

By Lynn University on Dec. 4, 2020

The on-campus CVS Health rapid testing facility is open through Dec. 9 for COVID-19 rapid testing. Testing continues [by appointment](#) only.

The facility closes Thursday, Dec. 10 for the remainder of the fall semester. As of Thursday, students and employees are encouraged to visit [hhs.gov](https://www.hhs.gov) for community-based testing resources or to make an appointment with a local [CVS Minute Clinic](#) or urgent care facility.

We will update this page with spring testing details as soon as they're available.
