Swimming, golf, tennis, track and cross country will compete in Spring 2021

Lynn University's swimming, golf, tennis and cross country teams will participate in Sunshine State Conference competition during the 2021 spring semester. Track, which is not part of the SSC, will also participate in local meets. Team schedules are now available at lynnfightingknights.com.

The NCAA COVID-19 Medical Advisory Group has assessed these sports to be low risk for transmission of COVID-19. We will also be taking precautions including no spectators, adherence to social distancing guidelines and wearing masks when social distancing is not possible. Travel will be limited to Florida with reduced vehicle capacity and no hotel stays or air transportation. In addition, there will be no locker room use during home or away competitions.

The university and the conference will continue to evaluate conditions and determine at a later date whether basketball, baseball, softball and lacrosse will compete. We will monitor the impact of COVID-19 on our athletics program and make changes as conditions change.
