Once Again A Success...

Benefit Cocktail Dinner held for Soricelli

by Scott Vrabel, Assistant Editor

A benefit cocktail dinner was held for CBR baseball player, Jim Soricelli. The event was sponsored by Bascom Palmer Eye Institute and the Miami Marlins baseball team, to help Soricelli pay for medical costs resulting from last year’s brutal eye injury.

Soricelli, a pitcher for last year’s Boca Raton squad, was injured in a violent post-game brawl in February. Doctors battled to save his eye, but, in the end, it had to be removed.

Elephant Walk Restaurant hosted the benefit. The Director of Marketing for the Marlins, Bob Diamond, led the fundraising efforts. Over $2,000 dollars was collected on Soricelli’s behalf. Contributions may also be sent to First Bankers in Boca Raton.

Among those who attended the event were ex-major league shortstop Bucky Dent, and ex-Pittsburgh Pirates Manny Sanguillen and Rennie Stennet. Also attending were head baseball coach Harry Christiansen and assistant coach Joe DiBenidetto. Over 100 people came to the benefit.

The injury occurred after the Feb. 11 meeting between the Knights and Miami Dade North, usually one of the finer junior college teams in the area.

According to CBR baseball coach Christiansen, “I went out to congratulate my pitcher (Don Voigt) when I noticed some action taking place near second base.”

Coach Harry Christiansen gave his account of what happened, “Our players were coming off the field, happy because we had won 2-1 and, the next thing I knew, Lane and another guy were ‘squaring off.’ All of a sudden, they were all out there. It was like a sea of blue shirts.”

Immediately after the fight, Soricelli was rushed to the hospital. A metro-Dade police report identified Dade-North’s Jose Vazquez as the suspect in the case. Ironically, Vazquez and Soricelli hadn’t even played in the game. Soricelli apparently was kicked in the face with a cleated shoe.

Vazquez was interviewed by the police, but was never charged. Players from both teams were unable to positively identify anyone. Later, members from both teams were questioned by the police but, as yet, there have been no arrests.

“lt’s a shame that nobody saw who it was who was kicking Jim’s face,” stated senior pitcher Al Lombardi. “There were so many players around, but no one could positively identify the person who caused the injury.”

Immediately after the fight, Dade-North player John Correll and an assistant coach, Joe DiPalco, first implicated Dade-North player Jose Vazquez in the injury but, later, testified they could not be positively sure who kicked Soricelli. Dade-North did cancel two weeks of baseball after the incident.

Soricelli has returned to the baseball field for this year’s upcoming baseball season. He is in better physical shape than ever and is anxious to put last year into the past. “I threw a little bit over the summer and feel pretty good,” said Soricelli. “Right now I’m feeling pretty strong, and I’m ready to play.”
Update

Student Government

My name is Bill Ziton and I am the president of the Student Government Association. We are back for our second term and I believe our past experience will work in your favor. I am looking forward to an excellent second year in office. Any problem, please, without hesitation, come and speak to us and we will do our best to resolve the issue.

The election of wing senators went along smoothly and produced a great team of representatives. Your respective representative will bring your idea, problem or concern to our weekly meetings and we will discuss the issue to the limit. Then, if the issue has potential for ratifying, the student government will draw up a proposal and present it to the administration. Our meetings will be documented and the minutes will be accessible to all of the student body. Our meetings are open to all of the CBR students and the times of the meetings and any other student government information will be posted in the glass cabinets, near the steps, leading to College Town.

Organizing committees is an essential component to all student governments. Presently, the food committee has been gaining great interest and participation. The TFS (Total Food Service Distribution) is very sensitive and attentive towards the students' desires. Last year's food committee suggested many fine ideas and, at least 95% of them went into effect. Jeff, the manager, is more than happy to listen to your suggestions. He is present at most meals. The food committee works on projects ranging from organizing pie-eating contests, to changing the dining hours.

The water ski club has great potential, but we need your support. Doug Gray (a CBR student C-209) is a certified water ski instructor and is very anxious to get this program on the road. He has connections enabling him to obtain a promotional boat and has all of the equipment necessary to operate the club. We need your interest! If we can show the administration that a large number of students would indeed participate in the ski club, I strongly believe that the club would soon be a reality. Please talk to Doug if you have any interest in water skiing.

The social committee is another committee that is strongly taking off. If you have any social-related ideas, again let us know! The social committee works on projects ranging from parties to any organized college functions. We all know it is a good thing happening on campus. This good thing is Mr. Hufue. Mr. Hufue is located in Academic Affairs and he is very caring and very responsive towards the students' academic, social, and personal affairs. He is not an administrator, he is not a counselor, but a nice guy who will present your problems or interest to the administration in a non-biased fashion. So, if you're in the rough, talk to Hufue.

The school is only as good as you make it. Get involved and you will see results. Talk to us and we will sincerely try to resolve your ideas, problems or questions, because we have already proven we can.

Senators Elected

Patton Hall
a-wing Mike Piersalka 211
b-wing Nick Parrot 105
c-wing David Breuer 105
d-wing Robert Moon 108

Sylvester

Stacey Levine, Editor

New Faces on Campus

Congratulations are in order for Mr. Rick Fonseca, who has just been named Dean of Continuing Education.

For those of you who aren't familiar with Dean Fonseca, he received his M.S. at Barry University, FL. He spent five years at St. Thomas University in Florida. He spent his last year as Associate Director of School of Continuing Education. He then went on to spend three years as Assistant Principal of La Salle High School in Miami.

In April, 1985, Fonseca came to C.B.R., as Director of External Programs. His main function was to set up educational programs for employees of major corporations. He also set up Intensive English Studies Programs, as well as summer grants for C.B.R., and being the Administrator of the C.L.A.S.T. test.

Dean Fonseca has more than doubled the number of students involved in External Program, in less than one year.

Along with Fonseca's many duties, he teaches a Basic Skills class for foreign students.

His reaction to the students and the C.B.R. community has been very positive. "Students are friendly and have definite ideas as to why they are here," "My door is always open to any student who would like to talk with me," said Fonseca.

MR. JOHN HUFFE

Mr. John Hufue is a welcome addition to the College of Boca Raton family. Hufue holds the position of Director of Advisement.

He attended Glassboro State College in N.J., where he received his M.S. degree in educational administration. After college, Hufue became a classroom teacher and high school baseball and basketball coach.

During his career, Mr. Hufue has developed many programs that have been designed to assist students in making their educational development rewarding and successful. Two such programs are: a program for potential high school dropouts, and a learning disability center in Plainfield, N.J.

Hufue moved to Florida in 1970, with his wife, Theresa, son, David, and daughter, Kathleen. He joined the Boca Raton Academy, where he spent 14 years as Headmaster.

During his association with Boca Raton Academy, he became associated with Dr. Ross. At the request of College of Boca Raton President, Don Ross, Hufue joined the C.B.R. team as Director of Advisement. When asked about his feelings concerning the recent growth of the campus community, he stated, "I'm very pleased to see C.B.R. grow from the days it was struggling in the '70s to the present position as a very viable contributing member of the present community. Many of the students have had the opportunity to see Mr. Huffue develop as an administrator and hopes to "meet each and every student on an individual basis." His basic responsibility is to be "a service to all members of the C.B.R. community."

Ann Nelson

Activities Director

Have you ever wondered who it is that organizes our dances, trips and daily activities? In case you haven't bumped into her around campus yet, our new Director of Student Activities is Ann Nelson.

Miss Nelson was born in Stephentown, Wisconsin, a big university town, in the northern Midwest. She graduated from Mount Mary College in Milwaukee, Wisconsin.

After college, she originally wanted to enter into the business world, instead of entering the arts. In March of 1985, a close friend of hers, who had received her M.S. degree in educational administration, asked Miss Nelson if she would like to work for him. Miss Nelson accepted the offer and has been working in the field ever since.

In April of 1985, Miss Nelson was hired by C.B.R. as the Director of Student Activities. She immediately directed a program in Wisconsin for C.R.I.B., which focused on independent living for the elderly.

Along with others, Miss Nelson set up the Elderly Living Program, which was the first of its kind in the state, and a great success at that. In March of 1985, a close friend of hers, who had received her M.S. degree in educational administration, asked Miss Nelson if she would like to work for him. Miss Nelson accepted the offer and has been working in the field ever since.

In March of 1985, a close friend of hers, who had received her M.S. degree in educational administration, asked Miss Nelson if she would like to work for him. Miss Nelson accepted the offer and has been working in the field ever since.

In March of 1985, a close friend of hers, who had received her M.S. degree in educational administration, asked Miss Nelson if she would like to work for him. Miss Nelson accepted the offer and has been working in the field ever since.

Director of Advisement

This year she is living on campus in Sylvester Hall, because she was unfamiliar with the area upon her arrival and, as she lived on campus during her own college years, it gives her campus insight. She enjoys residing here with all of us, finds it interesting and funny, because it brings back memories.

Her goals, while here with us, are to develop her program far more than it is now — advancing each semester. "I want to see a well-rounded program with the students going to activities that are fun, but intellectually stimulating at the same time."

The student body, as a whole, she views as being very diverse in a positive manner, with much potential for growth. She wants to get involved and is open to all suggestions.

Concerning the future, she possesses much optimism concerning all aspects of C.B.R. She already witnesses outstanding student growth, as well as gains amongst the administration in such a unified way, that the two are working together more each day, with enthusiasm.

If anyone has questions, suggestions, complaints or just wants to talk to her, her office is in Student Services in Patton Hall, and she would be more than happy to talk with you at anytime.

RICK FONSECA

Dean of Continuing Education
DID YOU KNOW . . .

Fruits and vegetables provide virtually all the Vitamin C (92%) and half the Vitamin A (49%) in the nation’s food supply, but only 9% of the calories, says the U.S. Department of Agriculture.

Two out of three motor vehicle accidents occur at night, according to the National Safety Council. And the death rates at night are more than three times greater than those of the day rates.

Sucking on hard candies or lollipops is a greater cause of tooth decay than eating larger amounts of ice cream or cake, since the candies dissolve slowly and surround the teeth with sugar.

The color of an egg’s shell has no effect either on the nutritional value or on the taste of the egg. The shell color depends on the breed of the chicken, not its color — both brown and white chickens lay both brown and white eggs.

According to the University of California, Popeye was wrong. Spinach isn’t a particularly good source of iron because the absorption of its iron by the body, is blocked by other substances in it.

CHINA, ANYONE?

After spring semester exams it’s the Far East for students, relatives, or friends participating in the CBR sponsored tour to China.

The British Crown Colony of Hong Kong marks the first stop. Then it’s on to the centuries-old city of Hangzhou, famous for its scenic beauty and its silk industry. Suzhou, next on the itinerary, is called the Venice of the East because of its many rivers and canals. It is filled with feats of man and nature, and its famed gardens are claimed by many to be the loveliest in the world. Shanghai, China’s largest city, and Beijing, the capital of China, highlight the tour. Beijing offers the Forbidden City of over 250 acres, the famous Summer Palace, the Ming Tombs, and the most famous landmark of all — The Great Wall of China. The tour leaves May 15 and returns May 28, 1986. There are six credits will be available to students. Parents and friends may also join the CBR sponsored tour. For further information contact Dr. John Pickering or Dr. Rose Bowen: (305) 994-0770.

HOTEL/RESTAURANT MANAGEMENT PROGRAM

The Hotel/Restaurant Management Program at the College of Boca Raton, under the direction of the Coordinator, Mr. Ted Veskosky, has taken part in many activities on and off the campus.

On September 27th, 1985, the Principles of Foods Class served a luncheon to the SAT counselors of Palm Beach County. This was a great function that the new classes gave. The students showed much enthusiasm, as well as professionalism.

On October 19-21, 1985, twenty students went to the Florida Restaurant Show, in Orlando, FL. The number of participants has tripled in the past year. During this trip, the students had the opportunity to meet many of the top men and women in the hospitality industry, from the state of Florida.

October 3, 1985 was the Honors Convocation for C.B.R. students. Among the extras this year, the H.R.M. students participated in serving the dinner for this function.

The H.R.M. program holds its own Honors Convocation for the Hospitality students and the Administration. The most recent convention was held on October 18th. Once again, the students of the Principles of Food classes prepared a wonderful selection of canapes’s and various other items that proved to be a delight to the palate. Miss Diane Davis was a featured speaker at the Convocation. Miss Davis is the founding president of Women in Food service. We were very fortunate to have Miss Davis come from New York to speak to the students, and present a wonderful slide selection displaying numerous women who have become successful in the hospitality industry.

HOTEL SALES MANAGERS ASSOCIATION

President: Jay Marsella
Vice President: Kathy DiNardi
Secretary: Doug Gray
Treasurer: Peter Pappas

Treasurer: Chris Emmanuel
Meeting: Second and Fourth Thursday

The three clubs are junior branches of local and tri-county chapters, with international membership.

MUSIC

MIAMI VICE

by Scott Kerniss

The last television album to top the Billboard chart was Peter Gunn in 1959. Now 26 years later music from the television series “Miami Vice” is ready to hit the charts with some great music from top artists.

On side one you can find the first of 5 instrumentals which are performed by Jan Hammer. The “Miami Vice Theme” was actually created by accident while Jan was fooling around with his synthesizer. The accident has paid off, for the song is currently in the top ten. Another top ten song is the list new song on the album which is “You Belong to the City” which is performed by Glenn Fry. The second new song on the album belongs to Chaka Khan which is “Own the Night” which is based on a hooker’s hard life.

On side two you find a long version of the theme song by Grandmaster Melle Mel rap called vice. Also on this side you find Tina Turner’s “Better be good to me.” The album finishes up with 3 instrumentals all by Jan Hammer in which I think is a little too much.

In the past, television soundtracks weren’t any good because they just didn’t have enough good songs on them. For Miami Vice’s soundtrack it follows right along with the bad pattern for soundtracks. If they could have cut out some of the instrumentals and replaced them with something else that you hear on the show it would be a bit. And finally, we come to the cover which is a real bad example of photography. Oh well, let’s give thanks to whomever it may be that soundtracks will not hurt the ratings of one of the best television programs on TV today.

NEW LAUNDRY FACILITIES

Good news to fellow students. New laundry facilities have been installed on the CBR campus. No more going off campus or running around to different buildings looking for an empty machine.

This year, centralized washers and dryers are located in a new building called St. Joseph’s Hall, a short walk behind Lynn student center. There are ten washers and dryers. The cost for a wash is approximately seventy-five cents. The laundry room is supervised daily and is open seven days a week. But, best of all, on Mondays and Thursdays a dry cleaning service will be available to pick up clothes and deliver them back to school, pressed to perfection.

Mr. Greg Malfitano, head of student services, is very pleased and excited about the new facility now available for the students.

Happy washing one and all . . .
BASEBALL TEAM
by Don Daley

The CBR baseball team is looking forward to the 1985-86 season. After a disappointing ending to last year’s season, when the Knights did not make it to post-season play, the team is ready to go again.

The Knights are a team that is chock-full of experienced players. If there is any obvious weakness to the team, it has to be in its pitching staff, where only one experienced pitcher is returning. “We have quite a few young pitchers that are going to have to step right in and do the job,” says coach Harry Christiansen. “I tell my position players that our pitchers will do the job. I hate to put a lot of pressure on some of these young guys, but they’ll have to come through.”

The ace of the staff is senior, Al Lombardi, who will try to pick up where he left off last season, after a very strong finish. The rest of the staff will have to come through for the team.

Probably the most important position player is catcher Steve Connelly. He proved to area scouts last year, that he was one of the finest defensive catchers in the state. With a good offensive season, he stands a good chance of being drafted.

At the first base, Sal Giardina is coming off a solid year of baseball. He possesses a powerful bat and plays a steady defense at first base. Junior Rob (Rev.) Christiansen, at second base, is steady and an excellent baserunner.

Junior Mike Berg, at third base, is solid defensively and has a potent bat. He is also an average runner.

Junior Scott Merz, at shortstop, is a very good defensive player. He is also an offensive threat. He may have to fill in, in case any players are injured.

Senior Mark Margolis, a utility infielder last year, has the inside track at second base, after two weeks of practice.

Third baseman Tony DiBenedetto is a solid fielder who should have a good year, offensively, after getting his feet wet last year in his rookie season. The outfield is anchored by junior center-fielder Dale Tuccio. Dale covers a lot of ground in center field and when he gets on base, the opposing pitcher better be on his toes.

Baseball Field
by Don Daley, Sports Writer

When the CBR baseball team took to the field this season, there was quite a different look. The biggest improvement that is being made is a complete overhaul of the field. A scoreboard has been put up, and dugouts are on their way.

“There appears as if the school is going to put a little more of a commitment into our baseball program,” stated senior pitcher Al Lombardi. “If we get everything that has been promised to us this year, everything should work our pretty well.”

Work on the present field took place sometime in mid-October. That work includes shifting the field west, which will give more room from homeplate to the fence. The extra room will also allow more room from homeplate to the backstop. The infield has also been redone and visiting teams who were probably used to it, will surely appreciate this.

The scoreboard is in place. It includes a public address system and also plays music. Dugouts are on their way, along with a concession stand that will be in place for the spring. “The administration is showing a major commitment to baseball at CBR,” stated coach Harry Christiansen.

The baseball team also said they are trying to raise money for new uniforms. “The uniforms we wore last year were both uncomfortable and sort of ugly,” says shortstop Scott Vrabel. “We realize that it’s not that important how you look out there but, in the past, the uniforms have been pretty bad.”

The baseball team played a 75 inning fundraiser game on Saturday, Oct. 5. All money raised will go towards the purchase of new uniforms. Money can be donated to the athletic office or to any of the players.

The other two outfielders who will probably start are Scott Merz and Bill Fanizzi. Scott is an excellent outfielder who also handles a bat very well. Bill led the team in hitting last year, as the team’s designated hitter, and is looking forward to starting in right field.

Senior Nick Loccisano will see time either catching in the outfield, or, at the designated hitter spot. Most of the other players are freshmen who will have to fill in, in case any players are injured.
