iBook Tips

Sanne Unger and Carrie Simpson
Palm Beach Tech 2017
Introduction

iPad Revolution at Lynn University

From the start: iBooks!

Created by faculty

Created for Lynn students

Tips!
Writing a book: Collaborate!

- Collaborate
- Same subject colleagues
  - Divide chapters
  - Create videos
  - Case studies
- Input from other subjects
  - Different perspective
  - Application
Writing a book: On your own!

- Write in phases
- Publish as you go
- Add your own content
- Course specific
Widgets

Planner

REFLECT!
Think of an example of social class hindering a person’s chance of success.

Find a news article that exemplifies the disadvantages caused by social class. Add a screenshot of the article here.

What Would You Do?
Think of a serious social problem today that relates to your academic major. What is it? Write it down.

Now, develop three theories on what you feel might cause this problem and three possible harmful consequences to society of the existence of the problem. (You do not need to research these theories. Instead, your theories on the causes and consequences of the problem can be "off the top of your head.")

How might you go about studying the problem in order to actually determine the real causes and consequences of it? Write down a good research strategy.
