GIFT ADVANCES FINE ARTS

by Bernadette O'Grady
Associate Editor

We, here at the College of Boca Raton, can consider ourselves fortunate. In just a few years our campus may become the cultural focal point of South Florida — thanks to Mrs. Sonia Gore, a local philanthropist who donated a $1 million gift to the college for a new performing arts center on our campus.

This more than generous donation will provide the College with the opportunity to bring in fine opera, symphony, ballet and theater. Not only will we on the campus benefit from the center but also people in the Boca Raton community.

The question in most people's minds is, who is this extremely generous woman? Mrs. Gore was born in Russia and educated in Switzerland, has lived in Chicago, Knoxville, Cincinnati, New York, Berlin, Rome and Milan before moving to Boca Raton last year. She has always been greatly interested in music and the arts. In almost every city that she lived in, Mrs. Gore has been active in the operatic institutions of that city.

We now have a fitting home for the fine arts, which, with this new center, will blossom in Boca Raton.

DR. ROSS REFLECTS

by Bernadette O'Grady
Associate Editor

In the beginning of this semester, I did an interview with Dr. Donald Ross and asked him to comment on the year so far. He told me how encouraged he was by the student attitude on campus and that he was looking forward to a great semester. Well this week I did a follow-up interview with him and it seems as though Dr. Ross is even more pleased. The only problem that he has been made aware of is the complaints about the food service. But even that is being worked on and modifications are being worked out.

Dr. Ross is most definitely encouraged with the new system of student representation. There seems to be less of an attitude of restlessness and more complacency on the part of the student body. A "tone of tranquility" permeates the campus and seems to create a rather positive atmosphere for learning. A good example of the new optimism in the air was last month's Parent's Weekend Jamboree, which he told me was quite a success. In fact Dr. Ross told me that he received many phone calls from parents commenting on how pleased and impressed they were. The mood was relaxed and informal and has continued into the rest of the semester.

There are some new plans in the future for the college. There is the new high school building, which will give the high school students rooms of their own and a sense of independence. Also going up is the Frederick and Sonia Gore Center for the Performing Arts, which is forecast for 1981 or 1982. There are also more immediate improvements planned. The curriculum will include a new technology division. Specialized classes in electronics technology and other applied sciences will be offered, beginning in September 1979. There is a new career advisory board to work in conjunction with academic officials in planning the curriculum to meet the special needs of local scientific and technological industries.

Advisory board members include H. L. Davidson, general manager of Siemens Corporation; J. Bauer, of Sensormatic Electronics Corporation; J. Avery, operations director of ITT - North Electric Co. Microsystems; R. Miller, group vice-president of Arvida Corporation; A. Fonda, president of First Bank & Trust of Boca Raton; H. Durance, general manager of Mitel Inc.; E. V. Marshall, president, Pratt & Whitney Aircraft; M. L. Treffer, vice-president, Motorola Inc.; and J. T. Bolan, past president and chief executive of Kewanee Industries, Inc. of Bryn Mawr, Pa.

The new division, Dr. Ross said, will offer students two-year programs leading to the associate in applied science degree with concentration in electronic engineering technology.

"By providing the kind of training that corporations like these demand, we think we'll be filling a need not just for local businesses, but also for young people interested in entering these professionally."

It looks like the semester is "moving in the right direction," according to Dr. Ross and, as far as I can see, he is absolutely right.
To the Editor:

In response to your article (Pulse, November), I would like to point out the obvious: the root of the problem is the quality and variety of food available to the student body. The response to your question, "What do you think of the food?" is just as obvious: most of the students don't have much of an appetite. The food is too bland, the variety isn't enough, and the price is too high. The students need nutritionally balanced meals and a variety greater.

It is true that on occasion, such as Parent's Weekend, when outsiders view the campus, meals are fairly good. But for whom? It is not much ask for, since mother can't be here, only that our food be nourishing and have some taste to it (other than salt, pepper, and gobs of ketchup).

Each student is required to spend at least 15 hours a day trying to resolve problems in order to have enough money to pay for room and board. So there is money set up for a food budget. Where does that money go? Do we question the administration, or the food service, or both? There should be no need to spend additional money, on a daily basis, to eat out.

We go from soggy or wilted salads to boiled vegetables soaked in butter (tasteless) to hamburgers incognito with different names, to our deli bar. Where does that money go? The answer is: to the back page of the last issue of the Pulse.

since that article appeared, the voice of dissent amongst the student body has become louder and louder. The comments ranged from, “I hate the food!” to “It's just not good.” One student noticed his palate was growing, stomach needs to be pacified, not tormented.

Mr. Donald Thomas, the Morrison’s people work very closely with the Food Service Committee to reach the Food Service. The committee is an ongoing process of constant evaluation and collection in order to present the other side as fairly as possible. As the Easter holiday grows near, we asked some students here at CBR what their plans are...
SGA Elections
by Kathy Carroll

A vote was taken in February to elect officers and senators for the 1979 spring term of the Student Government Association (SGA) to serve until May. These new officers are:
President ........ Gordon Luciano
Vice-President ........ Ted Lewis
Treasurer .......... Steve Dorey
Secretary .......... Gail Sokowlowski
Senators ........ Debra Allen, Beth Arnold, Robert Biasi, Mike Lowenthal, Jean Natale, Wendy Osmun.

It is important to remember that these persons represent the student body, and they cannot function properly without this student body input.

According to President Gordon Luciano, the SGA is in the process of changing its function. Luciano explained the change as a greater focus on judiciary action rather than activities coordination.

SGA elections for the 1979 fall term will be put-of until the SGA reorganization has been completed, according to Luciano.

PARENT'S WEEKEND REMEMBERED

HONORS CONVOCATION
The honors convocations dinner and ceremony will be held Thursday, April 5th in the dining room, located in the Lynn Student Center.

All dean's list and honor society inductees will be honored, according to Dean Matthews. Fifty-two students made the dean's list during the fall semester, by obtaining a 3.25 grade point average or higher. Eight students have been named to the honor society, having maintained a 3.25 (or higher) grade point average for two consecutive semesters.

by Jean Shumanski
The print journalism class of CBR enjoyed a very special seminar on March 10: a journalism seminar sponsored and conducted by the editors and staff of The Boca Raton News. Held at Florida Atlantic University, which co-sponsored the event, the seminar included speakers Jim Driscoll, editor of the Boca News, on "One day of covering the mayor's race in Boca Raton"; Rebecca Ross, former Boca News reporter, now a reporter for the Miami Herald, on the similarities and differences between reporting for small and large newspapers; Bob Ruf, news editor of the Boca News, on "Editing: entering a new age of technology."

After a picnic lunch, the afternoon was devoted to talks with Patty Davidson, city editor of the Boca News; Mike Jamison, sports editor; and John Coler, photographer, who presented a thought-provoking collection of photographs and discussed the current state of photojournalism and its future. The seminar was attended by journalism students from high schools and colleges throughout the country, and its informal, friendly atmosphere lead to much interaction between professional and aspiring journalists. The day was, in essence, a mini-course in journalism: educational, entertaining and challenging to future journalists.

Class Explores the World at Print.

Mr. Driscoll explains a point.

AMERICA THROUGH FILM

An exciting new course will be offered next fall, with not only new and different subject matter, but with an innovative teaching approach.

The course, America Through Film, will be offered as a humanities elective, on Wednesday nights. Its focus will be an analysis of America in this century (from the 1920's to the present) as reflected in American movies. The course will utilize popular films of each decade as a basis for discussion. Its teaching method will also be different, as the course will be team-taught: by Dr. Pickering, who will analyze American values, and by Ms. Wershoven, who will concentrate on the film as a kind of literature, to be analyzed as such.

More than viewing films will be involved in the course — much time will be devoted to discussing the films, and the course will require several papers, half on a historical and half on a literary approach, to film. There will also be a final examination and a laboratory fee to help cover the cost of the films.

America Through Film is only one attempt to provide students at CBR with creative and challenging electives. It promises to be a stimulating experience for all involved.
**NORMA RAE**

by Richard Allen

I have heard it said that there are not enough roles for women in the movies, but there must be plenty of work for them. In fact, so much is being made, on and off the screen, about the advancements of the new woman, that you have to wonder why there are so few roles for women in the movies. Perhaps it is the fault of the men who run the film industry. Perhaps it is the fault of the women whoLets

**Harry's Place**

by Craig Chensha

The old Rat was given new life this semester, when Harry Koehler transformed it into "Harry's Place."

After managing the cafeteria for about a year and a half, Harry began changing the restaurant into a place that was a bit more than a cafeteria. It was then that he decided to use the space as a restaurant, and he began to think about what kind of restaurant he wanted. He decided that he wanted a place that was comfortable, and that would be popular with students. He also wanted a place that would be open late, and that would be open all week long.

Harry's Place opened for business last year, and it has been a great success. Students have been coming in to eat, and they have been enjoying the food. The menu is varied, and it includes a lot of different types of food. The prices are reasonable, and the service is good. Harry has been very happy with the way things are going, and he is looking forward to the future.

**CONCERT LISTINGS**

March 26: Andy Kaufman, Guzman Cultural Center.
March 26, 28 - April 1, 5-7: Chuck Mangione, Guzman Cultural Center.

**SUPPORT YOUR DRAMA CLUB**

This has been an interesting year for Academy Award nominees. As you will recall, last year Annie Hall took best picture, Richard Dreyfuss won for his role in the sympathetic down-to-his-luck actor in The Goodbye Girl. Diane Keaton won for her part as the hip-chick girlfriend of Woody Allen. And of course, the best song was You Light Up My Life. Who will win this year's honors? Here are the results: for best picture FAMILY and Sanity at the same time in Interiors.

Last but least be the best song

**THE ENVELOPE PLEASE**

by David Richard Allen

Along with the good weather and chirping birds, we also have some new music to enjoy while we lie lazily on the beach.

**MOUSETRAP IS SET**

CBR drama students are hard at work on their latest production, Agatha Christie's The Mousetrap, a murder mystery in two acts, and the longest running play in history.

**ALBUMS FOR SPRING**

by David Richard Allen

Along with the good weather and chirping birds, we also have some new music to enjoy while we lie lazily on the beach.

**Nicolette Larson. . . . is the best thing I've heard since Carole King's Tapes.**

Larson sings her heart out on this debut album. For once, a singer sings to you, instead of screaming at you. This is the kind of album that you won't want to take off your turntable. Rolling Stone magazine listed her the best female pop singer of 1978.

The best cuts were hard to pick due to the fact that each one is like eating a hot-fudge sundae. However, Lotta Love, by Neil Young, and Give A Little followed by the classic You Send Me, by Sam Cooke are my favorites.

MOVIE REVIEW
by Connie S. McGleney

*King of the Gypsies* is a fascinating film, with excellent performances, a powerful dramatization based on a non-fiction account by Peter Maas (Serpico), and a phenomenal new star: Eric Roberts. Everyone has his own conception of the gypsy; whatever that may be, this film is sure to alter it. It is the story of three generations of an especially violent gypsy family written, directed and produced by Roberts — to escape the gypsy tradition, Sterling Hayden plays the old king; Shelly Winters, his queen; Judd Hirsch, his bizarre murderous son Groffo; Susan Sarandon, Groffo's co-actorist wife, Rose, a central character, exquisitely depicted. Carefully costumed and with just the right uneducated, slightly foreign accent; they all seem astonishingly authentic, even Brooke Shields of "Pretty Baby" as the daughter Groffo wrote to sell to another gypsy family in marriage. But the best part of the whole movie is Eric Roberts as Sterling Hayden's grandson David, who, unable to read or write, "doesn't want to be a gypsy anymore." Yet when he escapes the crazy gypsy world he confesses, hunt and lovely, "I miss the gypsies, you want the truth". Roberts has dark hair and blue eyes and is tall and slim, he's not exactly your every-day gypsy, but he's by far the best actor I have seen in a long time.

WHAT'S COOKIN' AROUND TOWN
by Mike Lowenthal

If you like good food, Florida's Gold Coast has many restaurants to choose from. Of my favorite spots are right here in the Boca Raton-Deerfield Beach area. **Sterbs South**, located at 1450 N. Federal Hwy. in Boca Raton, has a varied menu from Prime Ribs of Beef to a delicious Sea Scallop plaster. The contemporary atmosphere is most pleasant. Each meal is reasonably priced, from $8.95 up to $21.95. They include a fantastic salad bar and Cơch chowder that is out of this world. There is a piano bar and lounge just opposite the dining room, where you and your date can sit and relax to the great songs of the past sung by Bruce Williams.

The dress code is somewhat causal, although most gentlemen do wear a sport coat. Lunches are served from 11:30 till 3 p.m., Monday thru Friday. Dinner starts at 6:00 to 11:00, Monday thru Saturday; 6:00 till 10:00, on Sundays. So come in and enjoy a great meal at Sterbs South or just come in for a drink. The bartenders are the best in town! Looking south toward Deerfield Beach, we will make a left-hand turn on Hillsboro Blvd., and proceed east until we arrive at the Cove Shopping Center. There we will find **One Potato, Two Potato**, another excellent restaurant and lounge. Located just off the Hillsboro inlet, One Potato, Two has a fantastic variety from Barbecued Baby Back Ribs to Filet Mignon. One Potato, Two has a casual dress code and prices that are quite reasonable, starting as low as $4.95 to $10.95.

On Tuesdays and Thursdays after 10:00 p.m. you can enjoy a basket of breaded chicken for only 97¢ at the bar. The bar is also opposite the dining room which has a rustic atmosphere. Drinks are reasonably priced and served in Pyrex measuring cups, an unusual technique. The bar has been re-designed since 1977 and really is a nice place to relax. So, come on down to One Potato, Two Potato any night of the week and have a good meal.

Sultan's Deli, a much more inexpensive eating place, is located at 6100 N. Federal Hwy. in Boca Raton, just next door to the Royal Palm TV on the right-hand side of U.S. 1 going north. It is my favorite sandwich shop. For $1.95 you get a great, huge Corned Beef on rye, hard roll, or bagel. And for even less money you can get a Hoagie that is packed with the good stuff. Sultan's Deli is open from 9:00 a.m. to 3:00 p.m. Great place for the munchies!

SUMMER SESSION
by Ellen Goldberg

College of Boca Raton summer session of 1979 will accept applications for early registration, for both summer and fall, on March 19 thru March 30. Early registration students should meet with their advisor to work out class schedules and secure white cards. Your advisor must sign your class schedules.

Registration for summer session opens at 10 a.m. Monday, May 21. Classes begin on Tuesday the 22nd, and Thursday the 24th is the last day to register for, and enter any class.

PULS March 1979
Anyone who will be 20-years-old this year is a Pig. Likewise, those of you who will be 19 are a bunch of rats! Don’t take offense because it is only the Chinese way of telling your horoscope! For those of you who are into your signs and astrological cycles, you can flow with the horoscope. Also, there is a little something to help widen your interests and let you know more about yourself and your friends.

January 28 is New Year’s Day for the Chinese and the beginning of the Year of the Goat. If you were born in this Chinese year or any of the 11 others, your horoscope will tell you what’s in store for you over the next 12 months.

The Chinese astrological cycle is a series of 12 — but of years instead of months. Each year is given the name of an animal and this animal determines the fate of all people born during that year.

To find out which symbol dominates your life, look up the year of your birth in the following chart. But bear in mind that the Chinese New Year does not coincide exactly with ours. In China, the New Year begins with the first new moon after the sun has entered Aquarius. So if your birthday falls on January 28, or earlier, consider yourself for the purpose of the Chinese horoscope as having been born in the previous year.

(For the Years of the Goat are also known as the Years of the Sheep, the Years of the Rabbit as the Years of the Cat, the Years of the Pig as the Years of the Boar and the Years of the Buffalo as the Years of the Ox.)

HORSE
A real socialite, your amiable and carefree disposition makes you exceedingly popular. You love to be the centre of attention; you certainly have business sense but let others run the show this year. A helpful hand to those less fortunate than yourself will work wonders. Try it and you will see. You have an idealistic streak and will enjoy your life more than your work this year.

Goat
Reserved and practical, you have a burning desire to succeed in business. You are generally unemotional with a tendency to keep your feelings to yourself. You have common sense combined with stamina and are often found helping in the community in local politics or charity work. Elegantly,

Snake
Intelligent, wise and intuitive, you don’t suffer fools gladly and are good at following through all you undertake. Your main stumbling block is your pride and the inability to admit mistakes. Lucky with money, you’re no gambler or spendthrift. A magnetic personality, you are often sexy and romantic, you’ll have a natural dress sense and style.
