ATTENTION! The Pulse is looking to feature students with "pimped out" rides. Do you have a special sound system? Do you have a unique paint job or "bling-bling" on your rims? Let us know, and we will let the Lynn community in on your style. For more information e-mail Lynnpulse0607@yahoo.com with Pimp My Ride in the subject.

Do you like living in your residence hall? Do you have any complaints or new ideas you'd like to share with others? If you answered yes to any of these questions you might want to check out this Organization.

Residence Hall Association (RHA) is all about the peoples' opinions and serving the Lynn community. The mission of RHA is to improve your experience living in the dorms and to create a bond between students and the campus.

The duties of RHA are to serve, protect, and be beneficial to the residence halls, and also the Lynn community. They listen to a lot of ideas and are always open to change. RHA is here to help our residents and make your life happier. RHA includes a chairperson and a representative from each residence hall.

According to Heather Sears, RHA is also responsible for organizing “Movie on the Wall” once a month; open for all students, including free popcorn!

Last year, RHA tried to get students involved, but this year they are reconstructing the organization and focusing on the needs of the residents.

RHA is thinking about reducing the line in the cafeteria and placing a machine so it will become easier to get in and just grab a meal without any hassle.

Anyone is welcome to participate in the meeting and get their voices heard.
Shoes Aren't Just A Fetish For Girls!
Sneakers Are Big Among Men
By Kelsey Breining

Nike Sneakers
Women, if you think that you are the only ones with a shoe fetish, than you thought wrong!

Men all over are sporting fashion's hottest addiction: sneakers.

What makes each sneaker so special is level of individualization that goes into creating the sneaker.

Nike, for example, has sneakers specifically designed not only for running, but different types of running. And that's in addition to their regular lineup of sneakers, although men nowadays don't just buy sneakers because they need something to run around in, they are buying sneakers to literally make their outfit.

These shoes really bring a new meaning to men's fashion everywhere.

Kevin Federline

Top sneaker designers include: Air Jordan's, Nike, and A Bathing Ape.

Those sneakers you see celebrities, sports hero's and rock stars wearing are not just your average sneaker; men are dropping anywhere from $200 to $300 for a pair (and we thought Manolo Blahnik's were over-the-top...)

Sweet Success
Men Shut-Out Tech
By Jeffrey Messman

The men's soccer team brought Florida Tech back to reality with a 3-0 drubbing Saturday afternoon. Nano Short and Carl Wallace scored for their second consecutive game and Jean Alexandre added his first goal of the season as the Knights stopped the Panthers winning streak at three games.

Girls & Sports
A Comic By Justin Borus and Andrew Feinstein

Marshall's Rules for Interviewing

1. Tell me about your self?
2. What's your handle?
3. How did you get into this sport?
4. Why did you stay in it?
5. What do you like about it?
6. What's your next goal?

Girls

Two things that I hate

1. People who lie
2. People who are fake

Girls

I'd love to hear

1. How did you get into your sport?
2. What do you like about your sport?
3. What is your next goal?

Girls

I've been around long enough to know you can't

1. Recover from a broken snap
2. Get back on the horse
3. Keep going
4. Never give up
Calendar

On Campus Today

KAT Java Jam, "Ball in the House"
What: This great vocal group will perform their well known songs. Students will enjoy free Café Ala Carte service at all Java Jams.
When: 8:00 pm
Where: Cafeteria Patio

Resume Makeover
When: 5:00 pm - 6:00 pm
Where: Trinity Hall
Why: Attend this workshop to assess your qualifications, skills and accomplishments for employment purposes. Identify appropriate resume and cover letter styles and formats to market your qualifications to the needs of the employer. Attendance is required for scheduling on-campus interviews. Are You Hungry?
The 2008 Audi R8
By Whit Tower

A few years ago Audi released their newest addition of the RS line with an amazing RS6. It was simply a beast in a tailored suit!

This past year, Audi raised the bar and gave to the world the RS4. Smaller then the RS6 in size but never the less, a killer to anything in its line of competition.

RS6 in 2002... RS4 in 2005... and the R8 in 2008.

Before we embark on this ride, be sure to bring your riding essentials: Flight suite from NASA, heart meter, and the thrill and smiles... that's on Audi for free.

The 2008 R8 speaks for itself. The R8 boasts a beastly 414 horsepower high raging engine, with complements of Audi's Quattro drive train.

This baby will even have the M5s running from its path!

Thinking About An Internship This Summer?
W CBS-TV New York and The Associated Press Have Internship Opportunities
By Christie Gomez

Recently the i Pulse was notified of some internship opportunities. Over the next few weeks we will be running articles featuring these internships and how you can get involved.

The WCBS-TV New York college internship program offers undergraduate students a breadth of opportunities to learn the inner workings of a television station. Students are assigned to a variety of departments.

College/University level students in satisfactory academic standing with an overall grade point average of 2.7 (C+) and a minimum grade point average of 3.0 (B) in major courses are welcome to apply.

In order to be considered please submit a letter of intent, a resume, a copy of college transcript, two letters of recommendation from professors or employers and a letter from the school confirming number of academic credits to be received.

Department supervisors are responsible for intern assignments. A minimum of 3 days a week is required for all interns participating in the fall or spring programs. Consecutive days are preferred. Summer internships are scheduled on a full-time basis.

The WCBS-TV internship program is a non-paid program. However, a limited stipend is provided to assist students with transportation and lunch expenses.

The deadline for the spring program is November 15. For more information visit www.wcbs.tv or contact Vanessa Kenon-Hunt at wcbs.t v; 52 West 57th Street; New York, New York 10019 vkenon-hunt@wcbs.com.

The Associated Press program offers up to 22 paid internships for students who are aspiring print, photo, broadcast, graphics and multimedia journalists.

The internships are individually tailored training programs for full-time juniors, seniors and graduate students at U.S. colleges and universities.

To apply you must assemble the following: a 300 word autobiographical essay on this topic: "The Associated Press seeks to recruit and retain a workforce that embodies a wide range of talents, experiences, achievements and journalistic skills. Please describe the qualities and accomplishments you would bring to the company; a resume and cover letter; five to ten letters of reference, at least one from a professor or faculty advisor on school letterhead.

The internships start anytime between mid-May and mid-June.

Contact your nearest bureau for an appointment to interview and take the timed news writing test. To locate your nearest bureau, go to http://www.ap.org/pages/contact/contact.html.

Applications for the 2007 program, including interviews and tests, must be completed by Nov. 15.
The Guardian Movie Review
By Beatrix Lewis

If you love a movie that gives you hope, inspires you, then The Guardian is the movie for you.

The Guardian is about a legendary Rescue Swimmer, Ben Randall that loses his men in a fatal crash.

He is sent to teach at An A school, an elite school for Coast Guards.

Randall comes across Jake Fischer, a young cocky guy who wants to prove he is the best.

They butt heads for a while, but then he comes to realize that Fischer is a younger version of himself when he first started at Coast Guard.

Randall pushes Fischer as hard as he can because he knows what Fischer is really capable of.

Randall molds Jake’s raw character with a touch of dedication and heart.

With graduation coming up, Randall and Fischer travel to Kodiak, Alaska and test the strong dangers of the Bering Sea.

Fischer finally learns the true meaning of commitment, sacrifice, and gets a sense of heroism.

This movie is full of action and has some really thrilling scenes. It portrays how committed these people are towards protecting their country.

With Ashton Kutcher and Kevin Costner in the picture, how could anyone resist?

Volleyball Overcomes Slow Start
Women Down Flagler

By Jeffrey Messner

The Lynn University volleyball team remained undefeated all-time against Flagler College with a 3-1 victory Sunday afternoon.

Although the Fighting Knights struggled in the first game, they rallied together for a 30-32, 33-31, 30-26, 30-27 win.

Co-captains Lacissa Witherspoon and Melissa Roberts both finished the afternoon with double-doubles.

WITHERSPOON ON THE ATTACK.

Witherspoon led all players with 25 kills, adding 15 digs in the process. Roberts chipped in with 16 kills and 16 digs.

Irmina Zamara also put together a double-digit kill performance with 11, hitting at an impressive .308 clip.

Libero Christie Schade led all LU players with 18 digs, while freshman defensive specialist Jordan Crook contributed 11.

Redshirt freshman setter Megan Bedner tallied a career-high 55 assists to lead all players. She added a match-high three service aces, tied for the lead with teammate Zamara.

The first game was one of runs, beginning with a 5-0 start by the host Saints (15-8). The Knights (8-7) would battle back, putting together a string of six unanswered points, capped by a Zamara kill, to even the frame at 9-9.

Intermission between games two and three offered Lynn head coach Lynne Roos and opportunity to light a fire beneath her players, who responded in full. Trading leads early in the third, the Knights cut back on mistakes only to find Flagler do the same.

Flagler would then open things up with a 9-0 run before the Blue and White’s 9-2 stretch pulled within a pair with a Deirdre Knoebeloch kill.

Still in it, the Knights took the lead 30-29 after being down 21-13 earlier with a block by Sydney Taylor and Bedner.

After a time-out by the Saints, the host squad hunkered down to score the next three points and take the game 32-30.

Game two looked to go Flagler’s way early also, running out to a quick 6-0 lead. Lynn would chip away at the Saints lead, pulling within two at 12-10 before their hosts’ 7-1 run created a bit of breathing room.

Unwilling to be the first LU team to ever lose to Flagler’s way early also, running out to a quick 6-0 lead, Lynn would chip away at the Saints lead, pulling within two at 12-10 before their hosts’ 7-1 run created a bit of breathing room.

Unwilling to be the first LU team to ever lose to Flagler, the 2006 Knights slowly crept up on the Saints, capitalizing on a late 6-1 run to tie the game at 29-29.

Forcing another game into extra points, the Knights tied up the match at 1-1 on a block by Taylor and Zamara.

The fourth and final game was very similar to the third, with neither team willing to concede anything. Anytime either team made a push, their opponent responded to keep things close.

Lynn looked to have things in control late with a pair of 6-0 runs to make it 26-19, but the feisty Saints battled back courtesy of a 7-2 run to pull with two at 28-26.

Trading the next two points, Zamara took things into her own hands with an emphatic kill to end the day and the Saints’ hopes.

The Knights next return home to the friendly confines of the de Hoernle Center for a six-match home stand, beginning on Friday against Sunshine State Conference foe Saint Leo.

Question Of The Day

What is your favorite course?

Reported by Alan Rocha

Public Relations, because I like my teacher and it's interesting material.
David Norwood, Senior

Hospitality, I learn many different aspects of how to run a successful restaurant, bar, and business.
Monica Garbarino, Junior

Development Psychology, because my teacher makes the class interesting and fun.
Meredith Stein, Junior

Micro Economics, because it deals today's world wide basic economic activities.
Miguel Michelangeli, Junior

Corporate Finance, because I learned fundamental principle for managing and organization.
Gustavo Cordoba, Junior

Financial Accounting, because my teacher explains the material well and I learned a lot in class.
Ana Gomez, Sophomore

Summer Study Abroad

Spain and South Africa

By Megan McSweeney

Table Mountain
The study tour to Spain with professors Ralph Norcio, John Pickering and Anna Krift was an academic adventure for 36 College of Business and Arts and Sciences students. Krift provided some photos and the itinerary of the trip.

She said, "We also went to the Acerinox, the stainless steel factory in Los Barrios, located in the southern province of Cadiz."

One of the students who went on this trip, Rebecca Colb, also took the whole summer semester to travel to China, New York, and South Africa to better educate herself about the world and what it has to offer.

She talked about Spain, saying: "We went to so many companies like the electric company, a car dealership and a steel company. We also traveled from Madrid to Barcelona and all over Spain. The main point of the trip was to learn about international business, and to learn the culture, by seeing landmarks, temples, cathedrals and the architecture."

Colb said, her favorite part of Spain was, "Madrid. The city was amazing and the culture was so inviting, it was incredible."

The trip to South Africa with professors Shaun Exteen and Charles Barr brought 15 students from the colleges of Education and Hospitality.

Student Hanan Koveus said, "Behind the scenes at the hotel Commodore I got a better understanding of the operations of kitchen management. This trip also offered many other activities such as working with poverty-stricken schools, and we also worked with kids in townships."

Hanan said, "The poverty made you think of how lucky you are. There were no luxuries."

But, he said "the best part was hiking Table Mountain"

The trip also brought them to Cape Point, Men doza Island and around to many townships. Inter estingly Exteen has a house in South Africa the group visited.

Rebecca Colb said, "The education system seemed to be so much more advanced. They respect their culture. They all wore uniforms, even in the poverty-stricken township schools."

She said the change from a 5-star hotel to a hostel was drastic but now she has a better appreciation for the Hospitality major.

Table Mountain

Barcelona, Spain

Turkish Airlines

Plane Hijacked

Turkish Airlines Derailed

By Ashley Duckrey

On Tuesday morning an unarmed man hijacked a Turkish Airlines plane on route to Istanbul, Turkey.

The man identified as Hakan Ekincci, 28, took over the Boeing 737-400 with approximately a hundred and thirteen people aboard.

Ekincci, who is of Turkish descent, wanted the plane to land in Rome, so that he could deliver a note to the Pope.

According to CNN the man slipped into the cockpit when a flight attendant opened the door, Ekincci then handed the pilot a note claiming that he had a message for the Pope, and that other hijackers aboard another unspecified plane "would blow that plane up if the missive didn't get to the Pope."

Turkish officials said Ekincci was an army deserter seeking political asylum, and added that he had high-jacked the plane in protest of the Pope's upcoming visit to Turkey were incorrect.

Ekincci himself wrote to the Pope in August, asking for help in avoiding military duty in his home country.

Also, reports claim that Ekincci feared for his life because he had recently converted from Islam to Christianity.

The Pope's impending visit to Turkey has come under fire in recent days after he was quoted about Islam and Muhammad.

Although the Pope issued an apology, there has still been backlash by the Muslim community.

Despite all the drama surrounding the Pontiff, The Vatican issued a statement saying the trip will go ahead as planned.
After a long awaited arrival, Evanescence has finally released their second album “The Open Door”.

The album is full of attacks toward people who have betrayed the lead singer, Amy Lee. Such as the first single “Call Me When You’re Sober”, a song aimed at her ex-boyfriend Shaun Morgan the lead singer of Seether.

Others include ex-guitarist Ben Moody who left the band in 2003, and the ongoing legal dispute with former manager. “This record is totally inspired by the crazy stuff that’s gone on over the past year or two,” Lee said when talking about the new album.

Amy Lee and new guitarist Terry Balsamo pulled it off with another successful album.

A number of the tracks include a choir, as well as strings that were recorded inside an old chapel. The album explores the dark introspective themes of love, desperation and despair.

The album is quite different from the last one “Fallen.” It is a little more bit grown up.

The tracks are a little bit harder, and when writing with new guitarist Balsamo, Lee says, “He lifts me up as a writer and everything I write a little bit more cooler.”

Although losing guitarist Ben Moody, the band still pulls through with an album that is definitely worth listening to.

---

**SIRIUS Satellite Radio**

Sirus and XM satellite radio are getting bigger and bigger as they offer some really cool gadgets. They are commercial free and encompass comedy, talk, family, news, sports and religious programs.

Sirus has Maxim, NFL football, college and university basketball, NHL and NASCAR.

What more could a someone ask for?

The very best part of both of the satellite radio providers is you never have to fiddle with the dial when you go from state to state. You can travel all over the country listening to the same station.

After going out and listening to the two, Lynn students Maria Roseburg, John Crawford and Brian Fischetti agree that Sirius has better programming, but XM had a greater variety.

The one of the features on some of the satellite receivers is a music memory. There is a rewind and fast forward button so if you here a song and want to here it again you can rewind live radio. This feature stores from 30-44 minutes of live music so you can listen to the song over and over again. It’s like TIVO for your radio.

So what are you waiting for? Go pick one up today!

**Soccer Shocked Women Lose to Eckerd**

Men Lose to Eckerd

By Chad Beattie

Lee Porter going for a header.

The Lynn University men's soccer team was stunned by Eckerd College 2-1 on Wednesday night. Kenneth Viquez scored the lone goal as the Fighting Knights lost to Eckerd for the first time in 16 games. Lynn falls to 9-1 overall and 4-1 in the Sunshine State Conference.

Lynn dominated the first twenty minutes of play, controlling the pace and tempo of the game.

But Eckerd slipped one by the Knights defense on a throw-in. The Tritons throw came from the far corner and sailed into the penalty area. LU's clearance went to an Eckerd player, who turned around and fired a shot to the far corner for the goal.

Just five minutes later Eckerd struck again.

The Blue and White countered with a one-on-one showdown with STU keeper. The Tritons throw came from the far corner and sailed into the penalty area. LU's clearance went to an Eckerd player, who turned around and fired a shot to the far corner for the goal.

The score would stand at 1-0 through halftime.

Lynn put another goal on the board just six minutes into the second half.

Minny DeCarla shocked the Blue and White with a free kick through the Bobcat (2-9) defense, finding Anderson for a one-on-one show down with STU keeper.

Anderson slid the ball past the keeper's left side, rocicheting off the far post and into the net for a 1-0 advantage.

Lynn put another goal on the board thanks to a Bre Heising steal near midfield in Bobcat territory. The freshman took control of an errant St. Thomas pass, streaking towards the goal for another Lu 1v1 opportunity and a cushion goal to the far post.

The score would stand at 2-0 going into halftime.

Heising's goal, her second of the season, turned out to be the game-winner as St. Thomas notched their only goal of the game just six minutes into the second half. Sandra Vargas slipped a pass through the Lynn defenders to a waiting Nora Vartia, who then rocketed a shot past Knights keeper Natalie Feller's outstretched hands for the score.

Feller led all players with five in her second appearance of the season and first career start. All of her saves came in the first half, thanks in part to a multiple long-range low-percentage shots forced by the LU defense.

Lynn's third goal came when freshman Jennifer Perreault connected with senior Ashley Chubb on a corner kick, allowing Chubbs's header to find the back of the net for a 3-0 lead.

The Fighting Knights return home to face Saint Leo University on Saturday, October 7, at 3 p.m.
Aerobics Fitness Class

Staff: Beatriz Lewis, Laura Vava, Alain Roche, DeShauna Minuto, Brian Fisch, Nicole Picko, Samantha Murphy, Whit Tower, Megan McSweeney, Rachel Weiss, Kelley Breitman, Lia Jabot, Ashley Duckrey, Vanessa Ortiz, Christina Cinginer, Chris Dorney.
Faculty Advisor: Myles Ludwig.

Morgan O'Sullivan is a current First Year Experience Teacher at Lynn University. He is originally from Ireland.

O'Sullivan specializes in teaching FYE which stands for First Year Experience for new freshman students and also works in The Student Administrative Services in the Green Center.

O'Sullivan studied his undergraduate and masters in Cork, Ireland and was qualified as a teacher in London.

This is his first year teaching FYE class and he has found the diversity of the Lynn student body which helps him to provide a world wide view on all matters discussed during his classes.

This diversity helps him to teach students on how the world is becoming a much smaller place, especially in this age of technological development.

O'Sullivan has brought his own Irish teaching method skills to Lynn. He states "I have brought my experience from teaching the very youngest at elementary level to the more mature student at university level.

In addition I hope that my experiences teaching in Ireland and England have brought an added dimension to my classroom with a sense of my Irish Culture coming through in my approach."

One benefit that O'Sullivan says about his job is that working in the student administrative services is a good experience for him to see the real world that helps him to provide a clear perception of what students may actually have to do before making it into the classroom.

O'Sullivan also discovers benefits working with other staff members. "Staff members are always supportive and willing to offer advice and share ideas. It is through the sharing of ideas that we will be able to enhance the communication and as a result the teaching experience for all students at Lynn."

In addition, O'Sullivan went on to say that the most challenging aspect of teaching is that "It would be great to have longer class time with the students. Very often you feel that you are only starting and the time is already gone!"

He finds teaching to be rewarding at Lynn because teaching FYE class as a staff member affords him a good opportunity to get to know the student population on another level instead of learning about other issues of registration, accounts and financial aid.

O'Sullivan says that teaching FYE allows him to learn more about students, have the ability to point the student in the right direction and his ability to give advice in times of difficulty is very rewarding for him.

He uses what he has learned from teaching in England to help him understand the needs of Lynn's vast international student body.

The leopard prints are very cute. The plain black with just a bow are also very sweet. These ballet slippers can be worn with jeans or leggings. They are perfect for everyday, and for eveningwear. If you wear them out, you should make sure to dress it up and accessorize!

Another popular shoe that's coming back is the ankle length booties. Chunky heels are back again and all over. Platforms come along with those chunky heels. The higher the better with heels this season. The platform or chunky heels complement the skinny jean, which is huge this season.

Also ankle boots are back in style. Make sure to buy them either below the ankle or right above the ankle. They can even be worn with skirts or leggings.

Shoes can make or break an outfit so it's very important that we pick the right shoe for the right outfit! And women know that we can never have too many shoes!
Restaurant Review

Vinnie's All Day Cafe

By Christina Cuisinier

When looking for a quick healthy place to get a bite, look no further! Vinnie's all day cafe is located in regency court off of Yamato and Jog.

Vinnie's is a perfect stop to get a taste to sit down or to go! Vinnie's opens at 7:00 am and closes 7:00 pm Monday through Friday, Saturday and Sunday 7:00 am until 4:00 pm.

Starting with breakfast, I would recommend the egg sandwich. This is a toasted bagel with a fried egg, cheese, and bacon all for the low price of $2.95. They brew all different types of coffee. Including lattes, mochas and iced coffees!

For lunch and dinner they offer an assortment of salads, sandwiches and wraps. They have a huge create your own salad. In this create your own you can choose your lettuce, your protein, and any vegetables you can imagine! The protein consists of chicken, tuna,ahi tuna, and shrimp.

After making your salad, they will chop it to a perfection of what you want.

They also have an assortment of different types of specialties sandwiches, with all kinds of bread to choose from. I recommend the turkey club on focaccia bread! If you want something light a scoop of tuna with crackers is a perfect snack. Vinnie's has the best tuna I've ever personally tasted.

When you're done with your meal, in the back there is an assortment of yogurts and ice cream. If you want to stay on the healthier side opt for a frozen coffee blend.

Vinnie's is a great find with amazing food! Once you try it I promise you won't be able to resist it! I warn you its addictive!!

When you're done with your meal, in the back there is an assortment of yogurts and ice cream. If you want to stay on the healthier side opt for a frozen coffee blend.

Vinnie's is a great find with amazing food! Once you try it I promise you won't be able to resist it! I warn you its addictive!!

The Killers

CD Review

By Nicole Piccolo

Moustache and beard wearing cowboys is the new look. The Killers are sporting.

With the release of the new album "Sam's Town", the group decided to go for a completely new look.

The name "Sam's Town" comes from place about five miles off the strip in Las Vegas, popular with the locals.

With the reinvented look and sound this album is sure to go platinum.

The first album went for a new wave retro sound, for the second time they switched it up throwing in hints of vintage Springsteen, parts of Bowie, and a little bit of vintage Queen.

The Killers are an awesome indie band, and this album will definitely surprise fans in a good way.

Still singing around with the 1980 new wave, but now incorporating more of the sound, mainly the heavy use of synthesizers that were thrown into the mix.

This is due to producers Flood and Alan Moulder who worked on the album helping make the tracks brighter and edgier.

The music may be bumpy, the influences are definitely heavier; the lyrics are more adventurous than off the last album "Hot Fuss", and the band is more self assured.

With the turn around of the band this album is a must listen to. Out in stores, pick up a copy and check it out.

Men's Golf Without Touching Distance

Golf Team Lies Alone in Second Place

By Keir McNicoll

After the first 36 holes of the Nova Southeastern University Fall Invitational, the Lynn University men's golf team lies alone in second place, only five shots behind fellow Sunshine State Conference member Eckerd College.

The Knights find themselves at the top end of the leader board in a tournament that includes five of the top seven teams in NCAA Division II.

"We've got a great chance tomorrow," said head coach Chris Greenwood.

"A lot of the higher ranked teams have been blown away in the strong South Florida wind and has left us in a great position to win this golf tournament, which will hopefully set us as a kick-start to our season."

On a tough day for scoring at the wind ravaged Heig Course at the famed PGA National Resort, Palm Beach Gardens, Fla., native Greg Gonzales put his local course knowledge to good use as he led the team with 75 and 73 for a 148 total.

The Fighting Knights tee it up again tomorrow for the final 18 holes in a bid to win their first tournament of the fall season.

Women Lead

Women's Golf Three Stroke Lead

By Chad Heintzy

The second-ranked Lynn University women's golf team opened the NSU Fall Invitational with a three stroke lead heading into the final round of the 17 team tournament.

McNicoll and Bradt took different paths towards identical first round scores of 74.

McNicoll needed nine holes to warm up before shooting a 35 on the back nine and Bradt came out scrambling with a 35 on the front nine before cooling on the back side.

Morgan is tied for sixth and just two strokes back of the two leaders. Mahal Haddou and Megan Magone are tied for 11th.

Lynn shot a team-low score of 302 at the PGA National Resort & Spa and heads into the final day of competition with a slight nod over top-ranked Florida Southern (305).

Host Nova Southeastern is in second (309) while no.3 Barry University (310) and four-time defending national champions Rollins College are tied for fourth.

On Tuesday, the women will tee off at 8:30 a.m. and play 18 holes, to be followed by the tournament awards ceremony.

Question Of The Day
Are you a different person than you were five years ago?
By Beatrix Lewis

Yes, I’m more mature, independent, and open-minded, and I have more friends.
Christine Thibeau, Junior

Yes, I developed a sense of humor. I also changed my taste.
Katie Stockness, Junior

“Yes, I have a different outlook on life. I’m more mature, responsible and realistic.”
Rachel Weiss, Senior

“Yes, I was more shy and closed minded.”
Jessica Gluck, Junior

“Yes, I’m more laid back.”
James Smith, Junior

“At 17 I thought I had it all figured out, and now I don’t.”
Vanessa Ott, Junior

Campus Dorm Rooms Burglarized

Safety and Security Issues on Campus
By Rachel Weiss

You’re asleep when a strange man creeps into your room...Doesn’t seem likely? That’s exactly what happened to two dorm rooms in the early morning hours on September 17th.

Lynn University is a campus of wealth, privilege, and prestige. It is hard to believe that criminals lurk in even the most secure of settings. The fact is they do, and precautions should always be taken.

The administration understands the growing need to ensure security in today’s society.

The school will be increasing the amount of cameras, as well as security rounds the guards go on. There will be sporadic door checks, in which a note will be left for you on the door if it was left unlocked while empty.

Within a month there will be blue light polls with emergency call boxes located around campus.

As for this year, they have already created an additional second shuttle for late night students around campus.

On September 16th, a student brought an old high school friend onto campus.

According to records at the Boca Raton Police District in the early morning hours of September 17th, a man crept into two different female dorm rooms.

This man was a friend of a student. The student, for matters that will not be mentioned, has been asked to leave the university and is facing charges of felony Grand Theft.

Due to this student’s mistake of bringing a person of questionable character onto campus, a collaborated value, estimated to be thousands of dollars were stolen in that one night he was there.

Unaware, vulnerable, and defenseless, these girls were put into a situation that could have gone beyond theft, and all because they had left their doors unlocked.

Do not let this happen to you; being safe can make all the difference.

What is Bluetooth?
Today's New Technology
By Kevin Mielec

Most people have heard of Bluetooth technology, but what is it really?

There are many electronic devices that can connect to each other; most common are electrical cables, Ethernet cables, WiFi, and infrared signals.

As time continues inevitably technology will advance. In this day and age electronic devices are straying away from the restrictions of wires, to the freedom of wireless communication.

The most current step in that direction is Bluetooth communication technology.

Computers, entertainment systems and mobile phones are some of the devices that make up this electronic community.

These electronic communities use a variety of wires, cables, radio signals and infrared light beams. Connecting these communities is becoming more complex every year.

A Bluetooth connection is wireless and automatic, which has interesting features that can simplify our lives.

One current problem is when any two devices need to talk to each other they have to agree on a number of comparable points before any information is exchanged.

Bluetooth takes small-area networking to the next level by removing wires and by keeping transmission power low. Taking advantage of radio-frequency bands, like in baby monitors, and cordless phones.

An example of Bluetooth is in your cell phone and your car. You have a conversation with someone from work on your cell phone and then jump in your car and drive home, if someone calls your cell phone, because both car and cell phone are have Bluetooth, your car will automatically pick up your cell phone signal and transfer the cell phone call to the speakers in your car.

Once you enter your car, the Bluetooth signal from your cell phone transfers to your car thus saving you from driving around fumbling and holding on to your cell phone plus saving your cell phone battery.

Now that you have arrived home, walking to your door the home Bluetooth signal picks up your cell phone and transfers any calls to your cell phone to your home phone.

This is just a small example of what Bluetooth technology can do for you. Why is it called Bluetooth?

Herald Bluetooth was king of Denmark in the late 900s. He managed to unite Denmark and part of Norway into a single kingdom.

Choosing this name for the standard indicates how important companies from the Nordic region are to the communications industry, even if it says little about the way the technology works.

Volleyball Returns To Winning Pair of Victories Over Flagler College and Northwood
By Jeffrey Mesman

With a pair of victories over Flagler College and Northwood University, the Lynn University volleyball team returned to their winning ways and an above .500 record.

The Knights took down Flagler 3-1 in the opening of a tri-match at the de Hoernle Center before easily dispatching the Seahawks 3-0 in the third match.

Senior outside hitter Melissa Roberts led the Knights (11-10) with 33 kills and 34 digs on the evening. She notched a double-double against the Saints with 17 kills and a career-high 26 digs while adding a match-high 16 kills with eight digs against Northwood.

Also contributing to the Knights offensive success were fellow senior Larissa Witherspoon and junior Inмира Zamara.

Defensively, sophomore libero Christie Schade put together solid performances with matches of 16 and 17 digs.

She also nearly tied the three-game match record for service aces with five against Northwood.

The Knights opened the first match against Flagler with a 30-23 victory.

Lynn put a comfortable distance between themselves and the Saints with a 7-0 run to make it a 12-5 contest and hold off Flagler runs the rest of the way.

Game two against the Saints was a back-and-forth affair early, trading leads and ties until the Knights took a 25-24 lead on their third 3-0 run of the game.

Flagler kept close but never regained the lead or forced a tie as Lynn won 30-27.

Golf Victory Team Defeats Florida Southern
By Chad Bostic

Showing they belong in the same breath as the nation's best, the second-ranked Lynn University women's golf team defeated top-ranked Florida Southern in a playoff to capture the Nova Southeastern Fall Invitational.

The Knights finished ahead of the top-10 teams in the country and Katy McNicoll won her first career tournament.

"This was a fantastic day for our team," said head coach Courtney Bibby, whose team has won two of the three tournaments it has participated in.

McNicoll led a contingent of four Knights in the top-10. The sophomore from Carousie, Scotland shot a second round 75 for a 36-hole career-low 149 to close out medalist honors.

Elise Brandt finished sixth individually with a 152 two-day total, also a 36-hole career-best. Lynn nearly blew its three stroke lead over Florida Southern, but defeated the Moccasins in a one-hole playoff.

Lynn (607) nearly blew its three stroke lead over Florida Southern (607), but defeated the Moccasins in a one-hole playoff.

The Knights and Moccasins finished 11 shots ahead of four-time defending national champions Rollins College.

The Blue and White return to action Monday, October 30 at the SLU Fall Preview.
Family Weekend Schedule
Events to Keep You Busy Throughout the Weekend

Friday, October 20

Weekend Registration
Where: Lobby, de Hoernle International Center
When: 8 am-2 pm

Open Reception for Model United Nations
Who: Keynote speaker, former Ambassador to Panama
Name: H. Mos Jr.
What: "Diplomacy Then and Now: Meeting the UN Millennium Goals"
Where: Green Center
When: 8:30 am-9:30 am

Model United Nations - In Session Debates
Where: Green Center
When: 9:30-noon & 1 pm-4 pm

Model United Nations - Closing
Where: Green Center
When: 4 pm-5 pm
Conservatory Students Music Showcase
Where: Amarnick-Goldstein Concert Hall, de Hoernle International Center
When: 11 am-12:15 pm

A Taste of Florida Festival
What: Hosted by students from our Hospitality Club, lunch will feature dishes from a traditional Florida menu.
Where: Lynn Student Center Cafeteria & Lakeside Patio
When: 11:15 am-1:15 pm

Campus Tours
Where: Lobby, de Hoernle International Center
When: 11:30 am-1 pm

Home Away from Home (Parents Only)
What: Student Services Panel Discussion and Q & A
Where: Amarnick-Goldstein Concert Hall
When: 1:30 pm-2:30 pm

Saturday, October 21

Weekend Registration
Where: Lobby, de Hoernle International Center
When: 8 am-10 am

Coffee with the President
Who: Lynn University President
Name: Kevin M. Ross
Where: Green Center
When: 9 am-10 am

This year's Family Weekend was bound to be a hit, since last year's was drastically postponed by the will of mother nature.

This time around, however, nothing stood in the way of Lynn hosting a great weekend of fun-filled and educational activities.

Over 500 parents and students participated in everything from the Model United Nations and A Taste of Florida, to the men's and women's soccer games and picnic/parade.

Last Friday Lynn turned the Green Center into a conference room to allow students to conduct their own Model UN. This was the second annual event, and already the amount of participation this year has almost doubled.

With events all over campus the whole weekend long, Family Weekend was a huge success.
Family Weekend Wrap-up
What Happened On Campus This Weekend
By Samantha Murphy, Christina Ciesielski, and Beatriz Lewis

Families gathered in the cafeteria for “A Taste of Florida.”

A Taste of Florida: At this event there were lots of tables and chairs set up under tents for students and their families to sit back, relax, and enjoy some great food. There were grills set up to cook some barbecue delights, and also some smaller tables with other goodies to munch on, like cakes and cookies. Most of the lunch offered inside was normal to our everyday cafeteria offerings, however parents were everywhere! Around noon, the cafeteria was bustling with students and their families from all over.

Items at the Blue and White Club auction.

Live Auction: On Friday parents, students and faculty attended the 8th annual Blue and White club auction. Some of the prizes in the silent auction were Heat tickets, two nights stay at Palm Beach Marriott, and a two-day cruise event to the Bahamas. The list continued with more great prizes. Some of the live auction items included were a trip to Las Vegas, lunch with the president, Kevin M. Ross, diamond earrings, and my personal favorite a reserved parking spot for a student on campus! The event was super entertaining all evening. The profits from this event benefited different Lynn athletic teams. This was definitely a very exciting event this weekend that everyone got to enjoy.

Men Win
Conference Champions
By Chad Beattie

A Jean Alexander goal in double-overtime gave the Lynn University men’s soccer team a 1-0 victory against Rollins College and made them the 2006 Sunshine State Conference Regular Season Champions.

The Knights will now be the no. 1 seed at the SSC Tournament, which they will host on Friday, October 27 and Sunday, October 29.

Men's soccer wins its fourth regular season title becoming the fourth school in conference history with four titles. Lynn now has 20 conference titles in school history for all sports.

"This was an outstanding match played between to outstanding teams," said head coach Shaun Pendleton.

"The coaching staff is extremely proud of this team after all the hurdles they have had to overcome. I thought we may have ended it earlier in the game but Jean scored on a fantastic goal. We made some necessary defensive adjustments after the first half and it appeared to work out ok for us. I tell you it's going to be very nice to have the conference tournament here on our home field.

"The Blue and White played the part of Dr. Jeckyll and Mr. Hyde, getting an outshot 6-3 in the first half before roaring back for an 8-3 shot differential in the second half. Rollins was held without a goal or point for just the fourth time this year.

Lynn finally caught its lucky break in the 62nd minute. Vanessa Zalis set up for a free kick at the far side of the field, just inside the Tars territory, while the Knights attackers moved to just above the center of the 18-yard box. The sophomore defender locked high into the air where Lindsay Taylor and Summer Mchombe each fought for the 50/50 ball. Tars keeper Stephanie Woelfel charged out of net but Taylor inadvertently headed the ball back into her own net for the goal.

Rollins (10-4-3, 3-2-3) could not mount an offensive attack in the waning moments. The defensive front of Courtney O'Connell, Alyssa Rijavec, Breanna Heising, Megan Walsh and Zalis frustrated the Tars at every turn and allowed just one shot over the final 15 minutes.

Knights' keeper Jennifer Shropshire made the save of the day, running off her line and making a diving save on a G nibble shot to the far post, preserving her fourth shutout of the season.

If Saint Leo ties or defeats Barry on Saturday, then Lynn University would travel to play Nova Southeastern on Tuesday, October 24 in the first round of the conference tournament.

Knights' Hopes Alive

Women's Soccer Still in Running
By Chad Beattie

The women's soccer team reversed their bad fortunes with a 1-0 victory over 23rd-ranked Rollins College Friday afternoon. The win keeps the Knights playoff aspirations alive as they need Saint Leo to win or tie Barry to earn a birth in the Sunshine State Conference Tournament. Lynn improves to 7-8-1 overall and 3-5 in the SSC.

"We played very tough today and I'm extremely proud of our effort," said head coach Rocky Orezzoli. "I thought our second half was probably one of our better halves of the year. Although our goal came on an own goal, we had multiple scoring chances. Now our post-season fate lies in the hands of another team."

The Blue and White played the part of Dr. Jeckyll and Mr. Hyde, getting an outshot 6-3 in the first half before roaring back for an 8-3 shot differential in the second half. Rollins was held without a goal or point for just the fourth time this year.

Lynn finally caught its lucky break in the 62nd minute. Vanessa Zalis set up for a free kick at the far side of the field, just inside the Tars territory, while the Knights attackers moved to just above the center of the 18-yard box. The sophomore defender locked high into the air where Lindsay Taylor and Summer Mchombe each fought for the 50/50 ball. Tars keeper Stephanie Woelfel charged out of net but Taylor inadvertently headed the ball back into her own net for the goal.

Rollins (10-4-3, 3-2-3) could not mount an offensive attack in the waning moments. The defensive front of Courtney O'Connell, Alyssa Rijavec, Breanna Heising, Megan Walsh and Zalis frustrated the Tars at every turn and allowed just one shot over the final 15 minutes.

Knights' keeper Jennifer Shropshire made the save of the day, running off her line and making a diving save on a Gibble shot to the far post, preserving her fourth shutout of the season.

If Saint Leo ties or defeats Barry on Saturday, then Lynn University would travel to play Nova Southeastern on Tuesday, October 24 in the first round of the conference tournament.

Girls & Sports

A Comic By Justin Borus and Andrew Feinstein

Finalists Swan, Guimaranes, and Mansurov.

On Saturday there were twenty-three candidates that were competing to become the finalists to be a part of the Lynn Philharmonic Orchestra. On Sunday eight finalists performed in the Amatruck Goldstein Concert Hall. The winners of the competition were Piera Alves Guimaranes, Valentina Mansurov, and Charles Swan. Each person had a lot of talent and was very devoted to their music. One could tell that the finalists were very driven and had practiced a lot. Each finalist was competing for the same title and wanted to make that one first impression unforgettable. Congratulations to all who participated!
Calendar
On Campus Today
Internship Orientation
When: 12:00 pm - 1:30 pm
Where: DeHoemle Lecture Hall
What: The internship orientation is mandatory for all Lynn University students wishing to do an internship. Apply your skills in a for-credit internship. This workshop will help you through the process of securing an internship, getting registered, and succeeding at the work site.

Majors Fair: What Can You Do with a Major?
When: 5:30 pm - 12:00 am
Where: AG Concert Hall
What: Panelists (alumni, interns, and employers) will describe career options and personal success stories for each LUs academic major. Learn how you can apply your major in a career field to make your dreams come true. Faculty will provide information on the requirements of the academic programs within each major.

Kat Connolly "Ronnie-Jordan"
Where: Knights' Court
When: 7:00 pm - 12:00 am
What: This hilarious comedian comes to Lynn as part of a nationwide tour and will have you laughing from start to finish. For more information, stop by the Information Station in the Student Center lobby.

Question Of The Day
What's your opinion on Hilary Clinton running for President?
By Beatriz Lewis

"I absolutely love it. She's intelligent." 
Liliana Lee, Senior

"I think she'd do great."
Mark Sanger, Freshmen

"I don't think it would be a great idea because of her husband's scandal."
Jessica Covert, Freshmen

"There hasn't been a woman president yet. I'd love to see that."
Nicole Levy, Junior

"It's good that a woman is finally stepping out."
Jana Fessas, Freshmen

New Addition
Madonna Adopts Malawian Boy
By Ashley Duckrey

Madonna and husband Guy Ritchie made it official last Thursday that yes in fact they had adopted a one year old boy from an orphanage in Malawi, Africa. The boy known as Baby David had been living in the Home of Hope Orphanage after his mother died one week after giving birth to him. The couple had been looking to expand their brood for quite some time because Madonna had stated that she felt "it's not fair that a child is born and that's the end."

This adoption has come under fire in recent days because human rights groups believe that Madonna was given preferential treatment in making along the somewhat slow process. Malawi laws say prospective parents must stay with the child for 18-24 months while they are monitored and assessed by child welfare officers before the adoption can become final.

Madonna's publicist, Liz Rosenberg, said the couple had been granted temporary custody of the child for 18 months, and will be evaluated by the courts of Malawi per the tribal customs of the country, albeit in England.

The child's father who legally signed off on the adoption blasted the human rights groups giving Madonna a problem saying, "Where were these people when David was struggling in the orphanage? Those so-called human rights groups should leave my baby alone."

Madonna thanked the public for all the well wishes and prayers that had been sent her way and asked that her family be given room and privacy "to experience the joy we feel to have David home."

Breast Cancer Awareness Month
What You Need to Know About Cancer
By Alain Roche

What should everyone's favorite color be for this month? Well, that's easy - Pink! Not just because it is a bold, pretty color, but because the color pink represents Breast Cancer Awareness and October is to National Breast Cancer Awareness Month. If you are someone who has had breast cancer, or know someone who has then keep reading because this article will let you know what you can do to possibly help prevent the disease or to get involved in helping women conquer this disease!

For almost twenty years National Breast Cancer Awareness Month has helped educate millions of women about breast cancer issues and the importance of early detection. Not only does the organization increase awareness of this disease, the NBCAM also offers free mammography for women who are not able to pay for this critical detection procedure.

Breast Cancer Awareness Month is not only to highlight just how serious this disease is but also to raise funds for breast cancer research. The public needs to understand that the money we can raise the closer we come to finding a cure. Unfortunately, breast cancer is currently the second leading cause of death among American women, which is why we all must do everything we can to fight the disease!

Research shows that age and certain genetic factors may increase the risk of breast cancer. Scientists are also exploring how different diets and hormonal factors might be linked to possible causes - even women at younger ages should start becoming more aware of these possible risk factors and start making healthier choices in their lives.

Most women over the age of 17-23 are less likely to have suffered from this disease; however more and more women are getting diagnosed. During this month, we try to encourage every woman to get a screening mammography, a clinical breast examination, and learn how to administer a breast-self examination. Remember - you are never too young to get this disease, so don't waste time; make an appointment to get checked.

One of the main objectives of National Breast Cancer Awareness Month is not only to highlight just how serious this disease is but also to raise funds for breast cancer research. The public needs to understand that the more money we can raise the closer we come to finding a cure. Unfortunately, breast cancer is currently the second leading cause of death among American women, which is why we all must do everything we can to fight the disease!

Donations can be made on the NBCAM website (www.nbcam.org). The money raised through this month's events will benefit breast cancer research and other organizations that help women cope with breast cancer. We are all in this together!"
O'Reilly said, "all one's life."

She was found guilty for smuggling messages of lethal potential. In 1993, Abdel-Rahman killed several in an attack on the World Trade Center.

When Stewart was given her sentence of less than two and a half years, she smiled. She had faced thirty years, but was diagnosed with cancer at the age of sixty seven.

A civil defense lawyer said that if you were to send her to prison she would die, making this a sentence of compassion.

Granted, Stewart was not an accomplice in the 1993 Twin Towers bombing, but clearly hates her country and is a danger to the United States.

During a televised interview, Fox News' Bill O'Reilly said that he was compassionate to Stewart's recent diagnosis of breast cancer, but would have given her five years.

O'Reilly said, "the judge went easy on her." According to a CNN.com article, further reasons for the light punishment was due to Stewart's, "dedication to helping the poor and disadvantaged and for her public service to the nation."

When Stewart was questioned about her feelings on the sentence outside of the courthouse, she told reporters she thought the sentence was, "A victory, for doing good work all one's life. You get time off for good behavior usually at the end of your prison term. I got it at the beginning."

### Ugly Betty

**TV Show Review**

By Samantha Murphy

Have you ever heard of a TV show called "Yo Soy Betty La Fea?" Probably not, since it's a Colombian telenovela.

However, you may have heard of "Ugly Betty," a great new show on ABC, in which is based on that telenovela.

"Ugly Betty" is about a high-paced fashion magazine called "Woode." The publishing mogul Bradford Meade (Alan Dale, "The O.C.") decided to hand over the reins to his son, Daniel (Eric Mabius, "The L Word"), who has had a reputation of being a player.

Due to those circumstances, Bradford immediately hired the show's star, Betty Suarez (Anerica Ferrera, "The Sisterhood of the Traveling Pants"): the intelligent, sweet, yet clueless and bizarrely unfashionable young woman to be Daniel's assistant.

Even though Betty doesn't seem the type for the job, Bradford knows Daniel will get his work done, since Betty may be the only woman in NYC that he wouldn't sleep with.

Together, Betty and Daniel become a team, with no plans to be brought down. Up against them is "diva fashionista" Wilhelmina Slater, and her assistant, Marc, who are trying to sabotage the power-duo at all costs.

Slater thought she deserved to get the publishing title handed to her, instead of Daniel, which is why she is on a mission to make Betty fail. Betty's life isn't all dominating and successful.

Back at home, Betty's father, Ignacio, and sister Hilda aren't exactly encouraging her success. Yet Betty won't let that bring her down; she's a powerhouse of hope and courage, and nothing will stand in her way.

If you are looking for a funny, heart-warming new show, tune into "Ugly Betty" on ABC every Thursday at 8pm.

**Soccer Sweeps SSC Honors Again**

Men's Soccer Grabs Fourth SSC Title

By Chad Beattie

Adding to the celebration of their fourth regular season Sunshine State Conference Title, Lynn University's men's soccer players Jean Alexandre and Courtney Rimmer swept SSC player of the week honors.

Alexandre scored the game-winning goal against Rollins while Rimmer held the conference's leading goal scorer and point leader scoreless.

Lynn has tied a program record with seven SSC player of the week awards and has swept the honors twice in a season for the first time since 2003.

Alexandre (Delray Beach, Fla.) picked the perfect time to score his first game-winning goal of the year. The sophomore midfielder scored from 20-yards out in the 107th minute to give Lynn a 2-1 victory against no. 21 Rollins.

The victory secured a no. 1 seed for the Fighting Knights in the SSC Tournament, of which they have won two of the last three years. The 2003 tournament was cancelled due to Hurricane Wilma.

Rimmer spear-headed a defense which held Rollins to just one goal. Heading into the match, Rollins ranked first in the SSC and third in NCAA Division II in scoring offense. Chris Cerutti (13 goals, 33 points) was held to two shots while Marc Johnson (12 assists) did not attempt a shot on net.

It marked just the second time this season neither one was able to record a point. The Preston, England native has been tough on all opponents this season and is a leader on a defense that has allowed just eight goals in 15 games (0.53 goals against average).

Lynn receives a first-round bye and will begin play in the SSC Tournament on Friday.

**SSC Award Player of the Week**

By Chad Beattie

Women's soccer player Courtney O'Connell was named SSC Co-Defensive Player of the Week three days after she helped the Knights defense shut out Rollins College and secure a bid into the conference tournament.

O'Connell is the first defender in program history and to earn player of the week honors.

O'Connell has excelled as the leader of the Knights defense. A walk-on midfielder in 2005, she has helped Lynn double the amount of shutouts from the previous year. Against Rollins, O'Connell held the team's leading goal scorer and point leader, to zero points for just the fourth time this season. The victory, coupled with a Barry loss, helped give the Blue and White their third SSC Tournament berth in four years.

**SST Play**

Volleyball has Busy Schedule

By Jeffrey Messman

With the 2007 volleyball season drawing to a close, Lynn closes out the away portion of their Sunshine State Conference schedule this weekend. The Knights travel to Eckerd College and Rollins College on Saturday and Sunday, respectively, but first host nationally ranked #10 Florida Gulf Coast on Tuesday.

Also anticipated is a pair of milestones for two current Knights. Senior outside hitter Larissa Witherspoon needs just 14 digs for 1,000 in her career. The mark would also make her Lynn's only 1,000/1,000 player in school history. Witherspoon notched her 1,000th career kill on Oct. 8th, at home against Rollins.

Redshirt freshman setter Megan Bedner is also set for a season and career milestone as she needs a mere 13 assists for 1,000. She is already fifth on the all-time career list with 987 assists and would become just the fourth LU player to amass over 1,000 in a single season.

**Girls & Sports**

A Comic By Justin Bonus and Andrew Feinstein
Enterprise Among Top Five Places to Launch a Career
Businessweek Magazine Names Company One of Best Places College Grads can go to Launch a Career
By Lisa Martini

Enterprise
rent-a-car

Enterprise Rent-A-Car, North America's largest rental car company, has again been listed as one of the best places college graduates and young professionals can turn to for a promising career.

The company recently earned the No. 5 spot on BusinessWeek's inaugural list of "Best Places to Launch a Career."

BusinessWeek used three sources of data - a survey of career services directors, a survey of employers, and a student survey conducted by Universum Communications, a market-research firm based in Philadelphia - to develop its rankings.

"It's a great honor to be on the BusinessWeek list and we thank everyone involved for supporting our business and employees," said Marie Artim, assistant vice president, recruiting at Enterprise.

"We especially appreciate the fact that career services directors surveyed ranked Enterprise as the No. 1 employer for entry-level workers."

Enterprise, which hires about 7,000 college graduates a year, has a well-developed management training program that teaches employees how to run their own businesses.

In fact, nearly 100 percent of Enterprise's current senior management - including the president and CEO - started as management trainees, learning the ins and outs of the business.

At Lynn University, Enterprise hires about 4 students each year, and there are 10 alumni currently working in the Enterprise family.

"Lynn University has been a great place for Enterprise to find employees who want to learn to run a business from the ground up," Erin Sylvester, local recruiter for Enterprise said. "We're a company that believes in training and developing employees to become the future of our business."

The company's management training program enables employees who work in the rental car offices to learn how to manage profit and loss statements, control expenses and implement a comprehensive business plan - a sort of MBA crash course.

Within nine to 12 months, managers in training are typically eligible for promotion and get the opportunity to run part of the rental branch business as if it were their own, including sharing in the profits they help create.

"At Enterprise, we instill a fun, exciting atmosphere, where employees are in charge of their careers and set their own pace for career growth," Artim said. "Because we strongly encourage a promote-from-within philosophy, as individuals learn, they move rapidly into branch management positions and beyond, typically becoming branch managers within two to three years."

Other recent recognition for Enterprise includes being named the No. 1 entry-level employer by CollegeGrad.com, being featured in the 2007 Princeton Review book as a best company for entry-level jobs, and the No. 1 spot on Diversity's list of "Top 30 National Firms Most Effective at Diversity Recruiting."

For students looking for an internship, Enterprise offers spots for more than 1,500 interns a year. Fortune.com named Enterprise one of the "Five Best Internships for Real Work" during the summer of 2006.

Interns at Enterprise are involved in all aspects of running the business and are given the responsibilities of a full-time employee.

For more information about Enterprise or its management training program, students should contact their career center or go to www.enterprise.com/careers.

Enterprise Rent-A-Car operates more than 850,000 rental and fleet service vehicles worldwide and has annual revenues of more than $9 billion. Last year, Enterprise opened more than 400 new locations, increasing its total locations to nearly 7,000. The company operates more than 900 offices in Canada, United Kingdom, Germany and Ireland.

Enterprise is currently number 16 on the Forbes '500 Largest Private Companies in America' list. For more information about Enterprise visit www.enterprise.com.
In the late 1700s, Marie Antoinette, a sweet, naive Austrian­born girl, gets dispatched by her family to marry the future king of France, Louis XVI.

The palace is full of conspiracy and scandal and she is expected to accomplish her duty as queen to produce an heir so he can stabilize their political status.

This is a hard task because her husband is completely clueless when it comes to romance. He’s not affectionate towards her and people start spreading rumors about her. Antoinette is under a lot of pressure and decides to forget her duties on the throne.

While the palace in Versailles is glamorous and extravagant, Antoinette struggles to fit in with the customs and the foreign court.

She rebels by excessive shopping sprees, throwing wild parties and hooking up with a hunky war hero.

As time goes by, Antoinette makes the nation go in debt and disappoints the townspople. During this time she has two children, Marie Therese and Louis XVII.

When she finally starts getting excited to run the throne, the people couldn’t deal with it anymore.

One night they marched up to the palace with torches and started chanting “Kill the Queen!”

With all the harsh gossip going around the angry peasants don’t want her on the throne anymore and she gets kicked out of Versailles.

If you want to live like a princess and party, then you’ll enjoy this movie!
Dear Lynn University community,

A terrible tragedy has occurred. Early Saturday morning, two of our alumni lost their lives, and a former student was injured, when a driver hit their car at the intersection of Palmetto Park Road and Interstate 95. Jessica Boxman and Vanessa Wolff, who both received their undergraduate degrees in 2005, were killed. Jessica was also enrolled in the MBA program. Alumnus Paula Coccia, '06, Old Forge, Penn. and Master of Business Administration student Leila Storey of Boca Raton survived the accident. Paula, who was visiting for the weekend, was seriously injured and is in the trauma unit of Delray Medical Center. Leila, who is the daughter of Valerie Storey, assistant professor in the Donald E. and Helen L. Ross College of Education, is in Boca Raton Community Hospital.

Vanessa was from Metairie, Louisiana. She was engaged to Ross Lum senden, another Lynn University alumni whom many in the university community know as a star soccer player and former graduate assistant in the Office of University Administration. Funeral services for Vanessa will be Friday, Oct. 27 at 2 p.m. at Lake Lawn Cemetery in Metairie, Louisiana. Friends of the family are welcome to attend. For specific information, please contact the funeral home at 504-486-6331. In lieu of flowers, the family has asked that donations be made to Mothers Against Drunk Driving (MADD).

Jessica was from Westfield, NJ. A Mass of Christian Burial will be at 10 a.m. on Friday at Holy Trinity Church, Westfield, New Jersey. The entombment will be at Gate of Heaven Cemetery, East Hanover, New Jersey.

The university is planning a memorial service honoring Jessica and Vanessa on Thursday, Nov. 2 at 7 p.m. in the Henke Room in the DeHoerne International Center. Counseling Center staff is available to all students Monday through Thursday from 8 a.m. to 8 p.m. and Fridays from 8 a.m. to 5 p.m.

Expressions of sympathy can be sent to the Wolff family and Ross Lum senden at:

Mr. and Mrs. Bennett Wolff
2204 Metairie Court
Metairie, LA 70001

It is especially during difficult times like this that the Lynn community's uncommon ability to support and care for each other emerges. As we mourn these unspeakable losses, we draw strength from the memories of Jessica and Vanessa, and we are able to surround their families with love. The university remains physically and emotionally near Leila and Paula as they face many challenges on the road to recovery. Most of all, we recognize that each day truly is a gift, and that we must appreciate every opportunity to say the kind word, listen when someone needs a friend, reach out to a person who is alone, and tell our friends and family how precious they are to us.

Please keep Vanessa, Jessica, Leila and Paula and their families in your thoughts and prayers.

Sincerely,

Kevin M. Ross
President
Mark's at the Park
Restaurant Review
By Megan McSweeney

Looking for a classy dinner spot? Take a look at Mizner Park. Mark's at the Park is located in the heart of downtown Boca Raton, and is a great place. You can eat inside or outside and enjoy the great atmosphere.

Mark's is open Monday thru Saturday 11am - 11pm, and Sunday 11am-9pm, with a great brunch offering traditional brunch. The cost is $24.00 for the entire buffet plus additional menu items.

For their main dinner menu, they offer various appetizers, salads, pizzas, and entrees. Some popular items include: Jumbo Gulf Shrimp "Saga-naki" with tomato, Kalamata olives, lemon, capers, and feta cheese, for $16. My favorite salad is the baby iceberg "wedge" salad with crumbled Maytag blue cheese dressing, apple wood bacon, and roma tomatoes, $9.

A popular choice are the wood oven flat bread, Margherita with tomato sauce, fresh mozzarella and chiaffnona basil costing $11.

The menu changes every day, offering many new chef favorites. Everything is made fresh from the kitchen.

The Atmosphere is an upscale restaurant with seating outside or inside, both are favored. The employees are very eager to offer specials and their personal recommendations for those of you who are indecisive.

So, if you are thinking of a great place to enjoy a delicious meal for your money, go and take pleasure in a nice dinner or lunch at Mark's at the Park, in Mizner Park.

The Omen
Movie Review
By Beatriz Lewis

The movie begins in Rome, where young diplomat, Robert Thorne, discovers that his wife, Katherine, has just lost her baby giving birth.

Father Spiletto, the Priest, tells Robert of an abandoned child in the hospital. Robert agrees to take the abandoned son as his own without telling his wife of his loss.

After an "accident" takes place, Robert is promoted to the job of US Ambassador of England. He and Katherine live a relatively normal life, until five years later. As their son, Damien, approaches his sixth birthday, the family witnesses a series of strange occurrences.

Their nanny commits suicide at Damien's birthday party, a field trip to the zoo ends up in a panicked frenzy, and when they are driving to church, Damien starts freaking out.

The nanny's replacement, Mrs. Baylock, seems to have a strong devotion towards Damien. Damien all but ignores Katherine, who assumes at first that it is because of her failure as a mother.

Soon, however, Thorn starts to realize that Damien isn't an ordinary boy, but is in fact the devil. Robert tries in vain to keep Damien under control and his wife as far away as possible from finding out.

Thorne gets help of a photographer who has discovered a disturbing pattern in the photographs of his subjects.

Rent the movie and get ready to scare the socks off your feet! If you're looking for a Halloween movie, look no further!

Women Fall To NSU
Soccer Defeated in Quarterfinals
By Chad Beattie

A late defensive miscue allowed Nova Southeastern to defeat the Lynn University women's soccer team 2-1 in the quarterfinals of the Sunshine State Conference Tournament. Brittany Evenden scored for the Knights as they close out their season 7-9-1.

Nov (11-2-2) responded just nine minutes later. They dribbled through the LU defense unchallenged and sailed a shot from the top of the 18-yard box to the upper left corner. Lynn keeper Jennifer Shropshire couldn't get enough of her fingers on the ball to keep it from going in.

NSU out shot LU 14-8 with Shropshire tallying eight saves to NSU's five. The eight saves gave Shropshire 85 for the season, and keeps telling me I have the ability to make more changes this season. Evenden found a lane through the Sharks defense and launched a shot from 35 yards out to the left post. NSU keeper's initial stumble slowed her up enough to allow the shot to go in for the 1-0 lead.

This week was really interesting because I made a change in the game. On Friday, I sat down with my coach and we talked about changing my swing. He told me my hands were behind the ball, and that made the ball weak when it hit the green.

I practiced all week, hitting 200 balls to get a feeling for the change and the results are much better.

My coach believes in me, and keeps telling me I have the ability to make changes and hit much better golf shots. The point is to be more consistent and I am looking forward to that. I am excited about making more changes to improve.

Question Of The Day

Do you think Enron's former CEO, Skilling, deserved 24 years in prison?

Reported by Laura Vann

"He got what he deserved, and the best part is that when he gets out he will be broke."

Ben Wiesenfeld, Sophomore

"I think he deserved more because he ruined so many people's lives."

Trevor Schliefer, Sophomore

"Not that much, but he definitely deserves to be in prison."

Jon Cross, Freshman

"He should have been sentenced to more years - that jerk!"

Katherine Corva, Sophomore

"Of course he did! He lied to his employers and now they are all bankrupt."

Katie Bacarella, Freshman

"Usually when you have that much money, you can get rid of it."

Morgan Armstrong, Senior

Politicians Publicize for Free

Using MySpace, Facebook and YouTube

By: Laura Vann

It's that time of year again — time for the 2006 midterm elections. On November 7, Americans will vote for members of Congress, State Legislatures and some state governors.

Less than two weeks away, the midterm elections are always held on the first Tuesday after the first Monday in November of every even-numbered year.

This year politicians are branching out. They are trying to reach the younger audience and they are using new, popular venues such as MySpace, Facebook and YouTube to publicize their viewpoints.

Along with the changing times, these mediums have invaded the lives of many young people, and in reality have become a way for candidates to receive free exposure on the web.

MySpace receives fifty six million hits a month. More than a thousand and four hundred people have listed themselves as current students of Lynn University and more than eight hundred and fifty people have listed themselves as alumni. With 2,761 students enrolled, these numbers reflect that over half of the university has MySpace accounts.

Daniele Antonaccio, a junior at Lynn, said, "I have a MySpace and Facebook account. I didn't know that politicians had profiles, but now that I do, I will search and check them out. I'm originally from outside of Philadelphia, so I just sent in a form for my absentee ballot to be mailed to me. I always research the candidates online before I vote for them. It will be nice to see what kind of comments real people are making on their profiles. It won't be just what the candidates want you to see on their paid website."

The fact that anyone can leave comments and blog freely about the candidates is what some politicians fear when using these free Internet sites. People from the opposing side have the opportunity to post any positive or negative response they want to. This form of publicity could easily backfire on the candidates, striving to get enough votes to win their position.

Frank A. Gonzalez, a democratic candidate for Florida's U.S. House District 21, has a MySpace and Facebook account in addition to YouTube videos on his MySpace profile.

You can visit Gonzalez's MySpace campaign site at: "www.myspace.com/gonzalezforcongress" for more information. You can search for Clay Shaw, Jr., republican candidate for Florida's U.S. House District 22 on Facebook where you will find a photo album of his friends and family in addition to his political stance.

Remember that every vote counts in this mid-term election. One of the pressing questions this year asks, will the Democrats take over Congress or will the Republicans stand strong? Search the people who will be representing you via your favorite site, whether it is MySpace, Facebook or YouTube. Make a decision and vote. You could be the deciding factor!

Freshman 15

What You Need to Know

http://www.columbia.edu

The Freshman 15 is a common fear of students entering their first year of college life. However, it is quite a misconception amongst young adults.

The phrase "Freshman 15" does not adequately reveal what studies have proven, which is that most young adults bodies in college will go under a complete physical transformation. This is not indicating any type of developmental enhancement, but rather the expansion of the waist.

In fact, the Behavioral Risk Factor Surveillance System has shown that the amount of obesity in college students has doubled within the last ten years. Most students in college experience weight gain due to an increase in the amount of junk food eaten in place of home cooked meals.

The motivation for being thin goes beyond vanity. The most important motivation is securing a healthy lifestyle. Eating right and exercising has been proven to decrease the amount of health problems that can show up later in life. The health risks from being overweight include but are not limited to; heart disease, stroke, diabetes, cancer, sleep apnea, osteoarthritis, gout, and gall bladder disease.

Another motivation for losing weight is your gas tank. That's right, according to newfound studies, gas mileage is affected by the amount of weight you carry around your waist. Shrink your waistline can increase the amount of miles you can get out of your gas tank.

University researcher Sheldon Johnson stated "If a person reduces the weight in their car, either by removing excess baggage, carrying around less weight in their trunk, or, even losing weight, they will indeed see a drop in their fuel consumption." The next time you take the advice of a song advising that extra "junk in the trunk" in a turn on, think about your gas tank.
The Zune

Cool New Gadget

By Nicole Piccolo

Look out iPod the Zune is coming through. Next month Microsoft will be releasing a new MP3 player.

But this is not just another MP3 player like the iPod. Microsoft made the Zune to have features that iPod doesn’t offer.

The Zune also has 30 GB digital media player. Besides being able to share full length songs, people will also be able to share, play lists, pictures, or home grown tracks.

It can store up to 7500 songs, 25,000 pictures, and up to 100 hours of video. The Zune comes in three colors white, brown and coffee.

When watching videos the three-inch screen can be changed to landscape mode allowing the viewer a better picture. The Zune comes with a wide variety of accessories for your car, in your home, and for traveling.

For the car it has a built in FM tuner with and Auto seek and a car charger.

The home package offers TV and music speakers, a dock, wireless remote and more.

For travel it offers premium earphones, connect remote, gear bag, AC adapter.

With the release of the Zune, Apple definitely has some competition on their hands.

The Zune hits stores November 14th.

Everex Systems, just launched a new energy-efficient laptop with a VIA Technologies C7-M central processor inside.

This system will be sold at Wal-Mart stores for under $500.

The Via microprocessor inside Everex’s StepNote NC1500 provides 1.5GHz performance at very low power consumption of only 12 watts.

The laptop runs on Microsoft Windows XP. Home edition, includes a 15.4-inch screen, built-in wireless-LAN, and a DVDR burner.

The benefit? Via and Everex stated that it gives users a 20 percent improvement in battery life over comparable systems.

Both companies worked together to develop the design. They are also attempting to create more nature-friendly products with lower total cost of ownership.

The laptop employs VIA Enhanced PowerSaver and TwinTurbo technology to save power.

The technologies enable the system to transition between intermediate power states, extending battery life.

The notebook PC is available throughout the U.S. at over 2,900 Wal-Mart stores, with a price tag of $498.

Other specifications of the laptop include a 600 byte hard drive, 512M bytes of DDR2 (double data rate, second generation) DRAM (dynamic RAM), VIA UniChrome graphics, a Lithium Ion battery and it weighs 5.3 lbs.

Thrilling Victory Over Rollins

Volleyball Sets Conference Wins

By Jeffrey Meenan

In the second five-game marathon match of the season between the two teams, the Lynn University volleyball team extracted revenge from an earlier loss to Rollins College with a 3-2 win.

The victory marks the sixth Sunshine State Conference win of the season, and the most conference wins for the Fighting Knights in program history.

"Especially with the way they played down the stretch, it also proved how much our seniors wanted to help boost the program on their way out," Head Coach Lynne Roberts Roos said after the match.

Senior Larissa Witherspoon paced the Knights (13-13, 6-8 SSC) with 18 kills, joined in double-figures by junior Immira Zamara with 15 and senior Me­ li­ssa Roberts with 10. Zamara hit for a scintillating .414 on the day.

"Lar­issa has really come through for us these last few games," Roos said. "She’s been coming through with big kills and strong defensive plays down the stretch for us."

"The conference wins mark a new chapter in our program," Roberts added.

Witherspoon also led the Blue and White in digs with 18 as one of three LU players with a double-digit total. Roberts added 11 digs while redshirt freshman setter Megan Bednar put together a 50 assist, 10 dig match for her first of her career.

"Megan did a great job leading the team today," said Roos. "She showed her versatility on offense and defense, and was a key factor in the win."

Sophomore libero Christie Schade also had double-digit digs with 16.

In a back-and-forth first game, Lynn quelled an 18-13 Rollins advantage with a 9-1 run highlighted by a pair of kills by Roberts and capped with a kill from Witherspoon. The Tars would battle back to tie things up at 25-25, but the Knights rallied off five of the next six points including three kills by Deirdre Knoebel for the 30-26 victory.

Game two had an early 5-3 tie turn the tide in favor of Rollins on an 8-0 run as the hosts cruised to a 30-19 victory. The Knights struggled to make up any room as the Tars responded to every LR offensive before closing out the frame on a 6-1 run.

Rollins (17-12, 5-8 SSC) looked to have the upper hand in the third game with multiple 5-1 runs before a 6-0 stretch by the Blue and White, capped by a pair of kills by Witherspoon, evened the score at 22-22. With the Tars again taking a two-point advantage at 23-22, Lynn rallied off five of the next six points to complete the comeback at 30-28.

The Zune was released on November 14th and is compatible with Windows XP Home edition. The Zune is available at Wal-Mart stores, with a price tag of $500.

Everex Systems, just launched a new energy-efficient laptop with a VIA Technologies C7-M central processor inside.

This system will be sold at Wal-Mart stores for under $500.

The Via microprocessor inside Everex’s StepNote NC1500 provides 1.5GHz performance at very low power consumption of only 12 watts.
