Today's Issues

The question of giving the vote to 18-year-olds has been discussed for decades, but in 1970 Congress took steps to make this a reality. In March, 1970, Mike Mansfield sponsored just such a bill. It was included as a portion of the Voting Rights Bill and was passed in the Senate 64-17. This bill embodies a radical concept of lowering the voting age by legislation as opposed to Constitutional Amendment. In the House of Representatives, after much debate, the measure was passed 272-132. It stated that the voting age would be lowered to 18 from 21 in local, state, and federal elections beginning in January 1971. Approximately 11 million young people will be enfranchised. With these provisions, the vote of 18-year-olds in Florida will have "all the rights and responsibilities of an adult." There will obviously be many legal implications to this measure. Therefore, if the states choose, they can propose these amendments to their constitutions since the states have the power to set voting qualifications. However, if the Supreme Court is involved, matters will become more complex. The self-study is headed by Mr. Mooney as chairman. It is divided into nine groups, with a chairman for each group. The groups are as follows:

I. Purpose: Board of Trustees, II. Organization and Administration: Fr. Fagan, III. Educational Programs: Dr. Steurer, IV. Financial Resources: Mr. Forbes, V. Faculty: Dr. Steurer, VI. Library: Sr. Kathleen, VII. Student Personnel: Dr. Freeberg, VIII. Physical Plant: Mr. Forbes, IX. Planning for the Future: Chairman not known yet. This accreditation is very important to know in selecting a college. It assures you of your grades and courses transferring to another school or college that is also accredited.

The role of the student in criticism and decision making is not new. In medieval times, the student had the voice in hiring and firing, and saying what goes and what doesn't. To make this self-study program accurate, opinions, comments, or suggestions are welcome on any aspect of life on campus. You can submit them to any of the chairmen mentioned or to Mr. Mooney. Let's help form the blue print of the future of Marymount. Let's get it together. Get involved in being responsible in the area of criticism and decision making. Let's not revert back before the medieval ages.

The Elysium, as its title implies, is a haven for people like you AND I. Although drug problems are the most numerous, even people with other type problems are welcomed. There are few difficulties which are not encountered at Elysium.
A few weeks ago Vice-President Agnew "suggested" that television news commentators state their "underlying philosophy" in front of a panel of government officials. Eric Sevareid replied with this statement, as printed in Times Magazine. He brought out a fact that should have hit home a long time ago.

Televisio, news and any other form of communication is composed of men who would only effect its decision with their own personal views. It does not mean to stifle it when someone happens to hit on fact that certain people would rather have kept unsaid and ignored. On the other hand, it does not excuse and favor the printing or stating of anything true or slanderous, deliberately endangering the freedom of anyone else. Its purpose is to be fair and truthful in its expression, but most importantly to be free.

This issue is an important one and one effecting not just television news commentators and Times Magazine but every person who considers himself to be a citizen of the United States and feels his opinions and ideas are a free expression of himself. It effects every form of communication, every broadcast, every news paper and pamphlet that is printed. It is a challenge against the founding idea of our country as a whole, that is, the right of each citizen to state freely his opinions and views without fear of intimidation or threats from any source. It is an issue that cannot be ignored or set aside as one of our many "exceptions" to the rule. Too much is at stake. We, the people, are at stake and we are the ones whom it will affect.

The above paragraphs are only my opinions. It isn't earthshattering and you may not agree with it, but I thank God that I can freely state it, responsible only to the values and ideas of my own conscience. I pray for our own sake, that it stays this way.
I tried to contact Mr. Ranspach but there was no way. So this article is bits and pieces put together. It also includes some scopes. Mr. Ranspach before coming to Mount was a marriage counselor for his wife, who ended up having an animal farm.

But now Marymount has him. And I shall try to come to you readers what kind of a person he is. His favorite card game is solitaire.

He also has ideas on Marymount and what should be done. First of all, there should be a footbridge between Trinity and Founders. Second, the landscaping should be done with bright colors in all sizes, and shapes of trees, bushes, flowers, and etc.

Third there should be walking paths instead of side walks. These ideas are not for aesthetic purposes only but also to generate the attitude of the students on Marymount.

Marymount is the best place to be because it is flexible, with changes occurring all the time.

The last thing he feels is that architecture has become less aesthetic value, and should give you the feeling of wanting to be inside, and outside, when outside. So with this in mind, the writer feels we should protest the way our dorms are set up, plus many other things.

He tries to recognize Ranspach is not hard. He is the impotser in the grey jump suit talking for Who, and giving out the dry martini jokes.

upholds the Mansfield bill, than that piece of legislation and not a federal or state constitutional amendment will uniformly apply to all the states, meaning that the January 1971 lowering of the voting age will take place. Out of state students should "determine" whether such proposed amendments to their respective state constitutions are on the ballot. If not, than they will be "dependent" upon a favorable ruling on the Federal bill if they hope to register by January 1971.

CHALLENGES

Volunteer teaching aides are needed in the Delray area at the following places:

Delray Elementary School (call Mrs. Barbara Belford at 278-4526)

and at Delray Community Center (call Mrs. Howes at 732-6332)

You must provide your own transportation and the hours for working can be arranged to suit your schedules. You will be working with privileged children and their teachers.

SOMEWHERE THE EQUATION BREAKS DOWN

between the perfect (invisible, Plato said) and the imperfect that comes at you in the street - stench and cloth and fried eyes - between the wired bones of the dead stuttering, shamed, and the marvelous lucid spirit that moves in the body's spaces - a rainbow fish behind glass - decide. Oh, coincide!

Daniel Berrigan

you shall above all things be glad and young
for if you're young whatever life you wear
it will become you

and if you're glad whatever's living will
yourself become

Challenges

Hi. I'M your next door neighbor, though you probably don't know it. Even if you do, you don't care.

I live adjacent to a group of girls who reside in Wixted Hall. They may be perfectly nice girls in many ways but they seem oblivious to me. They pass me every day and even though I wave, they never smile.

When I'm sad my needle droop, but when I'm electrified. My branches perk up and I've been told that I stand at least two feet taller. Why don't you look at me? I could of course, be less subtle like my neighbor and drop coconuts on the ground to attract attention. No, I'm not that type of tree. I want recognition, not attention.

You take me for granted you know. You lean upon me and use me for shade. When it rains I'm happy to spread my branches to keep you dry. Though some rain may touch you, most of it drenches me. You know, I'm glad to do it. I'm irrevocably in love with life and you are life. Maybe someday you'll come up and say, "Wow! Look at that beautiful tree. Take a closer look; I've grown two feet taller.

Daniel Berrigan

We were talking about the space between us all And the people who hide themselves behind a wall of illusion Never glimpse the truth - then it's too far too late when they pass away. We were talking about the love we all could share when we find it to try our best to hold it there - with our love With the love - we could save the world - if they only knew. Try to realize it's all within yourself no one else can make you change

And to see you're only very small and life flows on within you and without you. We were talking about the love that's grown so cold and the people who gain the world and lose their soul - they don't know - they can't see - are you one of them? When you've seen beyond yourself then you may find peace of mind is waiting there And the time will come when you see we're all one and life flows within you and without you.

G. Harrison

Peaceful room, peaceful blanket, large pillow, cold, interesting art....

Aram Saroyan

an oyster can't read this

e.e. cummings
"Feast of Fools" was a holiday celebrated in medieval times in parts of Europe. On the day this holiday took place, the townspeople would parade around in bright costumes and masks. During the celebration, laws of the land would be playfully mocked, along with the administrators of these laws. On October 22, 1970, the students, faculty, administration, and friends of Marymount College participated in a contemporary revival of this medieval holiday. Although we didn't mock the administration by dressing up, we did do a number of things on this campus that are not ordinarily done. Painted sidewalks, colored paper balloons, dinner outside and various forms of entertainment created the same feeling on Marymount's campus as they were designed to create in the medieval times. It was a day to put our worries aside and have a good time. All gave our selves a break that day and refreshed ourselves in preparation for the beginning for the second block or for the second half of fiesta we've been looking for yourselves what happens.

All in all, the movie is very entertaining, even if Namath does not prove to be much of an actor.

SEX and MARRIAGE

The convocation on "Sex and Marriage" was presented Oct 15, by Dr. Weems. His lecture dealt with sex within the marriage topics such as contraceptives, how often you should have sex in a marriage, and when to have sex in a marriage. After Dr. Weems had completed his lecture he gave the students an opportunity to ask questions. At this time students could either ask questions or write them down on paper. Most of the questions were based on contraceptives for example, where they could be obtained, which ones were caused cancer or not, the after effects, and whether they were still effective over a long period of time or not. Everyone in the convocation seemed to have a mature attitude therefore there was a very good atmosphere for questions.

An estimated figure of 500 students were present at this convocation, which shows there was a lot of interest. Convocations on subjects like sex and marriage seem to stimulate student interest since in one way or another they will affect our lives.

I think we should have more convocations oriented to student interest.

MOVIE REVIEW

Starring Joe Namath and Ann-Margaret, "C. C. and Company" is a movie without much plot, but plenty of action. Unlike many current movies, "C.C. and Company" does not have a message to relay to the audience; it is designed only for entertainment. Joe plays C.C. and rides with a motorcycle gang. He comes to the aid of a lady in distress, Ann-Margaret, and falls in love with her.

After a quarrel with Moon, the gang leader, C.C. seeks the company of Ann-Margaret. The motorcycle gang wants to get back at C.C for leaving them so they kidnap his girlfriend.

The story goes on but you'll have to see for yourselves what happens.

All in all, the movie is very entertaining, even if Namath does not prove to be much of an actor.

"LAUGH-IN" CAST REVISED:

PRICE GOES UP ch�ingly called a "baby spot." This is a much needed place of equipment and MM deserves the best for its over flow of talent.

To further tempt you (Nov. 12, 13, 14) BM says the cast is so good it could go on tomorrow! A performance of this kind is worth seeing two or three times because it is so fluid and because half the fun is watching the cast members surprise each other.

C O M E !
All the designers are feeling light-hearted. They're into romance, easy sports-wear and especially fun clothes.

Designer Victor Costa believes in a woman who watches a budget. "I don't believe in women spending a fortune on clothes," he said.

This year the casual look is coming in extremely strong. There is a new trend and an increasing popularity of the once traditional blue jeans and T-shirt. Colorful cartoon tops and jeans are now being featured with Walt Disney's Mickey Mouse. He is still very much alive and will most probably prove so on campus.

COMING NEXT: "WHAT'S HAPPENING IN FASHION?"

Do you want to see what MM is doing outside of MM? Read on!

The merchandising department, beginning the week of 9 November, will be doing the window displays in the BOCA PETITE SHOP. The shop is located on Palmetto and Federal and besides offering MM Merchandisers an opportunity to do their stuff it also offers some fantastic buys. Basic items like jeans run much more inexpensively there than at Pink Place type stores.

The group will be using the store as a lab where they will do their stuff for grades and experience.

See you there!
