courses are taught in the same semester as the familiarization ground school as a lab and culminate with a check-ride to ensure basic handling objectives are met. These courses have a corresponding lab fee. Students may obtain a total of 6.0 hours of academic credit from one aircraft type training (i.e., 727 ground and simulator familiarization or 737 ground and simulator familiarization only). If the student takes AVM 477, he or she may not receive credit for any familiarization or simulator course. AVM 471, Airline Emergency Cabin Training, is separate from this, and may result in an additional three semester hours of credit.

UNDERGRADUATE AVIATION CERTIFICATE PROGRAMS

The undergraduate aviation certificate programs offered by the Burton D. Morgan School of Aeronautics prepare students for ground and flight examinations for various FAA flight licenses and ratings. The flight certificate programs are delivered in accordance with CFR Part 141 under Lynn University's CFR Part 141 certificate. The simulator certificate programs are offered in accordance with CFR Part 142. All flight courses and the ATP certificate program culminate with a ground oral examination and a check ride with a FAA Designated Pilot Examiner. Successfully completing the ground examination and the check ride will result in the FAA issuing the appropriate license or rating. The various certificate programs and the associated course work are as follows:

Mission Statement

The Donald E. and Helen L. Ross College of Education’s programs are delivered via experiential learning, and therefore bring research to practice. These programs challenge students to develop intellectually and personally to their fullest potential, ensuring that they are equipped with the knowledge, skills and competencies required of successful educators to meet the needs of all learners in today’s diverse society.

UNDERGRADUATE PROGRAM

Admission and Graduation Requirements

Admission to Lynn University does not admit the student to the Ross College of Education. For students interested in teaching education, the Ross College of Education has a state of Florida-approved teacher preparation program leading to certification in Elementary K-6 Education. In accordance with Florida Statue 1004.04 public accountability and state approval for teacher preparation programs, students are required to meet the following prerequisites for admission into the Ross College of Education teacher preparation program prior to the set deadline:

1. Maintain a grade point average of 2.0 or higher for all level Dialogue courses.
2. Demonstrate mastery of general knowledge, by passing all four (4) sections of the General Knowledge Florida Teacher Certification Examination by 60 credits and practicum.
3. Maintain a grade point average of 2.0 or higher in all education courses, with no grade lower than a C.
4. Submit a portfolio; including a completed application for admittance, within Live Text to the Ross College of Education. The Ross College of Education will review the candidate’s documentation to determine the status of admission to the state-approved teacher education programs.

Candidates for graduation must:

1. Complete all major requirements with a grade point average of 2.0 or higher with no grade lower than a C.
2. Demonstrate mastery of subject area and professional education knowledge by passing the Professional Skills and a Subject Area portion of the Florida Teacher Certification Examination.

The State of Florida may require additional courses in the field for certification prior to issuing the five-year certificate. Program requirements may change in order to comply with any changes made by the State of Florida Department of Education. Grandfather provisions do not apply when such program changes are made.

Note: Credits and degrees earned from colleges within the State of Florida that are licensed by the State Board of Independent Colleges and Universities do not automatically qualify an individual for a Florida Teaching Certificate. The established procedure requires the Florida Department of Education to review and recognize the credentials of the individual and the accreditation of the college granting the degrees prior to approving teacher certification. Any student interested in obtaining a Florida Teaching Certificate should contact the Florida Department of Education, Bureau of Educator Certification, Suite 201, Turlington Building, 325 West Gaines St., Tallahassee, FL 32399-0400.

Noncitizens: A noncitizen may be issued an Official Statement of Status of Eligibility or a certificate as specified below:

An Official Statement of Status of Eligibility shall be issued when the applicant meets requirements specified in Section 1012.56(1), Florida Statutes.

The certificate may be issued when the applicant meets requirements specified in Rule 6A-4.004, F.A.C., and an official of the employing Florida public, state supported, or nonpublic school submits documentation of appropriate immigration status. The documentation shall be a photocopy of the completed United States Immigration and Naturalization Form I-9, Employment Eligibility Verification, accepted for employment in compliance with the United States Immigration Reform and Control Act of 1986.

ESOL AND READING

Successful completion of the program will earn the student Florida teaching certification in Grades K-6, and the following Florida State Endorsements:

ESOL K-12 Endorsement
Reading K-12 Endorsement
BACHELOR OF SCIENCE (B.S.)

MISSION STATEMENT

The Lynn University College of International Communication (CIC) provides students an opportunity to acquire the knowledge, skills and experience necessary to build successful communication careers in the global media marketplace.

The college is committed to blending a strong liberal arts concentration with professional programs in communication and media that offer “hands-on” educational opportunities in film and television directing, writing, camera work, lighting, set design and digital editing; theater and media performance; journalism, advertising and public relations; studies in traditional and emerging media; and digital design, including the study of photography, design for 3D printing, animation and graphic design.

The unique combination of theory, practice and internships offers students an opportunity to build a solid foundation for success in the competitive fields of communication and media. The college’s innovative approach to collaborative and experiential education enables students to participate in integrated learning projects that simulate media industries and promote the transition to professional positions in communication and media.

FACILITIES

State-of-the-art digital facilities house broadcast and cinema production and post-production centers, multimedia design labs with 3D printing and motion capture animation studios that enable students to develop professional skills and an advanced understanding of studio, field and news production, as well as digital post-production and editing. Instructional facilities for new media promote the early adoption of developing technologies into the mass media mix, including social and mobile media, web design, audio/video streaming, interactive business presentations and emerging media.

UNDERGRADUATE PROGRAM

The Lynn College of International Communication offers courses leading to a Bachelor of Arts in five areas:

- Advertising and Public Relations
- Communication and Emerging Media
- Drama
- Film and Television
- Multimedia Journalism

A Bachelor of Science is available in:

- Digital Art and Design

All major programs in the Lynn College of International Communication are designed for students who seek career-building or graduate school preparation. They offer a foundation in the process of communication and the flow of information through traditional, emerging and interpersonal/social media. Students have an opportunity to achieve a level of professional competency in their specific major. Several majors, such as Film and Television, Digital Art and Design and Multimedia Journalism have a strong production emphasis. Others, including Advertising and Public Relations, Drama and Communication and Emerging Media place greater emphasis on theory. Additionally, the college facilitates the placement of students in both domestic and international internship positions.

With a faculty composed of teacher-scholars and academically trained media practitioners, the college seeks to prepare students for successful careers in a rapidly changing global community. Students majoring in a program complete the following requirements:

- A university core curriculum of 66 credits (core credits required may be embedded within the major).
- A CIC core curriculum of 12 credits.
- A major curriculum of 33 credits.
- Between 12 and 27 additional elective credits (depending on the major) that may include courses toward a minor, general electives from other university programs, or additional courses in the Lynn College of International Communication.
- A total of 120 credits required for graduation.

POLICY REGARDING INTERNSHIP

MAJOR: ADVERTISING AND PUBLIC RELATIONS

Advertising and public relations are multi-billion dollar industries that affect our lives on a daily basis. For example, the average American views thousands of commercial messages per day. Moreover, these fields are continuing to grow domestically as well as globally. Advertising and public relations clearly impact business, political and social arenas.

The Advertising and Public Relations (APR) program is designed to prepare students for competitive success within a dynamic advertising/public relations environment by offering students an opportunity to develop skills to assess both domestic and international perspectives, develop innovative approaches and implement creative designs.

The APR program is intended for students who are interested in positions such as copywriters, art directors, media planners, social media designers, account executives, public relations specialists and strategic planners. The Advertising/Public Relations major may also lead to careers in business, marketing and non-profit fields.

BACHELOR OF ARTS (B.A.)

MAJOR: COMMUNICATION AND EMERGING MEDIA

Excellence in communication contributes to success in all aspects of personal, professional and civic life. Citizens of the 21st century need to understand the communication opportunities, obligations and risks that emerge in an era of cultural diversity and conflict. Leaders, consultants, activists, and indeed all citizens, use communication to affect public opinion, mobilize interest groups, negotiate policy and maintain relations with people within their own and other cultures.

In the last few years, new technologies have changed the way people communicate. The change to date is just the beginning. To fully understand and engage in the practice of communication, the communication scholar and practitioner has to comprehend and appreciate the effect of how soon-to-be-developed technologies will influence and transform communication delivery systems and the evolving media in society.

The academic major in Communication and Emerging Media ties the traditional study of communication to the exploration of newly developing technologies as they are introduced into the media environment. The program promotes the knowledge, analysis and practical application of communication strategies in developing content for traditional, new and emerging media.

### BACHELOR OF ARTS (B.A.)

### MAJOR: DRAMA

The dramatic arts affect the lives of nearly every human being on a daily basis. From one-on-one storytelling to live theatrical production, film screenings and television broadcasts, the expressive arts surround and infuse themselves in our lives. They teach citizens about the world and society in which they live. They entertain and bring joy and emotional connection. They motivate individuals to seek further understanding of the self and look critically at how the global community communicates. The dramatic arts are the platforms of truth and expression, and the dramatic industry is the medium that brings these works to the world.

The program in Drama promotes the understanding and practice of the entirety of the dramatic arts. It provides students the opportunity to learn all the facets of dramatic production such as acting, directing, writing, producing, designing, filmmaking and technical production as well as how to develop as confident and creative artists capable of performing in the stage, film, television and Internet markets. Through interdisciplinary educational approaches, the Drama major provides students with the opportunity to acquire the skills necessary to meet the demands of an ever-evolving technological and international marketplace.

The Drama major is intended for students who are interested in positions within the dramatic arts, whether in performance, creation, or production. A student who majors in Drama is someone who seeks to become a complete artist with all the skills necessary to perform across a wide range of media within the dramatic industry.

Career Preparation
BACHELOR OF ARTS (B.A.)
MAJOR: FILM AND TELEVISION

The Film and Television program is designed to provide students with the knowledge, skills and experience necessary to build successful careers in film, television and video media. Citizens of the 21st century will be empowered and employable as they develop fluency in visual storytelling and production.

The Film and Television program emphasizes the creative, technical and theoretical study of the cinema, television and video media. Pre-production, production and post-production skill-sets taught in the major include: screenwriting, shot selection, cinematography, casting and collaborating with actors and TV journalists, script supervising, sound recording, and non-linear video editing with a multi-layered sound track. Students work collaboratively and have an opportunity to master their technical competency with state-of-the-art technology.

The Film and Television program is intended for students who are interested in positions in the wide ranging industries of film, television, video and Internet-delivered media, whether they are located in Hollywood, New York or smaller film production centers that produce entertainment, information and corporate films and video.

**MAJOR: MULTIMEDIA JOURNALISM**

The Multimedia Journalism program emphasizes the "hands on" practice of journalism across all media with a curriculum that recognizes the field’s expansion beyond its traditional boundaries. Journalism in the 21st century embraces new and emerging media technologies, expanded opportunities for nonfiction storytelling, and developing reporting techniques and concepts. Interactivity, user-provided content, mobile devices and evolving media, including blogs, Google News, YouTube, Facebook and Twitter continue to alter accepted notions of news cycle and coverage.

The Multimedia Journalism curriculum offers students an opportunity for training and practical experience in news, investigative and feature reporting in a variety of forms. The program is designed to equip students with the skills necessary to provide content in written and visual forms for use in broadcast, print and Internet-delivered media, as well as performance technique.

Students interested in using the communication media to find and tell stories of importance and engage the audience in the development of history will find the Multimedia Journalism major an opportunity to enter a vital profession with a global reach and a worthy goal: an informed citizenry.

MAJOR: CRIMINAL JUSTICE

The Criminal Justice degree is an interdisciplinary degree that introduces students to the study of agencies, personnel, philosophies, procedures and methods that comprise the criminal justice system in the United States. The Criminal Justice program is designed to expose students to various aspects of existing law enforcement systems, judicial systems and correctional systems within an ethical and constitutional context.

The Criminal Justice program is designed to provide a curriculum that focuses on interpreting norms, mores, laws and rules that govern behavior in a civil society and that helps students develop a general understanding of a systems process within criminal justice. The program introduces students to diverse crime and causation theories, emphasizes the critical examination and evaluation of the ethical implications of various societal issues, and enhances effective written and oral communication skills as well as mathematical computations, quantitative reasoning, information literacy, intellectual strategies and computer use.

The Criminal Justice program is consistent with the vision and mission of Lynn University in that its academic programs reflect the importance of global transformation, multicultural awareness and international exchange and include the breadth and depth that are a basis for competencies in all programs.

Through the Criminal Justice program, students become able to describe the agencies and processes involved in criminal justice administration; explain the Bill of Rights and the impact on criminal justice system defendants; describe the nature, etiology, and control of law-breaking behavior; and compare and contrast the law enforcement systems of countries throughout the world.

Criminal Justice students learn to describe the structure and process of the American judicial system from a local, state and federal perspective; explain how gender affects women as offenders, victims and professionals in the criminal justice system; and analyze diverse ethical issues encountered in the criminal justice profession. These issues include discretion, affirmative action, use of deadly force, misconduct, civil disobedience, undercover operations and privacy. The program also helps students develop independent research study in the criminal justice field.

Graduates of the Criminal Justice program are able to apply ethical values in a diverse, complex and interconnected society and leave Lynn University with the knowledge, confidence, competencies and ethical consciousness to assume positions of responsibility and leadership.

The Bachelor of Arts in Communication and Media promotes the knowledge, criticism and practical application of communication by offering students both the theoretical foundation necessary for understanding the role of communication in a diverse society and intensive practice in "storytelling" across traditional and emerging media and to a variety of audiences.

The major in Communication and Media is intended for students who are interested in communication-related services, advertising and public relations, general media production, and business communication. The program also prepares students for graduate studies in communication and media.

GRADUATE PROGRAM
ACADEMIC AND RECORDS INFORMATION

The Mission of the Graduate Programs of Lynn University

Lynn University provides an intellectually stimulating environment where students gain knowledge and competencies necessary to become global leaders and lifelong learners. Lynn University attracts students from a variety of backgrounds who aim to become leaders in their fields. Lynn University seeks to enhance the career advancement of working professionals.

The overall mission of Lynn University is to provide its graduates with the knowledge, competencies and skills needed for leadership in the 21st century. In order to achieve these purposes, the curricula of the university's graduate degree and certificate programs are reviewed on a regular basis to assure the academic quality and relevance of course offerings. The university is committed to individualized student attention and mentoring. Faculty members foster and help learners realize the development of their innate leadership talents and intellectual abilities.

Degrees, Programs and Certificates

Degrees

The Graduate Programs at Lynn University offer five types of degrees: the Master of Business Administration (M.B.A.), Master of Education (M.Ed.), Master of Science (M.S.), Master of Music (M.M.), and Doctorate of Education (Ed.D.), as well as two Certificate Programs.

The two M.Ed. programs include a minimum 39-credit practitioner-oriented degree in Exceptional Student Education and a 36-credit Educational Leadership degree which focuses on leadership-related theory, knowledge and clinical experiences in the field, as well as practical application of theory and knowledge.

The 36-credit M.S. in Administration is available with specializations in Criminal Justice Administration, and Emergency Planning and Administration. The 36-credit M.S. in Communication and Media offers specializations in Digital Media and Media Studies and Practice. There is also a 36-credit M.S. in Applied Psychology as well as a 60-credit M.S. in Applied Psychology with a Counseling specialization.

The 36-credit M.M. is available with specializations in performance, instrumental collaborative piano and composition. The M.M. in performance is offered with two variations designed for "pianists" or "strings, winds, brass and percussion."

Certificates

A certificate in Digital Media is offered through the Eugene M. and Christine E. Lynn College of International Communication.

A post-baccalaureate diploma course of study, known as the Professional Performance Certificate, is available through the Conservatory of Music at Lynn University. This two-year program's primary focus is advanced music performance education.

Graduate Policies

Policy and Procedures for Failing Grades

Students who receive a grade of F are in serious academic jeopardy. When this happens, their advisor(s) conducts a thorough review of the student's academic progress, in order to determine whether or not and under what circumstances the student(s) will be allowed to remain in the program. In turn, the advisor shares the review results with the dean of the appropriate college, where a final determination is made. The student is informed of the decision in writing either to: (a) remain in the program with a plan for remediation; or (b) be dismissed from their program and the university. For those who remain in the program, the failed course must be repeated the next term the course is offered.
**Student Participation in Sports**

Many of our graduate students are interested in participating in athletics. With the changes outlined in the 1998-1999 2007-08 NCAA manual, graduate students may now compete using the transfer exception, which follows.

Graduate Student or Post-Baccalaureate Participation: A student-athlete who is enrolled in a graduate or professional school of the institution he or she previously attended as an undergraduate (regardless of whether the individual has received a United States baccalaureate degree or its equivalent), a student-athlete who is enrolled and seeking a second baccalaureate or equivalent degree at the same institution, or a student-athlete who has graduated and is continuing as a full-time student at the same institution while taking course work that would lead to the equivalent of another major or degree as defined and documented by the institution, may participate in intercollegiate athletics, provided the student has eligibility remaining and such participation occurs within the applicable five-year or 10-semester period set forth in 14.2.

Transfer Exception: A student who transfers and enrolls in a graduate program, professional school or second baccalaureate or equivalent degree program at an institution other than the institution he or she previously attended as an undergraduate may participate in intercollegiate athletics, provided the student has eligibility remaining. (Adopted: 1/9/96 effective 8/1/96 for those student-athletes who transfer to the certifying institution on or after 8/1/96, Revised: 1/8/07 effective 8/1/07).

Foundation requirements for the M.S. in Administration are designed to assure that students have the requisite theoretical and applied knowledge to pursue their individual interests in their specializations. Building on the breadth and depth of the foundation, specialization courses enable students to continue to expand and deepen their mastery through practical applications, simulations, case studies, and applied research in areas of individual interest through the graduate projects and in some specializations, internships.

The M.S. in Administration foundation and specialization courses complement each other and address increasingly complex contemporary and future societal challenges and opportunities faced by 21st century managers/administrators. Through the development of critical thinking skills and a commitment to lifelong learning, graduates are able to understand changing trends and focus on institutional and human needs.

Graduate Project/Publishable Paper – Optional

A graduate project provides graduate students with an opportunity and the means to demonstrate the acquisition, mastery and integration of the knowledge and skills required by their specialization. The project focuses on an area of student interest that meets the acceptable standards for graduate level research.

Grading of the Graduate Project

The project is graded on the basis of a pass or fail. A pass is equivalent to a B or better, a fail to less than a B. In the event that a completed graduate project does not meet university standards and receives a grade of fail, the student will meet with the advisor to review the problems that must be addressed and will resubmit the revised project within 90 days of the meeting.

Specialization Options

Within this context, students cultivate their particular areas of professional interest while developing the talents, abilities and competencies essential for skilled, effective practitioner-leaders. Specializations are available in the following:

a. Criminal Justice Administration (CJA)
b. Emergency Planning and Administration (EPA)

The M.S. degree in Administration requires the completion of 36 credits.
M.S. IN ADMINISTRATION SPECIALIZATIONS

a. M.S. IN ADMINISTRATION WITH A SPECIALIZATION IN CRIMINAL JUSTICE ADMINISTRATION

The Master of Science in Administration with a specialization in Criminal Justice Administration prepares individuals for leadership roles in a variety of fields within the profession of criminal justice. Despite the broad spectrum of careers within the profession, success and leadership is predicated on an individual’s verbal and written mastery of the concepts, principles and functions involved in the management of criminal justice organizations. This specialization focuses on preparing the student to effectively integrate proven business methods with a genuine respect for dynamic and innovative approaches to issues facing the criminal justice executive in the 21st century.

Lynn University’s South Florida location typifies the experiences of modern criminal justice agencies in diverse, densely populated urban centers. Using this laboratory for learning, expert faculty challenge graduate students to examine a broad spectrum of issues confronting the modern criminal justice administrator. By applying sound business and administration principles and practices, students debate and evaluate alternate solutions.

The required culminating graduate project enables our graduate students to demonstrate mastery of these complexities in a specific area of scholarly interest.

b. THE M.S. IN ADMINISTRATION WITH A SPECIALIZATION IN EMERGENCY PLANNING AND ADMINISTRATION (EPA)

The field of emergency management has undergone a tremendous transformation since the tragic events of Sept. 11, 2001. Complex changes in technology, demographics and public policy have significantly influenced the management of emergencies and disasters. Moreover, the number and severity of recent disaster events clearly demonstrate the need for enhancing overall emergency preparedness and response capabilities in both the public and private sectors.

These complex challenges and demands suggest the need for insightful examination of relevant issues in Emergency Planning and Administration. More than ever, public agencies and private organizations require knowledgeable and skilled administrators who can effectively deal with the growing challenges of emergencies and disasters. The specialization in Emergency Planning and Administration is designed to provide tomorrow’s leaders with the knowledge and skills necessary to meet these complex demands. Various emergency management related theories, concepts and contemporary practices will be examined thereby providing an understanding of crises within an intergovernmental framework.

The optional culminating graduate project enables graduate students to demonstrate mastery of these complexities in a specific area of scholarly interest.

MASTER OF SCIENCE (M.S.) IN APPLIED PSYCHOLOGY

Lynn University offers students an environment focused on the enhancement of educational goals and practical application of knowledge in preparation for lifelong learning. In keeping with the university's mission, the master's degree in Applied Psychology provides students with the training and necessary course work to pursue professional and educational goals in the fields of psychology and counseling. The primary objective of this program is to inform students' of the principles and techniques of psychological research and counseling in the hopes of preparing them for careers within the field of psychology.

This program offers a general track and a counseling track toward completion of the master's degree. Students interested in the general graduate program can enroll in the M.S. in Applied Psychology and through intensive research, thesis and fieldwork experience become specialists in their desired non-clinical field.

Students interested in the counseling graduate program can enroll in the M.S. in Applied Psychology and satisfy all academic requirements for licensure as a mental health counselor in the state of Florida during a graduate program. The required course work and clinical fieldwork will allow these students to become skilled as mental health counselors. M.S. Degree in Applied Psychology Completion Requirements

1. Students must complete the required course curriculum based upon their chosen track. Satisfactory completion of these courses must be in compliance with University Academic Standards for Graduate Work as well as Program Competency Standards. (See Statement of Competence.)
2. Students must satisfactorily complete the experiential components of their curriculum based upon their selected track.
3. Students must complete a scholarly research thesis (general track students) or satisfactorily complete a standardized exit exam (counseling track students) commensurate with all program expectations and policies. No graduate degree will be conferred without the satisfactory completion of these final assessments.

Students in the Counseling Track may have the ability to become licensed as a Licensed Mental Health Counselor in the State of Florida. Students interested in pursuing licensure or post graduate employment are responsible for researching the specific requirements to attain these outcomes. As employment requirements and licensing requirements may change, it is incumbent upon the student to be aware of their specific academic needs.

In the State of Florida, the current requirements and process for licensure as a Mental Health Counselor:

1. Students must graduate with a 60 – credit Master’s degree which includes 1,000 hours of fieldwork at an approved site.
2. Upon graduation, students register as a Mental Health Intern with the State of Florida. This is post-Master’s and must be completed by the Student. Part of this process includes verification of practicum and internship hours through a letter generated by the Registrar’s Office at the university.
3. Students may need copies of their syllabi or course descriptions from the Academic Catalog. This may be true when attempting to become licensed in other states as well.
4. In the State of Florida, once students are Registered Mental Health Interns, they must complete a minimum of two years post graduate work under appropriate supervision. Students must check with the Licensing Board for details and specifics on these requirements.
5. During this two year post-Master’s clinical experience, students will have the opportunity to sit for the state approved licensing exam.
6. Upon successful completion of all licensing requirements, students may be approved by the State Board and offered a license as a Mental Health Counselor.

The title, requirements and procedures in other states may differ from Florida and students need to explore this information prior to beginning their academic preparation.

STATEMENT OF COMPETENCE: In graduate work, the grade earned in a course not only represents a grade but is also a symbol of mastery of the work and competence in the field. It is for this reason that the Program of Psychology has instituted a competence requirement for satisfactory completion of a course. This requirement is stated as achieving a grade consistent with knowledge at the 80 percent threshold (on a 100 percent scale) or higher in a course. Students who do not achieve this level of mastery are considered to be lacking in the necessary competency for this course and are required to retake the course until they can document appropriate competence (defined as at least a grade of 80 percent).

Review Criteria

The candidate must comply with all academic rules, regulations, and time lines set forth by the College of Education. These include, but are not limited to, maintaining an acceptable degree plan and cumulative grade point average (GPA), completing required course work, passing the mid-program performance review and Scholarly Practitioner Portfolio Presentation (end of sixth semester), approval of dissertation in practice proposal, and successful completion, presentation, and defense of the dissertation in practice.

Performance Reviews

Performance in the program will be assessed in several ways. Conventional individual course performance measures (such as grades) are coupled with the mid-program review by program faculty who additionally provide performance feedback on candidate’s presentation of their electronic Scholarly Practitioner Portfolio. In addition, each candidate must complete a minimum of two critical assignments per class and a culminating original research study, referred to as the Dissertation in Practice (DiP). The former serves to display mastery, synthesis, and application of knowledge and skills gained during the Ed.D. program. The latter serves as an opportunity to integrate and use skills gained during the program of study.

A candidate who has committed academic misconduct must complete the remedial actions required of the misconduct review process. These are all required actions.

Mid-Program Review

Students who are admitted to the doctoral program will have their mid-program review during their fifth semester. Students may be strongly encouraged to continue in the program, recommended to remain in the program, placed on probation, or asked to leave the program as a consequence of this review. This review considers the whole of the student’s work to date, including attendance, participation, comprehension, and writing as well as any other factors deemed important by the faculty. The review assesses the student’s potential for success at the dissertation in practice stage.

All students will be notified by letter of the results of this review; every student so reviewed may make an appointment with the Director of the Ed.D. Program in Educational Leadership to discuss the results. Students who do not pass the review will be dismissed from the program, effective at the end of the academic year (or the semester in which the review results are reported to the student).

Improvement Process

The improvement process includes the following steps:

5. The student should develop a performance improvement plan with their identified mentor. This plan must include steps and a time line for achieving satisfactory progress over the remaining four semesters.
6. The performance improvement plan should be submitted to the Director of the Ed.D. Program in Educational Leadership.
7. After the performance improvement plan is approved by the Director of the Ed.D. Program in Educational Leadership, the student and mentor will meet with the Director of the Ed.D. Program in Educational Leadership and the Dean of the College of Education to discuss the student’s performance and the plans for improving it.
8. The Dean of the College of Education will decide whether and when all tasks in the improvement plan have been successfully completed. The recommendation by the mentor will be taken into account for this decision.

Appeals Procedure

Students who are asked to leave the program at mid-program review may appeal the procedure by notifying the Dean of the College of Education in writing within two weeks of the date on the letter of notification. The letter should state the grounds of the appeal. If new information is forthcoming, it must be given to the Dean of the College of Education. The Director of the Ed.D. Program in Educational Leadership will reconvene the Review Committee to consider the appeal within one week of the date on the letter of notification, and the final decision will be conveyed to the student within a reasonable period of time thereafter.
MISSION STATEMENT

The Lynn University College of International Communication (CIC) provides students an opportunity to acquire the knowledge, skills and experience necessary to build successful communication careers in the global media marketplace.

The college is committed to blending a strong liberal arts concentration with professional programs in communication that offer “hands-on” educational opportunities in film and television directing, writing, camera work, lighting, set design and digital editing; theater and media performance; journalism, advertising and public relations; studies in traditional and emerging media; and multimedia design, including the study of photography, animation and graphic design.

The unique combination of theory, practice and internships offers students an opportunity to build a solid foundation for success in the competitive fields of communication. The college’s innovative approach to collaborative education enables students to participate in integrated learning projects that simulate media industries and promote the transition to professional positions in communication and media.

FACILITIES

State-of-the-art digital facilities house broadcast and cinema production and post-production centers, multimedia design labs with 3D 3-D printing and motion capture animation studios that enable students to develop professional skills and an advanced understanding of studio, field and news production, as well as digital post-production and editing. Instructional facilities for new media promote the early adoption of developing technologies into the mass media mix, including social and mobile media, Web design, audio/video streaming, interactive business presentations and emerging media.

GRADUATE PROGRAM

MASTER OF SCIENCE IN COMMUNICATION AND MEDIA (M.S.)

The Master of Science in Communication and Media is an advanced degree designed for media professionals and recent baccalaureate graduates who plan careers as media scholars and/or practitioners. The program emphasizes the application of technology and new media delivery systems in the evolving media environment.

Graduate Admission Standards for M.S. in Communication and Media

Students are required to meet the following prerequisites for admission to the program:

1. A bachelor’s degree from an accredited institution.
2. Undergraduate GPA 3.0 or higher.
4. A letter of recommendation from an academic or professional source.
5. A writing sample demonstrating the capacity to perform at the graduate level.
6. For international students who have not graduated from an accredited undergraduate institution in the United States, a satisfactory TOEFL score (550 paper-based, 213 computer-based or 80 Internet-based) along with an International Transcript Evaluation and a course equivalency report must be provided.

Completion Requirements

1. Complete the degree in four calendar years from the date of a student’s initial registration or be held to any new degree requirements.
2. Maintain a cumulative 3.0 GPA and achieve a C (2.0) grade or higher in each course.
3. Complete 36 graduate credits of foundation and specialization course work, including a creative project or thesis in the Media Studies and Practice specialization or digital portfolio in the Digital Media specialization.*

* In the Media Studies and Practice specialization, COM 540 and COM 545 may be substituted for the creative project or thesis.

Curriculum

The curriculum seeks a balance of theory and practice by incorporating a substantive foundation of communication and media theory, research, law and history with multiple layers of practical application in content production and delivery.

The interdisciplinary nature of the degree permits students who have undergraduate degrees in a variety of majors to enter the program without penalty. Students without an undergraduate degree in a media-related discipline may be required to complete a limited number of lower-level courses.

The M.S. in Communication and Media is made up of 36 credit hours of academic courses and creative project or thesis. Eighteen (18) of the 36 credits are foundation courses and 18 credits are specialization courses. The creative project/thesis and the digital portfolio are determined and
evaluated by the candidate’s graduate committee. M.S. graduate committees are composed of the candidate’s major professor and two members of the faculty.

This course is designed to teach students that there is more to philosophy than the study of dusty, old philosophical texts. Rather than simply learn about philosophy and philosophers, in this class students will learn to think philosophically themselves by reflecting on the ideas that exist within familiar forms of contemporary culture, including films, television, music, art and politics. Students will read contemporary thinkers writing about the philosophy behind recent films, rap music and hip-hop culture, MTV and the cult of personality, pop art and the leveling of the divide between mass culture and avant-garde art, and the role of today’s youth in politics. After reading contemporary articles on each of these topics, students will view or listen to the films or music or art and undertake reflections of their own.
